

## Green Festivals and Events

### *About the NC GreenTravel Initiative*

This program has been created to recognize those businesses in the travel industry in North Carolina that have established and adhere to a set of guidelines that protect the environment. The initiative has been developed through a partnership of the North Carolina Division of Environmental Assistance and Customer Service; East Carolina University; Visit North Carolina and the Waste Reduction Partners program.

### *Applying for NC GreenTravel Recognition*

To become recognized as a green travel festival or event, first save this document on your computer so you can fill it in at your leisure. You may type directly into the saved document and click on the checkboxes to complete it. Please save your completed application and email it to [tom.rhodes@ncdenr.gov](mailto:tom.rhodes@ncdenr.gov). # Four Simple Rules for Creating an Environmental Policy

There are four basic rules for writing and displaying an environmental policy for your business. The policy should include:

- A commitment to protecting the environment. This may be a simple statement that your business promises to do all it can to keep the environment healthy or it may specifically mention environmental stewardship methods. For instance, it could simply state, “(Name of Business) is committed to protecting our environment by conducting business in such a way as to conserve energy, water and natural resources.” OR, it may state, “(Name of Business) practices environmental stewardship by reducing waste, recycling, installing energy efficient lighting, and by installing low-flow water fixtures.”
- A commitment to observing all laws and regulations governing the protection of the environment.
- A commitment to continually improve your environmental stewardship program.
- The completed policy should be signed and dated by the owner or manager of the business and should be displayed where employees and customers can easily see it.

Here is an example that may give you some ideas for your own policy:

## **Green Mountain Festival Environmental Policy**

*Green Mountain Festival seeks to be a better steward of the earth by creating a healthy environment for its guests, employees and community. We promise to do this by observing sustainable business principles and by implementing an energy reduction program, water conservation program, by helping to protect air quality and by reducing the amount of solid waste generated. Our festival is also committed to setting a good corporate example of environmental stewardship.*

*Green Mountain Festival is committed to observing all Federal, state and local laws and ordinances aimed at protecting the environment.*

*Green Mountain Festival will continually seek to reduce its environmental footprint by looking for new and better ways to reduce its reliance on natural resources.*
