If yes, what is the inbound contamination percentage?
**Part III. Special Waste Collections**

Please provide data below for services provided to the public. Please do not include materials that were accepted and then disposed of in a landfill. Do not include materials generated exclusively by government operations (e.g. motor-fleet services). Question 47 is about materials accepted outside of any Household Hazardous Waste (HHW) Program or event. If special wastes were only accepted as a part of an HHW Program/Event and were not collected by separate recycling efforts then report in #48, not in #47.

Special wastes are materials collected at convenience centers, transfer stations, landfills, etc. Do not include materials collected at household hazardous waste permanent collection facilities or household hazardous waste temporary collection events.

Calculate for each truck used in your yard waste management program, and then enter the grand total volume managed by program in the appropriate boxes above.  Ex.  10 cubic yard truck x 3 days/wk x 16 wks = 480 cubic yards

\[ \text{Size of Truck (in yards)} \times \text{Avg. no. of times truck fills each week} \times \text{# of weeks truck is used during year} = \text{TOTAL cubic yards} \]
