Volkswagen Settlement Phase 2 DC Fast – Existing Sites Program
April 25, 2022
Dave Willis, Environmental Program Consultant, NC Division of Air Quality

Department of Environmental Quality
What to Expect Today

- Overview of DC Fast Existing Sites program
- When/how to submit your application
- Scoring criteria
- Where to find information after this workshop
- Questions and answers

This is not a public forum for comments on implementation of the VW Settlement
DC Fast – Existing Sites Program

Phase 2 DC Fast Existing Sites Program RFP was Released on April 11, 2022

Applications opened in DAQ Grant Management System (GMS) on April 11, 2022

Applications are due: July 11, 2022, 11:59 PM EST

Eligible applicants include:

- Government organizations
- Non-government organizations

Specific details on eligible applicants can be found in the RFP.
DC Fast Existing Site Program

This RFP is for funding the Replacement or Expansion of Existing DC Fast charging sites. At sites that have or have had 50kW chargers or greater.
DC Fast Existing Site Program

This RFP is for funding the Replacement or Expansion of Existing DC Fast charging sites. At sites that have or have had 50kW chargers or greater.

• What if my proposed location does NOT have a 50kW charger?
  • Apply under the DC Fast Priority Corridor Program!
    • Program ID: NCDEQDAQ0011
Before beginning the application, please make sure you have the following information available.

The application checklist can be found [here](#).

Access to GMS.

**DO NOT Wait to the Last WEEK.**

General Application Requirements (All applications)

- GMS Access (During the User Creating you are linked to a Business Entity)
- NCID
- Project Information

Zero Emission Vehicle Infrastructure Charging Program

(See Application for more Details)

- GPS coordinates of Charging Station Location and Street Address
- Charging Equipment Information (# of ports, spaces, model, manuf., etc.)
- Materials/Services/Labor estimated costs
- Site Host Letter of Commitment (if necessary) (for Upload)
- Utility Assessment of Site (for Upload)
- Local map to show amenities (for Upload)
- Plans to show exact charging station and parking space location (for Upload)
- Any other additional documentation to support application (Including use surveys, etc.)
Register for a NCID

• Setting up an NCID: https://ncid.nc.gov.

• Instructions are found here: How-to-Create-a-NC-ID.pdf

• Your NCID username and password are your credentials for the GMS System.
Requesting Access to the DAQ Grant Management System (GMS)

- After getting your NCID
- Completed the North Carolina Substitute W-9 Form for your agency and email it to svc.NCVWApplication@ncdenr.gov.
- Finally Submit the DAQ Access Authorization WEB Form

Each organization is allowed up to 3 authorized users.

Once the authorization is processed, you will receive an email from NCDOT IT SAP Support Services.
• DAQ Grant Management System (GMS) can be accessed at:
  https://www.ebs.nc.gov/irj/portal

• GMS Instructions can be found at:
  https://deq.nc.gov/about/divisions/air-quality/motor-vehicles-and-air-quality/volkswagen-settlement/grants-management

• Downloadable GMS Manual

1. **Please provide a detailed description of the proposed project.** Describe procurement, installation, activation/commissioning, testing and signage. Describe collaborations with interested utilities, local business, cities, counties or other entities. Describe sustainable business model for this project. Describe customer support service accessibility. Describe networking and network security for both payment and data capture.

   6 out of 3000

2. **Explain how this request fits into North Carolina’s Beneficiary Mitigation Plan.**

   6 out of 1316

3. **What is the likelihood that the project will incentivize future indirect NOx and other emission reductions?**

   0 out of 1402

4. **Renewable Energy Certification:** Please provide detailed plans for any use of any renewable energy certificates for powering the charging station and how the energy will be provided. Include a signed copy of the agreement.

   0 out of 731

5. **Project Feasibility:** Provide a description of how you as the applicant have the necessary technical, managerial, procurement, and financial capability and experience to execute on your proposed project.

   0 out of 731

6. **Use this space for any additional information that you believe will be helpful in evaluating the project.** (Optional)

Submitting Your Application

By checking this box, I certify that all proposed activities will be carried out; that all money received will be utilized solely for the purposes for which it is intended; that records documenting the planning process and implementation will be maintained and submitted when requested, and DEQ is hereby granted access to inspect project sites and/or records. It is understood that if this project is selected a contract with DEQ will be executed.

Tips and Things to Know

• DO NOT WAIT TO THE LAST WEEK TO REQUEST GMS ACCESS OR APPLY!!!!!!!!!!

• Budget information should be as accurate as possible

• DEQ reserves the right to partially fund awarded projects

• Essays will be used to assist in evaluating projects that score similarly to determine awardees

• We will not accept paper, scanned, emailed, or faxed applications. We will not accept applications after the due date.

• Do not sign any agreements with vendors or start work until your contract is fully executed

• APPLICATION AWARD IS NOT A FULLY EXECUTED CONTRACT

DC Fast Existing Site Program

This is a Competitive reimbursement program.
DC Fast Existing Site Application Scoring
Lifetime Cost Effectiveness: VW$ funded per kW charging rate * number of charging ports (20 points)

Cost Effectiveness (CE) (VW$ funded per kW charging rate * number of charging ports):

$$CE = \frac{VW$}{\text{Maximum Available (kW} \times \text{Ports)}}$$

CE is based on applicant provided budgets. Projects are ranked best to least CE. The most CW will get 20 points the least 0.
Distance to other DC Fast Charging Stations (20 points)

Distance to other DC fast charging sites: How many miles to existing DC fast charging sites (not including dealerships or Tesla Supercharger locations) along interstate to project area?

- Over 100 miles: 20 points
- 99 to 51 miles: 15 points
- 50 to 26 miles: 10 points
- Less than 25 miles: 5 points
Distance Off Interchange (15 points)

Distance off interchange: Ranked highest to lowest; based on proposed site location from interchange.

- Less than 2 miles: 15 points
- 2 to 3 miles: 10 points
- Over 3 miles but less than 5 miles: 5 points
- Over 5 miles: 0 points
To determine environmental justice (EJ) scores for the purpose of ranking and rating vehicles and projects, the following analysis was done at the block group level using the 2019 American Community Survey (ACS) five-year estimates. The ACS is a demographic survey conducted each year by the U.S Census Bureau to collect detailed demographic information. For this analysis, aggregated five-year data from the 2017 and 2019 surveys was used to increase reliability.

The Environmental Protection Agency defines environmental justice (EJ) as “the fair treatment and meaningful involvement of all people regardless of race, color, national origin, or income, with respect to the development, implementation, and enforcement of environmental laws, regulations, and policies.” (US EPA). Historically, people of color and people of low-income, along with other vulnerable populations, have been disproportionately exposed to harmful pollutants.

See Table B-1 of the RFP.
Traffic Density of Location: Annual Average Daily Traffic (AADT) of the proposed project area. (See AADT map in Appendix C).

- 90,001 to 195,000: 15 points
- 42,001 to 90,000: 10 points
- 1,600 to 42,000: 5 points
Accessibility and Proximity to Amenities (15 points)

Accessibility and proximity to amenities: Distance to amenities such as restrooms, food, local restaurants, and retail shopping.

• Onsite: 15 points
• Less than ¼ mile from amenities: 10 points
• ¼ mile or more from amenities: 5 points
Renewable Energy Certificates: Percentage of electricity to power the DC fast charging station for five-years.

- 100%: 10 points
- 50% to 99%: 7.5 points
- 26% to 50%: 5 points
- 1% to 25%: 2.5 points
Bonus Points: Historically Under-Resourced County Outreach Program (10 points)

The Historically Under-Resourced Counties Outreach Program includes counties that have an underserved population greater than 15% and are designated as Tier 1 by the NC Department of Commerce.

For projects located in one of these counties, a bonus of 10 points will be awarded.
