**A summary of the renewal permit follows:** Clean Earth is a commercial hazardous waste storage and treatment facility which accepts RCRA listed and characteristic wastes from many types of industries. Wastes are received for on-site storage in their original containers prior to off-site treatment and disposal. Wastes are also received for on-site treatment or consolidation prior to shipment to another facility for treatment and disposal. Both bulk and containerized wastes are accepted from over the road vehicles. The permit will allow Clean Earth to manage up to 89,533 gallons of hazardous waste in eight container storage areas. Clean Earth also manages hazardous wastewaters in its aqueous wastewater treatment system.

All comments received during the public comment period or at the hearings will be considered in the decision regarding this renewal permit. Comments received after the public comment period ends will not be considered. The statutory authority for calling the permit hearing is G.S. 130A-294(f). Applicable State rules are found in the North Carolina Hazardous Waste Management Rules 15A NCAC 13A .0105, .0109, and .0113. These rules adopt the requirements of the Federal Resource Conservation and Recovery Act as amended by the Hazardous and Solid Waste Amendments of 1984.
