Ambient Monitoring Section
217 West Jones Street / 1641 Mail Service Center
Raleigh, NC 27699-1641

6/9/2023

QA BULLETIN NUMBER DAQ-17-016

TO: Ambient Monitoring Staff via NCDEQ/DAQ website

THROUGH: Patrick Butler, Ambient Monitoring Section Chief

FROM: Jeremy Pope, Acting Projects and Procedures Branch Supervisor

SUBJECT: Email Change to @deq.nc.gov

Beginning on May 1st, 2023, the Department of Environmental Quality began updating their email addresses to reflect the department's current name and to remove confusion from the public. While the username for each email remains the same, the server name has changed from @ncdenr.gov to @deq.nc.gov. I.e an email that read as Ask.Ambient@ncdenr.gov would be changed to Ask.Ambient@deq.nc.gov.

This change will have no impact on the daily operations of the Division of Air Quality's ambient monitoring staff. To give the department time to change all instances of the old email address structures and to ensure that the public can reliably reach ambient monitoring staff, the department will keep aliases of the old email addresses for approximately 3 years. This means that if an email is sent to the old address, the message is forwarded to the current email address.

This process was completed department wide on June 9th, 2023.
