

2010 NC Integrated Reporting Categories

NOTE: Categories 4 and 5 are IMPAIRED waterbodies.

Category 1 - (By Parameter)

- 1 Monitored parameter meets standard.
- 1b Waterbody was impaired when a management strategy was implemented and is now meeting standards.
- 1nc Natural conditions.
- 1t Waterbody has an approved TMDL and is meeting standards.

Category 2 - (By Assessment Unit)

- 2 No impairments in this assessment unit.

Category 3 - Inconclusive Data (By Parameter)

- 3a The instream data is inconclusive and the waterbody is considered Not Rated.
- 3c No data or information to make assessment.
- 3n Insufficient chlorophyll-*a* data.
- 3t No data or information to make assessment however the waterbody is within a watershed with an approved TMDL.

Category 4 - IMPAIRED waters (By Parameter)

- 4b Waterbody is impaired and has a management strategy in place which is expected to address the impairment.
- 4c Waterbody is impaired due to the presence of an upstream or downstream impoundment.
- 4cr Waterbody is impaired for recreation based on Division of Environmental Health's No Swimming Advisories.
- 4ct Waterbody is impaired and is subject to an approved or draft TMDL.
- 4s Waterbody is impaired for biological integrity with an approved TMDL for an aquatic life parameter, or has another Category 5 aquatic life listing.
- 4t Waterbody is impaired and is named in an approved TMDL.

Category 5 - IMPAIRED waters (By Parameter)

- 5 Waterbody is impaired and requires a TMDL.
