Brevard, North Carolina 28712

SUBJECT: Engineering Report Approval
City of Brevard
Kings Creek Phase III
Project No.: CS370476-07

Dear Mr. Moore:

The Division of Water Infrastructure has completed its review of the subject engineering report for the City of Brevard Kings Creek Phase III project. Proposed on project includes the following:

Replacement of approximately 7,220 linear feet (l.f.) of 8-inch gravity sewer, replacement of approximately 140 l.f. of 15-inch gravity sewer, rehabilitation of approximately 2,640 l.f. of 8-inch gravity sewer, replacement or rehabilitation of approximately 62 manholes and repair or replacement of approximately 80 service laterals within the right of way.

The subject engineering report for City of Brevard Kings Creek Phase III project is hereby approved.

In accordance with G.S. 120-157.1 through 157.9, enacted on June 24, 2011, local government units with projects that require debt to be issued greater than \$1,000,000 that must go before the Local Government Commission must submit a letter to Committee Chairs, Committee Assistant, and the Fiscal Research Division of the General Assembly at least 45 days prior to presentation before the Local Government Commission. You are responsible for submitting this letter. Additionally, a copy should be submitted to Mark Hubbard of the Project Management Branch upon receipt of this approval letter.

Please note that the milestones below must be met to maintain assurance of funding under the Clean Water State Revolving Fund (CWSRF). In the event that any of these milestones are not met, you must reapply under the new, competitive priority system if you wish to seek CWSRF funding for this project. We will be accepting applications twice per year, and projects will be funded based on priority and availability of funds.

North Carolina Division of Water Infrastructure

Project Applicant: City of Brevard
Date: January 27, 2015
Project Number: CS370476-07
Estimated Project Cost: \$1,513,833
Estimated Funding Amount: \$1,484,150

Project Description: The proposed project is Phase III of ongoing sewer rehabilitation effort to repair and replace vitrified clay pipe sewer in the Kings Creek area. The project will include replacement of approximately 7,220 linear feet (l.f.) of 8-inch gravity sewer, replacement of approximately 140 l.f. of 15-inch gravity sewer, and rehabilitation of approximately 2,640 l.f. of 8-inch gravity sewer. The project will also replace or rehabilitate approximately 62 manholes and approximately 80 service laterals.

The above named applicant will receive funding assistance from the State Revolving Fund program to construct the wastewater facilities described above. The North Carolina Division of Water Infrastructure (DWI) has conducted a review of the project in accordance with the procedures (NCAC 15A Subchapter 1C) for conformance with the North Carolina Environmental Policy Act. The DWI has determined that this project is below the minor construction activities threshold outlined in 15A NCAC 01C .0408; therefore, the project is exempt from inter-agency review, and the preparation of additional environmental documents is not required.

This determination shall become effective upon its distribution by the DWI and will be available on the DWI's website (<http://portal.ncdenr.org/web/wi/fonsi-dmca-ce>). This determination can be revoked at any time adverse information is made available. The documentation to support this decision will be on file with the North Carolina Department of Environment and Natural Resources, Division of Water Infrastructure, and is available for public scrutiny upon request.

Comments concerning this decision may be addressed to Ms. Jennifer Haynie, Environment and Special Projects Unit, Division of Water Infrastructure, 1633 Mail Service Center, Raleigh, North Carolina 27699, or she can be reached by phone at (919) 707-9173.

Sincerely,

Kim H. Colson, P.E., Director
Division of Water Infrastructure
