

## Site Status Definitions

- **Petitioned** - The DSCA Program is in the process of reviewing an application to certify the site.
- **Certified** - The DSCA Program has entered into an agreement with a petitioner and is in the process of assigning a state-hired, independent environmental contractor to conduct a prioritization assessment.
- **Assessment** - The DSCA Program's independent environmental contractor is currently determining the extent of soil and groundwater contamination at the site.
- **Monitoring** - The DSCA Program's independent environmental contractor is currently monitoring the levels of contaminants in the groundwater.
- **Remediation** - The DSCA Program's independent environmental contractor is currently performing cleanup at the site.
- **Interim Action** - Site conditions are favorable for source removal or conducting a pilot study for remediation.
- **Emergency** - The DSCA Program has determined there is an immediate need for corrective action to abate a potential hazard to human health or the environment.
- **On Hold** - Please contact the site's project manager for more details.
- **Closure** - The extent of contamination has been defined and is considered stable. The DSCA Program is in the process of developing and implementing a risk management plan to protect human health and the environment from remaining contamination.
- **NFA** - No Further Action Required.
