**Part IX. Comments**

Use this section to elaborate on any info provided in your report as necessary. We would appreciate your comments about this report or other matters regarding solid waste management in North Carolina. Thank you for your time. You may submit additional sheets if needed.

* I have only been over the solid waste department now for a little over 4 months and this is the first time I have done this report.

* It appears to me that the gentlemen that done this report last year failed to include the bulk trash tonnage with the residential waste under number 63. Here at the City of Sanford we contract out the pick up of our residential household waste and recyclables through Waste Industries. Our staff picks up the bulk trash, leaves, and limbs. So you will notice the tonnage is a bit higher this year for Municipal Solid Waste because I included what Waste Industries collects and what we have collected.

* Also, I'm not sure where the gentlemen got his total cost figures from (as he has retired) but it doesn't seem to be accurate to me. As mentioned, we have a contract with Waste Industries to collect our residential household waste and recyclables that cost $1,229,009.40 (2018-2019) and our Solid Waste Budget that was spent was $1,601,096.81 (2018-2019) totaling $2,830,106.21 (with a small portion of that for mowing right-of-ways). The Solid Waste Budget is not broken down to specify what is allocated for leaves, what is allocated for limbs, what is allocated for bulk trash, and what is allocated for mowing. So I have included the total amount spent from our Solid Waste budget of 2018-2019. I hope this is acceptable.
