

## **Instructions for Charging Infrastructure Installation**

### EV Infrastructure installation requirements:

- All work eligible for reimbursement or as a cost share in your NC DEQ award agreement has been completed. Documentation should include the following photographs for each charger:
  - Working EV charger screen(s).
  - EV charger serial number(s)
  - On-site signage.
  - Overall Site photo. This should include the charger(s) and required parking spaces. All NC DEQ award agreement site work should be completed. The parking pads paved, curb and gutter, and trenching covered.
- Complete page 2 and upload to the DAQ Grants Management System for your application.
