

FACT SHEET

Marine Corps Base Camp Lejeune
1 Holcomb Boulevard
Camp Lejeune, North Carolina 28542-0004
NC6 170 022 580

A Draft Permit has been prepared for the Marine Corps Base Camp Lejeune to conduct corrective action at Solid Waste Management Units at the facility under the Federal Resource Conservation and Recovery Act (RCRA). North Carolina has been authorized by the United States Environmental Protection Agency to administer RCRA including the Hazardous and Solid Waste Amendments (HSWA) of 1984. The State has determined that the Marine Corps Base Camp Lejeune's activities as identified in its permit application satisfy the full intent of the North Carolina Hazardous Waste Management Rules and Solid Waste Management Act as amended. When finalized this draft permit issued by the State of North Carolina will constitute a complete permit under the Federal Resource Conservation and Recovery Act.

The renewal permit requires corrective action of contaminant releases at Solid Waste Management Units (SWMU). Remedies for corrective action have been selected and are in operation at many SWMUs. The selected remedies include the following technologies; soil and/or groundwater land use controls, long-term monitoring, monitored natural attenuation, air sparge, soil vapor extraction, air sparge with soil vapor extraction, in-situ submerged oxygen curtain, pump and treat, aggressive fluid vapor recovery, bio-pulse sparging, dual phase extraction, enhanced reductive dechlorination, and in-situ contaminant oxidation with permanganate injections. Investigation and monitoring activities are overseen by the Federal Remediation Branch of the Superfund Section and the UST Section as appropriate.

The North Carolina Hazardous Waste Management Rules require that the public be given a forty-five (45) day period to comment on the draft renewal permit. This 45-day period will commence on August 8, 2023 and end September 22, 2023. The draft permit can be found online at the following location: <https://deq.nc.gov/public-notices-hearings>

All data submitted by the applicant is part of the administrative record. Files are accessible through the document management system at: <https://deq.nc.gov/about/divisions/waste-management/laserfiche> or <https://edocs.deq.nc.gov/WasteManagement/Search.aspx?dbid=0&repo=WasteManagement>.

The instructions to search for documents on the web portal are as follows:

- a. Select **Laserfiche** in middle of page
- b. Enter the public **Laserfiche Weblink**
- c. Select 'Search' in the upper left corner
- d. On the left ribbon under Customize Search select **Template**
- e. Under Template select **WM**
- f. Subdivision > **Hazardous Waste**
- g. Doc_Category > **Facility**
- h. Doc_Group > **Permit (P)**
- i. Program_ID > **NC6170022580**

A public hearing to receive comments concerning the issuance of the draft permit will be held on Wednesday, September 13, 2023 at 1:00 pm in the Main Meeting Room of the Onslow County Public Library, 58 Doris Avenue East, Jacksonville, North Carolina. Attendees may submit a written statement for the official record in addition to their oral statement or they may submit written comments in lieu of

Page | 1

making an oral presentation.

Persons wishing to comment on this permit or the proposed permit conditions or to object to the permit issuance should submit comments in writing prior to September 22, 2023. All comments received within the 45-day comment period will be considered before the final permit decision is made. Comments should be sent to katherine.oneal@deq.nc.gov or to:

Adam Ulishney, Hazardous Waste Section Chief
Division of Waste Management, NCDEQ
MSC 1646
Raleigh, NC 27699-1646

When a final decision is made to issue, deny, or modify the draft renewal permit, notice will be given to the applicant and to each person who has submitted written comments or requested notice of the final decision.

Anyone desiring additional information may contact Katherine O'Neal at the address listed above or at (919) 707-8209 or katherine.oneal@deq.nc.gov.
