**Fill in your first and last name and your email address.
Once you have filled in your information, click on "Join Now."**

On the page that appears after you have entered your log in information and hit “Join Now,” click on Run a temporary application and do one of the following based on your browser:

Don't want to use an extension? [Run a temporary application](#) to join this meeting.

Firefox:

Click Save File on the prompt that appears

Click on the down arrow button on the top right side of the browser window and click to open the file.

Chrome:

Click on the .EXE file that appears on the lower left of the browser window

Internet Explorer:

Click Run on the dialog box that appears at the bottom of the browser window.

Edge:

Click Open File on the dialog box that appears on the top right side of the browser window.

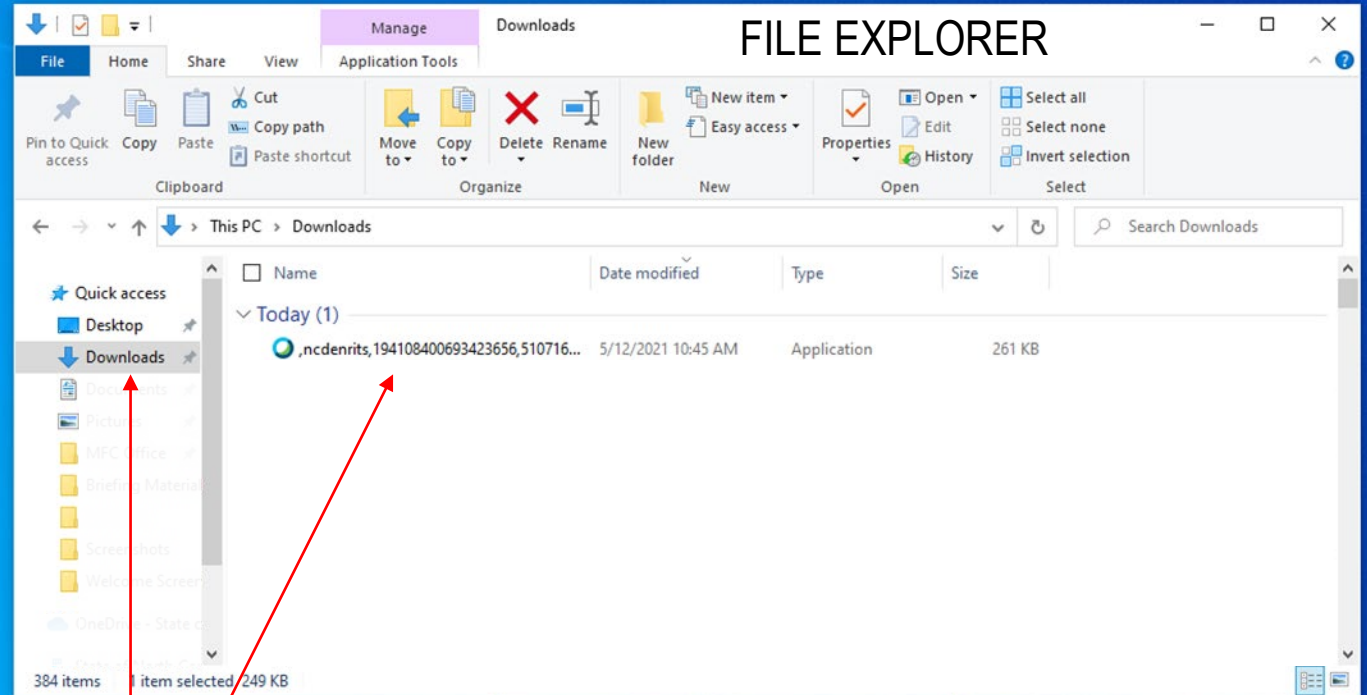

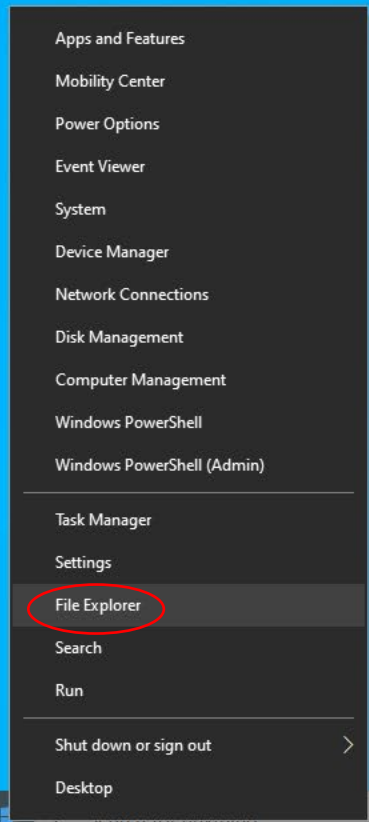

**If you get a virus software pop-up dialog box, click Continue or Allow*

If your temporary application file is not showing up as described on the previous page, you may have to locate them in File Explorer.

You can do this by:

Right-clicking on your start button on the bottom left of your desktop and click on “File Explorer.”

On the right side of File Explorer, click on Downloads. The WebEx temporary application file should be the first file listed. Once you have located it, double-click to start the application.

1. Choose how you would like to connect your audio:
 - **Use computer audio** (default) - Use your computer with a headset or speakers.
 - **Call me** - Enter a phone number and WebEx calls you.
 - **Call in** - if you prefer to use your phone for audio, dial in when the meeting starts. A list of the global call-in numbers is available in your meeting invite. Choose this option if your Internet connection is slow.
2. Icons to mute/unmute yourself and to show video of yourself are at the bottom of the page (the host may have blocked these functions).
