All data submitted by the applicant is part of the administrative record and available at: <https://deq.nc.gov/about/divisions/waste-management/laserfiche>. Search for Documents using the program ID# NCD042091975. The draft renewal permit and factsheet can be found online at: <https://deq.nc.gov/public-notices-hearings> under the Division of Waste Management.

A summary of the renewal permit follows: This permit will allow Mallinckrodt to store up to 46,200 gallons of hazardous wastes generated onsite in a designated storage building. The permit also requires Mallinckrodt to remediate contaminated soil and groundwater resulting from past waste management activities at the facility. Additionally, the permit will allow Mallinckrodt to treat hazardous waste (K083 distillation bottoms from aniline production) by burning the waste for energy recovery in onsite boilers.

All comments received during the public comment period or at the hearings will be considered in the decision regarding this renewal permit. Comments received after the public comment period ends will not be considered. The statutory authority for calling the permit hearing is G.S. 130A-294(f). Applicable State rules are found in the North Carolina Hazardous Waste Management Rules 15A NCAC 13A .0105, .0109, and .0113. These rules adopt the requirements of the Federal Resource Conservation and Recovery Act as amended by the Hazardous and Solid Waste Amendments of 1984.
