

North Carolina Drinking Water Technical Assistance Grants - April 2014 Applications for Grants Agenda Items E & F					County/ Tier	DW-TAG Funding Request	DW-TAG Grant Approved May 12, 2014	Total Project Cost	Points Submitted	Points Verified (Total All Categories)	Priority Rating System Points - By Category				Difference in Points Claimed & Verified	Other Considerations/Staff Notes
Project No.	Applicant Name	Project Name/ Engineering Firm	Project Description	Number of New Connections Served / \$ per Connection							Cat. I	Cat. II	Cat. III	Cat. IV		
											Project Type	Public Health	System Mgmt.	Financial Situation		
FUNDING SUMMARY						\$360,500	\$165,500	\$2,315,988								
1	Tuckaseegee W&SD	Valhalla Apartments McGill Associates, PA	Study alternatives (including consolidation) to provide water to the failing Valhalla Apartments Public Water Supply System.	26 \$962	Jackson 1	\$25,000	\$25,000	\$25,000	95.34	63.39	0	35	8	20.39	1. A TAG cannot earn CIP points. 2. Failing system is a regulated system; does not earn unregulated system points. 3. Does not have water conservation incentive rate. 4. Has not implemented Asset Management Plan. 5. Claimed 15 Public Health points over max 40. 6. Claimed 3 System Management points over max 15.	
2	Onslow Water & Sewer Authority	North Topsail Beach High Rise Bridge ONWASA	Study replacing the 2,600 feet of aged 10-inch aerial waterline crossing on the North Topsail Beach High Rise Bridge		Onslow 2	\$50,000	\$50,000	\$50,000	81.51	60.45	0	25	15	20.45	1. A TAG earns no project points. 2. Financial points recalculated. 3. Claimed 6 System Management points over max 15.	
3	Martin County	Oak City Study The Wooten Company	Provide a Preliminary Engineering Report on how best to repair the aged community water system in the Oak City area.		Martin 1	\$40,500	\$40,500	\$40,988	72.62	40.62	0	0	15	25.62	1. Failed to demonstrate high potential of violation of existing regulation for priority points. 2. Claimed 7 System Management points over max 15.	
4	Town of Elkin	Raw Water Line Emergency Replacement Analysis WK Dickson & Co.	Evaluate alternatives for replacing the 50-year old 24-inch raw water line, 100 feet of which is exposed due to erosion and addressing an emergency raw water line that provides poor quality water.		Surry 1	\$50,000	\$50,000	\$50,000	60.40	24.46	0	0	8	16.46	1. Failed to demonstrate high potential of violation of existing regulation for priority points. 2. Contamination not documented. 3. Five-year CIP does not earn points. 4. Applicant provides water service; application discussed only water rates. Yadkin Valley Sewer Authority provides sewer service. DWI used the rates from the YVSA's separate sewer application. Rates/MHI recalculated.	
INELIGIBLE APPLICATIONS																
5	Onslow Water & Sewer Authority	Hydrostatic Framework & Modelling Study Groundwater Management Associates	Create a hydrostratigraphic framework to study the sustainability of the Castle Hayne aquifer		Onslow 2	\$50,000		\$2,000,000	66.51	*	*	*	*	*	Ineligible - Does not meet use of TAG	
6	Town of West Jefferson	Water And Wastewater System Planning Municipal Engineering Services Co., PA	Generate a Capital Improvement Plan, Water Loss Audit, and Asset Management Plan		Ashe 2	\$50,000		\$50,000	77.41	*	*	*	*	*	Ineligible - Does not meet use of TAG	
7	City of Saluda	10-Year CIP Watermark Engineering, PA	Create a Capital Improvement Plan.		Polk 2	\$45,000		\$50,000	27.63	*	*	*	*	*	Ineligible - Does not meet use of TAG	
8	Ashe County	Todd Community Study Municipal Engineering Services Co., PA	Prepare a Preliminary Engineering Report to study providing community water and sewer to the Todd community	15 \$3,333	Ashe 2	\$50,000		\$50,000	51.85	*	*	*	*	*	Ineligible - Does not meet use of TAG
