Question 47 is about materials accepted outside of any Household Hazardous Waste (HHW) Program or event. If special wastes were only accepted as a part of an HHW Program or HHW event and were not collected by separate recycling efforts then do not record materials in question #47 but instead report with HHW materials in question #48.

Special wastes are materials collected at convenience centers, transfer stations, landfills, etc. Do not include materials collected at household hazardous waste permanent collection facilities or household hazardous waste temporary collection events.

YARD WASTE MANAGEMENT FORMULA: If yard waste quantities are not tracked, you may use this formula below to help you estimate yard waste volume. Calculate for each truck used in your yard waste management program, and then enter the grand total volume managed by program in the appropriate boxes above. Ex. 10 cubic yard truck x 3 days/wk x 16 wks = 480 cubic yards

\[
\text{Size of Truck (in yards)} \times \text{Avg. no. of times truck fills each week} \times \text{# of weeks truck is used during year} = \text{TOTAL cubic yards}
\]

**Part X. Comments**

Use this section to elaborate on any info provided in your report as necessary. Have there been major changes to your recycling or solid waste program since last year? Has your program been affected by COVID-19? Do you have new or updated ordinances that affect your programs? You may submit additional sheets if needed.

SS notes:

#47 - number of sites were reported as 0 for each material. Used values from last years report.

COVID-19 did impact us. Many of the spring and summer events where meet and greet the public and really promote the program were canceled. Even the on-line backyard compost bin sale was canceled because the bins are shipped to our PW location for distribution. The new way of collecting materials created some opportunities for creative thinking. Initially we started with one person per vehicle, easy for the ASL, but not for the rear load crews that consist if a driver and three collectors. Final thoughts; it is great to be considered a critical/essential service. Our co-workers never stopped working and kept an upbeat, lets get it done approach throughout and continue to do so. My hope is that one day they get the praise and recognition they earn/deserve.
