

# iNaturalist

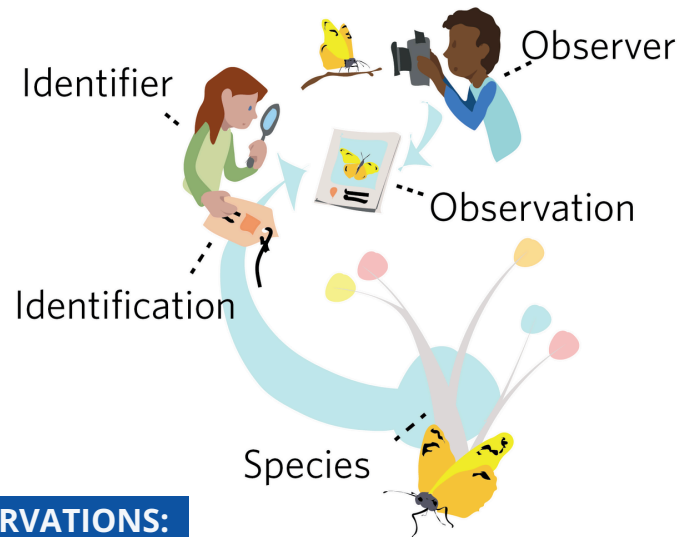

## HOW-TO GUIDE

iNaturalist is a social network that helps you identify plants and animals, learn about nature, and share biodiversity information. By recording and sharing your observations, you can contribute research-quality data for scientists working to better understand and protect nature (iNaturalist)

**Follow these simple steps and you will be collecting data in no time!**

- 1 Go to the app store on your smartphone or tablet and search for iNaturalist and download (it's free!)
- 2 Open the app and create an account
- 3 Log in to your new account and begin uploading observations of plants and animals

### HOW TO UPLOAD OBSERVATIONS:

- 1 On your home screen click the "observe" button
- 2 Take a photo of your observation, choose no photo, or upload a previously taken photo
- 3 Click "what did you see" - the app will automatically recommend what your observation might be
- 4 All other fields will autofill *Make sure you have your location settings on*
- 5 Click "share" and continue documenting more nature observations
