**Please remember to attach the following if applicable:**

- A copy of the current air permit showing conditions that reflects the emission reduction.
- A copy of the current permit rescission letter from this Division for a shutdown of the entire facility.
- An air permit application for construction and operation if any air pollution control devices are being installed.
- Any required Part 70 Operating Permit application forms for facilities operating under Title V permits.
- Any MSDS/CPDS that may be required by the Division to verify emission reductions due to product substitution.
- Any technical information needed by the Division to verify emission reductions due to air pollution control devices.
- Detailed descriptions of any plans for emission unit shutdowns and/or changes in operation that will result in an emission reduction.

***Emission Reduction Credits applications will not be processed until a valid air permit has been issued reflecting the emission reduction or a permit rescission letter from this Division for a shutdown of the entire facility has been issued.***
