Protect Your Loved Ones!
We know how important she is to you, so protect your yacht from storms and strangers with a slip at Wilmington Marine Center.

Our Cape Fear River location offers the safety of an enclosed-basin marina and the convenience of charming historic downtown Wilmington, a 10-minute drive away.

Our road access is fenced for your privacy and security and our facilities offer some of the best storm and surge protection to be found anywhere in the coastal Carolinas.

Combine the safety of our location with high-quality floating docks, affordable rates, professional management, and fabulous sunsets for an unbeatable combination!

 Wilmington Marine Center was the first marina in SE North Carolina to receive the "Clean Marina" designation from the NC Marine Trades Association. We are dedicated to sound management practices and are committed to safeguarding the environment.

Clean Marinas :: About the Clean Marina Program

The Clean Marina program is designed to show that marina operators can help safeguard the environment by using management and operations techniques that go above and beyond regulatory requirements.

Clean Marina is a voluntary program that began in the summer of 2000. Marina operators who choose to participate must complete an evaluation form about their use of specific best management practices.

If a marina meets criteria developed by N.C. Marine Trades Services and the Division of Coastal Management, it will be designated as a Clean Marina. Such marinas will be eligible to fly the Clean Marina flag and use the logo in their advertising. The flags will signal to boaters that a marina cares about the cleanliness of area waterways.

Marinas that do not meet the standards will be able to learn about improvements needed for Clean Marina designation. Marina owners can reapply after making the necessary changes.

For information about the program, contact [Pat Durrett](#) at 252-808-2808. You can also download a Clean Marina checklist and application:

- [For marinas with boat maintenance yards](#)
- [For marinas without boat maintenance yards](#)
- [For boatyards without wet boat storage](#)

Clean Marina is a nationwide program developed by the National Marine Environmental Education Foundation, a nonprofit organization that works to clean up waterways for better recreational boating. The foundation encourages states to adapt Clean Marina principles to fit their own needs. North Carolina joins South Carolina, Florida and Maryland as states with Clean Marina programs in place.

The N.C. Clean Marina program is a partnership between N.C. Boating Industry Services, the N.C. Marine Trade Association, the Division of Coastal Management, the Albemarle-Pamlico National Estuary Program, N.C. Sea Grant, the U.S. Power Squadron, U.S. Coast Guard Auxiliary and N.C. Big Sweep.
