SUBJECT: UAT and PAMS Carbonyl Sampling Procedure Update

1. UAT field blank carbonyl sampling frequency is changing from rotating between the sites once per month (January FB-Candor, February FB-Millbrook, March FB-Candor, April FB-Millbrook, etc.) to being collected from all sites (January FB-Candor, Millbrook, and MillbrookDuplicate; February FB-Candor, Millbrook, and MillbrookDuplicate; etc.) once per month. This change will be added to SOP# DAQ-03-004.2 section 5.1 step #9 during the next SOP review.
