

# DON'T TANGLE OR CONTAMINATE RECYCLE RIGHT FOR A GREENER STATE

Don't trash recycling — it's expensive! Unwanted materials can ruin a collection of recyclables or shut down the recycling equipment.

## **CLEAN, DRY AND EMPTY**

Put food waste in the compost. Don't recycle items with food/liquid in them.

## **NO TANGLERS**

Cords, hoses and stringy items tangle up the recycling equipment.

## **NO PLASTIC BAGS**

Keep recyclables loose and free!  
Return clean, dry plastic bags, wraps and packaging to your grocery store.
