FROM: Michael A. Abraczinskas, Director 

SUBJECT: Chemours Company – Fayetteville Works
Facility ID 0900009 and Draft Air Permit Number 03735T44

I have reviewed the Hearing Officer's Report and Recommendations for the Chemours Company – Fayetteville Works permit modification public hearing held on February 18, 2019.

I agree with the conclusions of the hearing officer and instruct the permitting section to require the facility to submit plans for the inspection, calibration and maintenance of parametric monitoring equipment. The hearing officer has adequately addressed all the comments received and upon addressing the monitoring equipment plans, you should proceed with issuing the air permit for this facility.

You may reach me at (919) 707-8400 if you have questions regarding this memorandum.
