Volkswagen Settlement Draft Phase 2 Mitigation Plan
Steven Rice, NC DEQ, Division of Air Quality
October 2021
VW Settlement Mitigation Plan for North Carolina

- Purpose of today’s presentation:
  - Provide an overview of the VW Settlement Program and ZEV infrastructure awards in Phase 1.
  - Provide an overview of the main ZEV infrastructure elements in DEQ’s draft VW Phase 2 Mitigation Plan, which is available at https://deq.nc.gov/vw-settlement.
  - Provide a comparison of the two types of ZEV infrastructure subprograms.
  - Provide ways to get more information about Phase 2 of the VW Settlement Program
What did VW do?

• 2015 – U.S. EPA cited Volkswagen Group of America, Inc. (VW) with Clean Air Act violations.
  • Manufactured and installed defeat devices
  • Approximately 580,000 vehicles impacted nationally

• 2016 – Settlement agreements of $14.7 billion nationally were lodged by U.S. Department of Justice (DOJ) and State Attorney Generals (including N.C. DOJ) with the court to resolve matters related to the violations.
Volkswagen Mitigation Settlement Summary

• Three major components to the VW settlement:
  
  • Buyback or emissions modification on at least 85 percent of the subject vehicles (Appendices A & B)
  
  • Invest $2 billion to promote the use of zero emission vehicles and infrastructure (Appendix C)
  
  • $2.7 billion to fully remediate the excess NOx emissions from the subject 2.0-liter vehicles (Appendix D)
    
    • +$225 million for 3.0-liter diesel engines
Volkswagen Settlement Summary
National Breakdown

- Vehicle buyback and modification: $10 Billion
- Environmental Mitigation Trust: $2.9 Billion
- Zero Emission Vehicle Investment: $2 Billion
Appendix D – Mitigation Trust

Funding by State

- California: $423M
- Texas: $209M
- Florida: $166M
- New York: $128M
- Pennsylvania: $119M
- Washington: $113M
- Illinois: $109M
- Virginia: $94M
- North Carolina: $92M
- Maryland: $76M
- Ohio: $75M
- Massachusetts: $75M
- Oregon: $73M
- New Jersey: $72M
Volkswagen Settlement Summary Appendix D – Mitigation Trust for NC

• The North Carolina allocation is set at $87,177,373.87 – 3.23% of the $2.7 billion settlement. This is based on the number of registered subject vehicles in the state for the 2.0-liter subject vehicles.

• Additionally, North Carolina is eligible for $4,868,284.13 – 2.16% of the $225 million settlement for the 3.0-liter subject vehicles.

• A total amount of $92,045,658.00 – 3.15% is allocated for North Carolina.
All VW Subject Diesel Vehicles by County Classification
Subject Vehicles by County Classification

Urban Counties: 41%
Regional City or Suburban Counties: 27%
Rural Counties: 32%
Appendix D – Settlement Parameters

• Beneficiaries may spend funds from the environmental mitigation trust on projects that fall within ten eligible mitigation action categories.

• According to the final consent decree, “the goal of each Eligible Mitigation Action shall be to achieve reductions of NOx emissions in the United States.”

• VW Trustee must approve the mitigation plan and the project expenditures.
Mobile NOx Emissions

- On-Road Diesel Heavy Duty Vehicles: 19%
- Commercial Marine Vessels: 3%
- On-Road Diesel Light Duty Vehicles: 3%
- Locomotives: 4%
- Other: 8%
- Non-Road Equipment - Diesel: 11%
- On-Road non-Diesel Light Duty Vehicles: 52%
## Mobile Sector NOx Emissions by Source

</table>
Main Mitigation Plan Goals

• Maximize the air quality benefits in North Carolina.
• Consider where the subject VW vehicles were located.
• Improve on existing processes and programs to select projects.
• Consider environmental justice areas.
• Provide more outreach to counties that are under-resourced.
• Award funds through a transparent public process.
• Devote 15% of trust funds to light duty zero emission vehicle (ZEV) supply equipment.
Draft Phase 2 Mitigation Plan

• Phase 2 Priorities:

  • Heavy-duty vehicle electrification
  • Continue to invest in full 15% for EV charging infrastructure
  • Provide outreach to Historically Under-Resourced Counties
  • Continue to fund projects in rural counties
  • Continue to focus on public sector, where needs are far greater than the resources available
Current Program Status

• Program managers currently completing site visits for completed projects (DC Fast and Level 2) and approving claim reimbursement requests.

• The Team is currently reviewing the Phase 2 public comments and finalizing the Phase 2 Mitigation Plan.

• Timelines for Phase 2 will not be available until Phase 2 is funding is appropriated.
Eligible Phase 2 Applicants

Eligible projects include:

• Projects submitted by local, state, and tribal government organizations

• Projects submitted by public or private nonprofit organizations

• Projects submitted by public-private partnerships where the lead applicant represents a public sector or public/private nonprofit entity

• Both public and private applicants will be eligible for the light-duty ZEV infrastructure programs
Eligible Mitigation Projects
Light duty zero emission vehicle supply equipment

Beneficiaries may use up to 15 percent of their allocation of trust funds for the acquisition, installation, operation and maintenance of new light duty zero emission vehicle (ZEV) supply equipment.
The DEQ may establish more than one process to fund projects. Funding processes may include:

- Reimbursement
- Forward funded projects
- Rebates or Vouchers
Environmental Justice

Environmental justice is the fair treatment and meaningful involvement of all people regardless of race, color, national origin, or income, with respect to the development, implementation, and enforcement of environmental laws, regulations and policies.

North Carolina has this goal for all communities and persons across the state. It will be achieved when everyone enjoys:

- The same degree of protection from environmental and health hazards, and
- Equal access to the decision-making process to have a healthy environment in which to live, learn and work.
DEQ is developing an outreach program to help counties that
historically do not have the resources to effectively identify eligible
vehicles for grant programs and submit quality applications.

The team is currently preparing materials for outreach program
meetings to be tentatively scheduled in late October - November 2021.
Draft Historically Under-Resourced County Outreach Program Map
Proposed Project Selection Criteria

The DEQ will consider factors such as, but not limited to:

- **Cost Effectiveness** (VW $ funded per NOx tons reduced)
- **NOx Emissions Reductions**
- **Environmental Justice**
- **Location of project**
- **Co-Benefits** (SOx, PM$_{2.5}$, VOC, GHG and CO)
- **Sustainability of the Project**
- **Timeliness**
- **Useful life of vehicle replaced**
Comment Submission / More Information

A recording of the Triangle Mitigation Plan Informational meeting is available on our webpage along with informational meeting questions and answers.

Next Steps

- Final Plan submission to trustee (Fall 2021)

- Release first two Phase 2 request for proposals (Winter 2021) – Program RFPs will have a staggered release

- Proposal evaluations (Winter/Spring 2021-2022)

- Phase 2 project awards (Spring 2022)

- A final timeline will not be available until Phase 2 VW funds are appropriated.
