## PROGRAM NARRATIVE

Broad-based intercept surveys are commonly developed to produce estimates of recreational finfish harvest by hook and line activity among anglers. However, some saltwater-related recreational fishing activities are commonly overlooked in these surveys and include the use of alternative gear(s) such as gigs, cast nets, and seines as well as harvest of shellfish (e.g., crabs, clams, oysters, and scallops). In May of 2010, North Carolina Division of Marine Fisheries (NCDMF) began a mail survey for developing catch and effort estimates of recreational gigging activity. In October of 2011, two additional mail surveys were implemented to develop catch and effort estimates for cast net and seine use as well as the harvest of shellfish including: crabs, clams, oysters, and scallops. All three mail surveys are currently being conducted in North Carolina and are similar in design, methodology, and estimate computations. To date, methods to calculate catch and effort estimates have been developed and applied for gigging, cast net and seine use, and shellfish (e.g., Blue Crab and Hard Clam).

## SURVEY METHODOLOGY

Coastal Recreational Fishing License (CRFL) holders who purchase their license online, at a North Carolina Wildlife Resources Commission (NCWRC) vendor, or at NCDMF or NCWRC offices are asked four questions regarding their participation in there saltwater recreational fishing activities. In addition, lifetime license holders who have purchased a hunting and/or inland fishing license prior to the implementation $n$ of the CRFL are asked the same questions when updating their contact information.

These questions are:

- Do you flounder gig?
- Do you use cast nets or seines?
- Do you harvest crabs?
- Do you harvest oysters, clams, or scallops?

For each survey activity, a subsample of approximately 1,300 anglers is chosen from among those who answered affirmatively to the respective saltwater activity question and whose license was valid at least one day during the prior two months. Each member of the sample is sent a pre-notice letter at the beginning of the month. This letter informs the license holder that they have been chosen to participate in the survey; it also explains what the purpose of the survey is and how the license holder can participate in the survey. The license holder is provided instructions on how to complete the survey that is provided along with the letter. Approximately 10-14 days later, sample members who have not completed the survey are sent a second letter that includes a hard copy of the survey to complete. These individuals are asked to return the survey by the end of the month. The following estimates are produced independently for each survey.

## Participation Estimates

Participation estimates are determined for each of the survey time periods considering the following parameters:

- The number of potential participants is a product of the number of valid recreational licenses for the survey period and the percent of those who answered affirmatively to the respective saltwater activity question at the time of license purchase (or while updating contact information).
- The ineligibility rate is the number of anglers reporting that do not participate in the respective saltwater activity divided by the total number of responses received. For example, if there were 100 responses received in the flounder gigging survey and 10 anglers commented that they did not participate in flounder gigging, then the ineligibility rate would be $10 \%$.
- The estimated participation is a product of the number of potential participants and one minus the ineligibility rate.

## Effort Estimates

Effort estimates are determined for each of the survey time periods. Overall effort is determined by the number of trips reported for each survey respondent extrapolated to represent the population of license holders.

## Catch Estimates

Catch estimates are determined for each of the survey time periods by the following method.
Catch is the number of a species harvested by each angler extrapolated to represent the population of license holders.

## Precision of Estimates

The numbers presented are estimates, not actual counts; therefore, the level of precision varies. Precision refers to the estimate's variability. Statistical comparison between numbers must include this variability.

Precision refers to the dispersion of the sample measurements used to calculate an estimate and the resultant variability in the estimate. The square root of the estimate of sampling variance is an estimate of the standard error of the estimate and is almost universally used in sample surveys as a measure of precision.

The standard error is used to calculate the proportional standard error (PSE). The PSE expresses the standard error as a percentage of the estimate (standard error/estimate *100). It provides an alternative measure of precision and is useful in comparing the relative precision of two or more estimates. A small PSE indicates a more precise estimate than a large PSE. A PSE of $20 \%$ or less is generally considered an acceptable level of precision in fisheries data.

## SURVEY LIMITATIONS

## Non-Response Bias

There is a potential risk that those anglers who do not respond to the mail survey(s) behave in a manner differing from those who do. This is referred to as non-response bias. A 100\% response rate is not a practical expectation from these surveys. This is due to many different factors including, but not limited to: a large constituent of grandfathered license holders who may not participate in the fishery of interest, deceased individuals who were not identified as such before the survey was sent, and individuals choosing not to participate in the survey. Methods to mitigate non-response bias include incentivizing individuals as well as validating effort and catch with on-site intercept surveys.

## Recall Bias

Recall bias can occur when any length of time exists between the reporting of an event and the event itself. The longer the time between reporting and the occurrence, the more likely recall bias is to occur. Validity of reported data can be strengthened with an intercept survey (inperson interview).

## Rare Events

Activities that seldom occur in recreational angling are referred to as rare events. In this instance, contacting someone participating in oyster and clam harvesting is rare. Despite a relatively high response rate, the number of responses with reported oyster harvesting activity is too low to produce precise estimates of catch.

## CONTACTS

The recreational mail surveys are administered by the North Carolina Division of Marine Fisheries, Coastal Angling Program from the Washington Regional Office. For additional information regarding the survey, please consider the contact below.

North Carolina Division of Marine Fisheries

## Appendix V. 1 Primary and secondary waterbodies.

## North Carolina Waterbodies

Please list the major waterbody (in bold) you used from the following list.

| Albemarle Sound | Croatan Sound | North River (Carteret) | Roanoke Sound |
| :---: | :---: | :---: | :---: |
| Alligator River | Manns Harbor |  | Broad Creek |
| Batchelor Bay |  | Davis Bay | Kitty Hawk Bay |
| Big Flatty Creek | Currituck Sound | Goose Bay | Shallowbag Bay |
| Bull Bay | Above Narrows | Muddy Creek |  |
| Edenton Bay | Below Narrows | North River Thorofare | Shallotte River |
| Little River | Coinjock Bay | The Straits | Gibbs Creek |
| North River | Knotts Island Bay | Ward Creek | Little Shallotte River |
| Scuppernong River |  |  |  |
| Swan Bay | Little River | Pasquotank River | Stump Sound |
| Taylor Bay | Bonaparte Creek | Little Flatty Creek | Alligator Bay |
| Yeopim River | Calabash Creek | Newbegun Creek | Thomas Landing |
|  | Eastern Channel |  | Mill Creek |
| Bay River | Ocean Isle Canals | Pamlico River |  |
| Bonner Bay |  | Bath Creek | Topsail Sound |
| Fishermen Bay | Lockwood Folly | Blounts Bay | Virginia Creek |
| Rockhole Bay | Spring Branch | Blounts Creek | Topsail Creek |
| Trent Creek |  | Broad Creek | Elmore Inlet |
| Vandermere Creek | Masonboro Sound | Durham Creek |  |
|  | Banks Channel | Goose Creek | White Oak River |
| Bogue Sound | Carolina Beach Basin | North Creek |  |
| Bogue Inlet | Carolina Beach Inlet | South Creek | If the waterbody that you used |
| Broad Creek | Johns Creek | St. Clairs Creek | most often was the Intracoastal |
| Deer Creek | Mason Inlet |  | Waterway - please indicate the |
| Gales Creek | Masonboro Channel | Pamlico Sound | IWW and the County when |
| Hoop Hole | Masonboro Inlet | Abel Bay | filling out the survey form. |
| Money Isle | Rich Inlet | Caffee Bay |  |
| Pelitier Creek |  | Deep Bay | Intercoastal Waterway |
| Spooners Creek | Neuse River | Deep Cove | Brunswick County |
| Tar Landing Bay | Adams Creek | East Bluff Bay |  |
| Turning Basin | Beard Creek | Far Creek | Intercoastal Waterway |
|  | Broad Creek | Germantown Bay | Carteret County |
| Cape Fear River | Clubfoot Creek | Jones Bay |  |
| Baldhead Creek | Dawson Creek | Juniper Bay | Intercoastal Waterway |
| Brunswick River | Goose Creek | Long Shoal River | Craven County |
| Buzzards Bay | Hancock Creek | Mouse Harbor |  |
| Cedar Creek | N. of Core Creek Bridge | Oyster Creek | Intercoastal Waterway |
| Dutchman Creek | Slocum Creek | Rose Bay | New Hanover County |
| Elizabeth River | South River | Spencer Bay |  |
| First Bay | Swan Creek | Striking Bay | Intracoastal Waterway |
| Northeast Cape River | Trent River | Swan Quarter Bay | Onslow County |
| Second Bay | Turnagain Bay | West Bluff Bay |  |
|  | Upper Broad Creek | Wysocking Bay | Intracoastal Waterway |
| Chowan River |  |  | Pender County |
| Meherrin River | New River | Pungo River |  |
|  | Chadwick Bay | Fortescue Creek | Atlantic Ocean |
| Core Sound | Courthouse Bay | Jordan Creek | (north of Cape Hatteras) |
| Back Bay | Farnell Bay | Pantego Creek |  |
| Back Sound | Morgan Bay | Pungo Creek | Atlantic Ocean |
| Barry Bay | Stones Bay | Satterthwaite Creek | (south of Cape Hatteras) |
| Cedar Island Bay |  | Slade Creek |  |
| Jarrett Bay | Newport River | Wrights Creek |  |
| Middle Marshes | Calico Creek |  |  |
| Nelson Bay | Core Creek | Roanoke River |  |
| Oyster Creek | Haystacks | Broad Creek |  |
| Styron Bay | S. of Core Creek Bridge | Eastmost River |  |
| Thorofare Bay | Taylor Creek Town Creek | Middle River |  |

## North Carolina Division of Marine Fisheries Saltwater Recreational Cast Net/Seine Survey

|  | If your name or mailing address (to the left) is incorrect, <br> please fill in the correct information below. |
| :--- | :--- |
| Survey Recipient Name <br> Address Line 1 <br> Address Line 2 <br> Survey PIN: Customer ID \# | Name |
| Address |  |
| City | State |

## General Survey Information

If you purchased a Lifetime License from the Wildlife Resource Commission (WRC) prior to January 1, 2007 do you saltwater fish?
O Yes
O No
O This question does not apply to me.

How would you prefer to receive future communications from the Division of Marine Fisheries? (choose only one)
O Postal mail
O Internet
O No preference
Email address: $\qquad$

## Cast net/Seine Participation Information

Check here if you did not use saltwater recreational cast nets or seines during the period of (bi-monthly dates). (If you used a cast net/seine for bait fish, please report activity on the next page.)

If you do not use saltwater cast net/seines and will not do so in the future, please check the reason why:
$\square$ Never used cast net/seine $\qquad$

Please verify your address is correct and return the survey with the envelope provided. We appreciate your time in helping us learn more about the catch and efforts of our cast net/seine angling community. Please feel free to write any questions, comments, or suggestions below.

If you have cast net/seine activity to report for the period of (bi-monthly dates),
please complete the survey questions on the next page.

## Trip Information

Please answer the following questions only for saltwater recreational cast net/seine trips that occurred during the period of (bi-monthly dates) in North Carolina.

Which do you use most often? (choose only one)
O Cast net
O Seine
O Use both equally

How many trips did you participate in? $\qquad$
On a typical trip, how many people were involved (yourself included)? $\qquad$
What is the average amount of time you spent using a cast net or seine during each trip? $\qquad$ (round to the nearest half or whole hour)

What point of access did you typically use? (choose only one)
O Water access at residence
O Beach/bank/shore
O Public boat ramp (WRC or municipal facility): Ramp name $\qquad$
O Marina/ramp: Ramp name $\qquad$
O Access at public pier: Pier name $\qquad$
If you used a cast net(s) during these trips, what size(s) did you use (in feet)? (circle all that apply)

| 5 | 6 | 7 | 8 | 9 | 10 | 11 | 12 | N/A |
| :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- |

If you used a seine during these trips, what is the average length seine you used (in feet)? $\qquad$
North Carolina county most often fished using a cast net and/or seine: $\qquad$
Waterbody most often accessed using a cast net and/or seine:
(Please refer to the waterbody list on the back of your cover letter.)

## Catch Information (including bait fish)

If you used a saltwater cast net and/or seine RECREATIONALLY during the period of (bi-monthly dates) in North Carolina waters, please complete the table below based on those experiences. Do not include any species caught by commercial or hook and line activity. Only list species caught in your cast net/seine.

| Species | Total number used as BAIT | Total number kept for eating | Total number DISCARDED* (not used for bait or eating) |  |
| :---: | :---: | :---: | :---: | :---: |
|  |  |  | Alive | Dead |
|  |  |  |  |  |
|  |  |  |  |  |
|  |  |  |  |  |
|  |  |  |  |  |
|  |  |  |  |  |
|  |  |  |  |  |
|  |  |  |  |  |

Thank you for your time and participation.

| Survey Recipient Name <br> Address Line 1 <br> Address Line 2 | Name |
| Survey PIN: Customer ID \# | Address |
|  | City |
| State | Zip |

If you purchased a Lifetime License from the Wildlife Resource Commission (WRC) prior to January 1, 2007 do you saltwater fish?
O Yes
O No
O This question does not apply to me.

How would you prefer to receive future communications from the Division of Marine Fisheries? (choose only one)

$$
\begin{aligned}
& \text { O Postal mail } \quad \text { O Internet } \quad \text { O No preference } \\
& \text { Email address: } \\
& \hline
\end{aligned}
$$

Do you recreationally harvest crabs? O Yes O No
Do you recreationally harvest clams, oysters, or scallops?
O Yes
O No
Do you recreationally use a cast net or seine?
O Yes
O No

## Gigging Participation Information

$\square$ Check here if you did not participate in flounder gigging during the period of (bi-monthly dates). (If you did participate in flounder gigging, please report activity on the next page.)

If you do not flounder gig and will not gig in the future, please check the reason why:
$\square$ Never gigged
$\square$ Other (please explain): $\qquad$

Please verify your address is correct and return the survey with the envelope provided. We appreciate your time in helping us learn more about the catch and efforts of our flounder gigging community. Please feel free to write any questions, comments, or suggestions below.

> If you have gigging activity to report for the period of (bi-monthly dates), please complete the survey questions on the next page.

## Trip Information

Please answer the following questions only for gigging trips that occurred during the period of (bi-monthly dates) in North Carolina

How many trips did you participate in? $\qquad$
On a typical trip, how many people went gigging (yourself included)? $\qquad$
What is the average amount of time you spent gigging per trip? $\qquad$ (round to the nearest half or whole hour)

What point of access did you typically use? (choose only one)
O Water access at residence
Beach/bank/shore
O Private boat ramp
O Public boat ramp (WRC or municipal facility): Ramp name $\qquad$
O Marina/ramp: Ramp name $\qquad$
What was your typical method of gigging? (choose only one)
O Poling
O Walking/wading
O Trolling motor
O Other $\qquad$

North Carolina county most often gigged for flounder: $\qquad$
Waterbody most often gigged for flounder:
(Please refer to the waterbody list on the back of your cover letter.)

## Catch Information

If you RECREATIONALLY gigged during the period of (bi-monthly dates) in North Carolina waters, please complete the table below based on those experiences. Do not include commercial or hook and line activity. You should only include information on fish captured while gigging (including those species other than flounder).

| Species <br> (list other species below) | Total <br> number kept | Total <br> pounds kept <br> (optional) | Total number <br> thrown back |
| :---: | :---: | :---: | :---: |
| flounder |  |  |  |
|  |  |  |  |
|  |  |  |  |
|  |  |  |  |
|  |  |  |  |

Thank you for your time and participation.
