

Education Program Status Report

May 2009

Workshops

The Spring 2009 Erosion and Sedimentation Control Planning and Design Workshop was held February 25-26, 2009, at the McKimmon Center in Raleigh. Seventy-five people attended the workshop.

Design Manual

The Sedimentation Control Commission approved revisions to the Erosion and Sedimentation Planning and Design Manual in August, 2008. The revisions have been published as PDF files, and are available for download at:

www.dlr.enr.state.nc.us/pages/publications.html

Revisions include sections on vegetative stabilization, skimmer dewatering, streambank stabilization and estimating runoff. Printed revision packets and new manuals incorporating the revised chapters are planned when funding is available. Currently the revisions are available only as PDF files.

Newsletter

The *Sediments Newsletter* is being published four times this fiscal year, with the last number distributed in May, 2009. The newsletter is available for download at
