Part III. Special Wastes

This section concerns your local government's provisions for managing waste materials that require special handling or are banned from landfilling. Please answer the questions and complete the table below indicating whether you accept these materials from the public for recycling. Please do not include materials that were accepted and then disposed of in a landfill, and please do not include tires (which are reported by counties only in PART VIII (page 10)).

Please do not include information on programs managing materials generated by government operations (i.e. motor-fleet services). Only information on services provided to the public should be included below. Information about Electronics Recycling Programs should not be included here (see page 3 and 4 instead), and electronics recycling tons should be reported on page 5.

If special wastes were only accepted as a part of an Household Hazardous Waste (HHW) Program or HHW event and not as a separate recycling effort then please do not record materials in the chart below but instead report combined with HHW materials (see question # 49).

YARD WASTE MANAGEMENT FORMULA: If yard waste quantities are not tracked, you may use this formula to help you estimate yard waste volume. Calculate for each truck used in your yard waste management program. Put the grand total for all trucks in the appropriate boxes above.  
Ex. $10 \text{yd}^3 \text{ truck} \times 3 \text{days/wk} \times 16 \text{wks} = 480 \text{yd}^3$

$$ \frac{\text{Size of Truck (in yards)}}{\text{Avg. no. of times truck fills each week}} \times \frac{\text{# of weeks truck is used during year}}{\text{TOTAL}} = \text{TOTAL} \text{yd}^3$$
