MEMORANDUM

TO: THE ENVIRONMENTAL REVIEW COMMISSION
The Honorable Mike Hager, Co-Chair
The Honorable Ruth Samuelson, Co-Chair
The Honorable Brent Jackson, Co-Chair

FROM: Neal Robbins, Director of Legislative Affairs

SUBJECT: Evaluation of Effectiveness of Brownfields Property Reuse Act

DATE: October 30, 2014

Pursuant to G.S. 130A-310.40, The Department shall prepare and submit to the Environmental Review Commission... an evaluation of the effectiveness of this Part [the Brownfields Property Reuse Act] in facilitating the remediation and reuse of existing industrial and commercial properties. This evaluation shall include any recommendations for additional incentives or changes, if needed, to improve the effectiveness of this Part in addressing such properties. Please consider the attached as the formal submission this report. If you have any questions or need additional information, please contact me by phone at (919) 707-8618 or via e-mail at neal.robbs@ncdenr.gov.

Executive Summary

This report to the General Assembly is required by the Brownfields Property Reuse Act (BPRA) of 1997 (G.S. 130A-310.40 *et seq.*) and describes the activities and status of the Division of Waste Management's Brownfields Program (Program) for the period of Oct. 1, 2013 through Sept. 30, 2014 [Federal Fiscal Year 2014]. The N.C. Department of Environment and Natural Resources (DENR) is pleased to report continued success in the state's efforts to revitalize and safely reuse brownfields properties through the Division of Waste Management's Brownfields Program and its partnership with the Environmental Protection Agency (EPA).

Program Output

For the annual reporting period, the Program produced 47 brownfields agreements, exceeding its highest annual output since the beginning of the program. This gain in productivity is attributed to the Program's efforts to streamline the processing of agreements, relying more heavily on an increasingly experienced project management staff in the agreement-drafting and negotiation process, thereby allowing reduced involvement of NC DOJ attorneys during agreement negotiation. At the conclusion of this year's reporting period, the total number of completed agreements since program inception is 318. For the reporting period from Oct. 1, 2013- Sept. 30, 2014 the tracked measures include:

- Program applications received: 63
- Brownfields agreements finalized: 47
- Acres of Brownfields finalized: 683
- Estimated committed capital investment for projects entering program: \$1.50 billion

Since the program began, all of the public dollars spent are either federal funds from a cooperative agreement with the EPA or from program fee receipts (The Division of Waste Management receives no state-appropriated funds for the program). With these funds, the program has facilitated \$9.8 billion in estimated private investment in brownfields redevelopment projects.

Outreach to Local Governments

Working in partnership with local governments and Councils of Government (COGs) toward redevelopment projects has led to continued success for those local governments applying for and winning competitive brownfields grants offered by the EPA for the assessment and cleanup of brownfields properties. The successes below show a general recognition that North Carolina not only has significant brownfields redevelopment needs, but that there is a system in place in which an active community of local governments is working in partnership with the state to effectively address brownfields redevelopment. Ten North Carolina local governments were awarded a total of \$4.2 million in U.S. EPA brownfields grants in 2014, including the Aberdeen, Dunn, Durham, High Point, Kinston, Salisbury, Sanford, Wilmington, Wilson, and the Upper Coastal Plain Councils of Government. This is the highest figure in Region 4 states and the fifth-highest total of all states.

Program Background

Brownfields are abandoned, idled or underused properties where environmental contamination hinders redevelopment due to concerns about environmental liability. Redevelopment of brownfields properties has become increasingly popular as developers and local governments realize that these properties offer viable opportunities to bring economic growth, public health protection, jobs and quality-of-life benefits to cities and rural areas. The Brownfields Property Reuse Act (BPRA) gives the Division of Waste Management authority to enter into brownfields agreements with prospective developers who did not cause or contribute to site contamination. The BPRA modifies the environmental liability barrier for prospective developers and motivates them to bring these properties and their hindrances to the Division of Waste Management's attention. The Division of Waste Management partners with the prospective developer to evaluate the possible risks associated with site contamination, and then negotiates a brownfields agreement stipulating the steps necessary to make the site safe for a specific intended reuse. The result is a redevelopment project that fuels economic growth while protecting public health and the environment.

Since brownfields agreements afford prospective developers liability protection for as long as they make and maintain the site safely for its intended reuse, the specter of open-ended financial uncertainty is lifted. This economic shield allows prospective developers to obtain financing previously unavailable for these properties.

The BPRA allows the Division of Waste Management to distinguish between prospective developers of brownfields properties and the properties' polluters. Instead of mandating that the site be cleaned to current standards, the BPRA requires developers who did not cause or contribute to the contamination to make the site safe for a specifically identified reuse. The program must examine the risks to public health and the environment posed by the site. Then, DENR determines what the prospective developer must do to ensure safe redevelopment. These actions can range from land-use restrictions to cleanup, or a mixture of both. In addition to holding prospective developers accountable to their agreements, DENR reserves the right to enforce against those parties responsible for the original contamination.

The ancillary brownfields property tax incentive for prospective developers allows them to recoup funds spent on assessment and cleanup. The program motivates the market to recycle these sites to productive reuse, while preserving or reducing the use of pristine or undeveloped "greenfields" property. While the environmental benefits are obvious, most redevelopments also create a significant number of jobs and put properties back on the tax rolls. This dual economic-environmental gain benefits the state, local government, and the brownfields developer. In the years since the BPRA was enacted, and as these benefits have become better known, the program's popularity and demand for its services have increased dramatically.

The overall result is a winning scenario for the environment and for economic development. Risk reductions and cleanups are achieved at sites that could have harmed the public or the environment, and prospective developers redevelop abandoned properties that once had little hope for productive reuse. The public benefits of job creation, improved quality of life in the surrounding neighborhoods, local tax base expansion and contribution to the general fund are other positive impacts. By the end of federal fiscal year 2014 (FFY 2014), an estimated \$9.8 billion in capital investment will have been committed to redevelop abandoned properties that have impacted urban and rural landscapes.

The program also supports smart growth and sustainability. Every project that reuses property, whether it is in an urban center or a rural area, preserves green space. Often it also reduces suburban sprawl and supports sustainable urban development. The 318 properties that have received completed agreements are estimated to represent 5,725 acres. This is, in effect, acreage that is being recycled into reuse, sparing more pristine lands from development and risk for future contamination.

Figure 1 (below) summarizes the steps involved in obtaining a brownfields agreement.

Figure 1. Summary of the Brownfield Process

- Step 1 – A prospective developer (PD) submits a Brownfields Property Application to the Division of Waste Management outlining a brownfields site it desires to buy or sell for the purposes of redevelopment, and for which it needs liability protection. The Division of Waste Management determines if the PD, the subject property and the proposed redevelopment project are eligible under the BPRA statute. PD pays initial \$2,000 fee at the time its project is deemed eligible by the Division of Waste Management.**
- Step 2 – The Division of Waste Management reviews existing site data to determine the risk posed by contamination at the site. If the data are insufficient to evaluate such risk, the Division of Waste Management advises the PD on further site assessment to gather the necessary data.**
- Step 3 – The Division of Waste Management determines what actions are necessary to make the site suitable for the PD’s intended reuse and includes these actions in a draft brownfields agreement. The PD and the Division of Waste Management negotiate the provisions of the draft brownfields agreement and other required statutory documents.**
- Step 4 – A public notice of the brownfields agreement is published, with a 30-day public comment period.**
- Step 5 - The brownfields agreement is finalized after any public comments are considered and incorporated. Prior to the execution of the finalized brownfields agreement, the PD pays the secondary fee negotiated in the agreement, and the agreement is executed and recorded at the County Register of Deeds.**
- Step 6 - The PD completes any site safemaking actions required under the agreement, thereby triggering the agreement’s liability protections in the form of a covenant not-to-sue. The liability protection allows the flow of lender financing that facilitates redevelopment.**
- Step 7 – Upon completion of the brownfields property improvements, the property owner is eligible for the brownfields property tax incentive, which reduces its property taxes for a five-year period.**

Program Status

During FFY 2014, the program received 63 applications for projects seeking entry into the program. This compares to the 66 applications received in FFY 2013 and continues a general increasing trend from the recessionary depths of 2008 and 2009. During FFY 2014, the program completed 47 brownfields agreements. Figure 2 below shows the trends in some program measures over the last several years.

The program is preparing to receive its ninth year of funding from the EPA under its State Response Program Cooperative Agreement, authorized under the federal brownfields act. This federal funding provides a total of 8.67 full-time equivalents (FTEs) to the Division of Waste Management. Of these, 7 FTEs are in the Brownfields Program and 1.67 FTEs are in the Inactive Hazardous Sites Program. For the Brownfields Program, this federal grant funds a core of three project managers in Raleigh and three regionally located project managers: one each in Asheville, Charlotte, and Wilmington. In recent years, the U. S. EPA has decreased this type of funding for all states, including North Carolina. The Program has been able to respond to these federal funding cuts by increasing fee funding in order to maintain capacity. Fee funding now supports five positions, and U. S. EPA federal grant funds support the remaining positions.

Figure 2. Brownfields Program Trends

Outreach and Education

Prospective Developers and Lenders

Participation in the program by prospective developers is voluntary and is largely market-driven in that prospective developers bring their redevelopment projects to the program in order to break liability barriers for financing. One of the goals of the program is to educate the development community, lenders and local governments regarding the program's existence and usefulness as a tool for private and public redevelopment stakeholders. Efforts to increase awareness of the program continue to bring new redevelopment opportunities and their attendant public benefits into the program. By every measure, the program has been successful in its mission of becoming an effective liability protection tool that can be relied upon by lenders in making project financing decisions, thereby facilitating financing of redevelopment projects on environmentally impacted property. These measures include the increasing number of applicants into the program and the frequency with which lenders are requiring brownfields agreements as part of lending decisions. Lender trust in the program can be seen in cases such as a brownfields agreement completed this year with a major bank as the prospective developer, facilitating the development of a bank branch on abandoned property.

Local Governments

One of the other measures for this effort is the Program's outreach efforts that support local governments as they apply for competitive U.S. EPA brownfields grants. These grants can provide local government with funds for further facilitating redevelopment of brownfields properties.

Local governments in this state had a banner year in competing for EPA brownfields grant funds to local governments. The U.S. EPA awarded approximately \$67 million in competitive brownfields grants to local governments in FFY 2014 (up from \$62 million in FFY 2013). Of the \$67 million in grants awarded nationally, North Carolina local governments were awarded \$4.2 million (up from \$2.2 million in FFY 2013).

The 2014 grantees were Aberdeen (\$400,000), Dunn (\$400,000), Durham (\$200,000), High Point (\$400,000), Kinston (\$400,000), Salisbury (\$400,000), Sanford (\$200,000), Wilmington (\$400,000), Wilson (\$1,000,000), and the Upper Coastal Plain Council of Governments (\$400,000).

Brownfields Program staff will be meeting with these grantees at the Regional Grantee Meeting at EPA Region 4 headquarters in Atlanta Oct.7-8, 2014 in order to continue to support their efforts as they use these grant funds towards brownfields redevelopments in their local areas. After these grants are awarded by the U.S. EPA, the Program works with the local government grantees to educate their local brownfields stakeholders such as lenders, real estate professionals, businesses and developers about the ways in which a brownfields agreement can define their environmental liability and facilitate their redevelopment. While such a grant is not necessary to gain a brownfields agreement under the program, it does provide a source of funding for assessment and/or cleanup for the local stakeholders. This can help kick-start projects that are within the jurisdiction of the awardee. The Division of Waste Management's Brownfields Program will also work with the grantees as they develop plans for utilizing the grants, review sampling and analysis plans, and work directly with any local prospective developers who need brownfields agreements to facilitate their redevelopment projects.

Table 1 below shows the brownfields grants awarded to local governments in North Carolina since program inception. These grants have been used to assess and remediate numerous brownfields projects across the state. The U.S. EPA brownfields grant program has truly had statewide reach, as 45 local government entities have been awarded 80 separate grants since 1996. These grants range in value from \$200,000 for assessment, cleanup, and job training grants to \$1,000,000 for revolving loan fund grants. Funds awarded can be used for various aspects of brownfields redevelopment depending on the type of grant awarded.

The outcomes of local brownfields activities across the state are increasingly impressive as the number and experience of local grantees grows. These grants serve to strengthen overall interest in brownfields redevelopment statewide and spark interest from developers seeking brownfields agreements from the Division of Waste Management. These grant funds dovetail with DENR's efforts to support brownfields redevelopment, because the EPA continues to strongly recommend to these grantees that they seek entry into the Division of Waste Management's Brownfields Program to best use their grant funds. In this way, DENR's efforts are truly in coordination with those of EPA at the federal level and with government redevelopment teams at the local level.

Site Summaries and Inventory

For brief descriptions and status of all brownfields projects in the program as of Sept. 30, 2014, please see the Appendix, beginning on page A-1. It contains information on those projects completed this year, those projects completed since program inception, and those projects that are actively undergoing work towards a brownfields agreement. Some definitions when referring to the tables include:

Finalized brownfields agreements are those projects that have a signed and recorded brownfields agreement (or have completed the public notice phase of the brownfields process and are waiting for the completed agreement to be signed). As of Sept. 30, 2014, the program has finalized a cumulative total of 318 brownfields agreements across the state, 47 of which were completed in the one-year period from Oct. 1, 2013 to Sept. 30, 2014.

Active eligible projects have been deemed eligible for a brownfields agreement under BPRA statutory criteria. These developers represent projects in-progress, working with the Division of Waste Management in some stage of data gathering, analysis or agreement negotiation. As of Sept. 30, 2014, there were 149 active projects. Projects at this stage receive guidance from the Division of Waste Management as the developers gather the additional data needed to ensure protection of public health and the environment. Once research is complete, the Division of Waste Management analyzes the data, drafts and negotiates the terms of the brownfields agreement with the prospective developer, and approves initiation of the statutory 30-day public comment period.

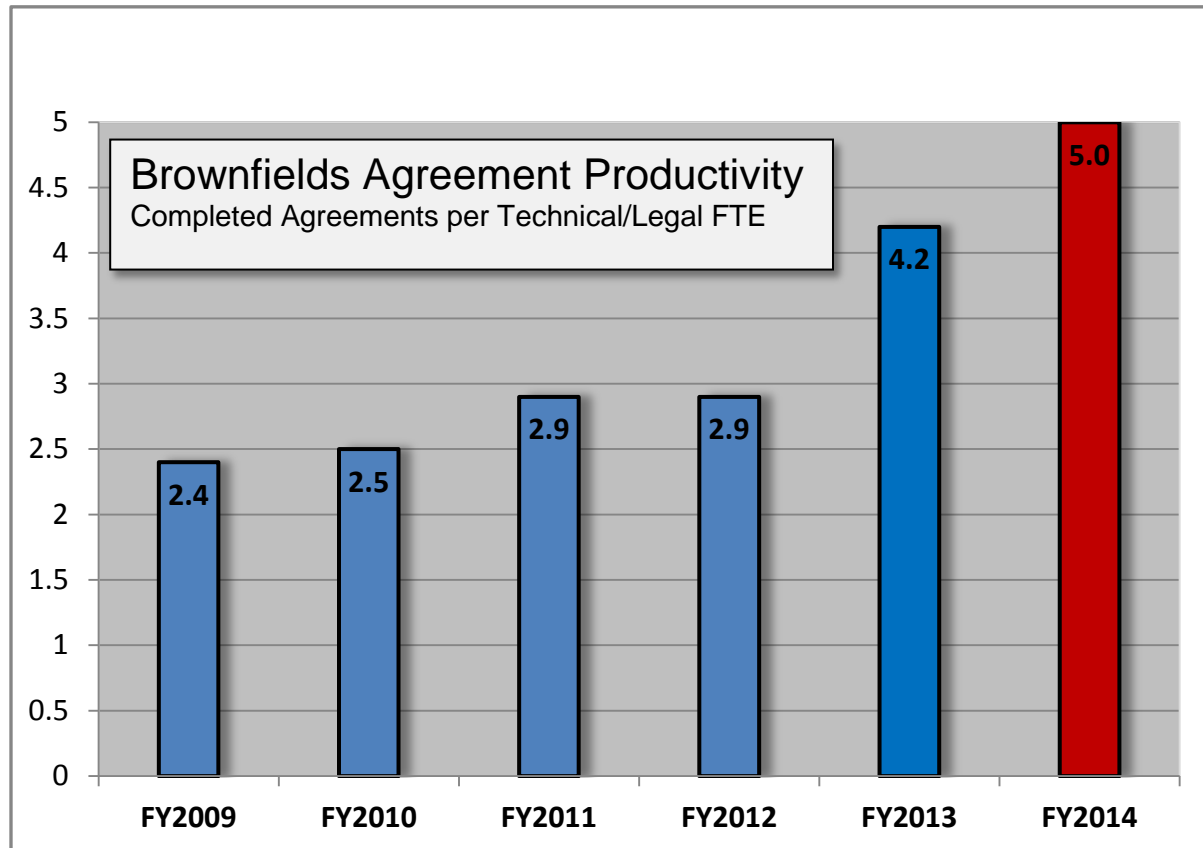

Projects pending eligibility are in the initial stage of the brownfields process as they apply for entry into the program. Sites in this category have yet to meet the requirements under the statute for eligibility for a brownfields agreement. For sites in this category, the program has requested clarification or additional information from prospective developers regarding a site. Normally, developers respond to these requests for clarification, the sites are deemed eligible, and sites then quickly move into the active eligible category. As of Sept. 30, 2014, 22 sites were in this category.

Improving Effectiveness

Program Productivity Increases

The chart below shows a measure of the program's productivity normalized to the number of technical/legal staff that are producing agreements. The result shows a sharp increase in the program's productivity for the last two years. This is attributed to fully implementing measures to increase productivity, including empowering ever-more experienced project managers [project managers average 20 years of environmental experience and 8 years with the brownfields program] with increasing responsibilities to negotiate agreements using/modifying language from previously established templates, reducing the need for N. C. Department of Justice (DOJ) attorney involvement and thereby trimming time and reducing the resources needed to get to agreement completion.

Of the 47 agreements completed by the program this year, only six needed significant DOJ attorney involvement in negotiation. The ability of the staff to fully negotiate these agreements to completion independent of DOJ attorney involvement streamlines the process as the DOJ attorney is no longer in the critical path for all agreements. It also reduces the program's attorney costs (consequently the program now funds just 0.35 attorney FTE, instead of 1.0 FTE).

Leveraging Resources into Private Sector Investment

Another measure the program tracks is committed private investment facilitated by brownfields agreements. The cumulative total private investment facilitated by the program from its inception now stands at over \$9.8 billion, with \$1.50 billion of that being added by projects entering the program this year. Generally, these investments would not have been made in brownfields redevelopment areas and often not made at all without the liability relief afforded by a brownfields agreement. Throughout its existence, the Brownfields Program has provided a high economic development value for the federal funds it uses, and it uses no state funds. Furthermore, the high ratio to which the federal funds have been successfully leveraged into private development dollars for brownfields redevelopment is just one measure of the effectiveness of the BPR. The economic activity and increased tax base generated by construction of these brownfields projects exceed the public funds expended by many orders of magnitude.

Responding to Continuing Federal Funding Cuts

The U.S. EPA grant funding to states across the nation for brownfields redevelopment programs has been consistently cut over each of the last several years. For our state, federal funding for

the 128(a) State Response Program Grant has been declining over the last several years. Table 2 below shows the history of the U.S. EPA grant funding to the Brownfields Program. Portions of the total grant goes to both the Brownfields Program and the Inactive Hazardous Sites Program.

Table 2. Funding from U.S .EPA State Response Program Grant

Award Year	Award Amount (to Brownfields and Inactive Hazardous Sites Program)	Award Amount Available to the NC Brownfields Program	% Cut
2008	\$1,248,630	~\$1,110,000	--
2009	\$1,143,494	~\$1,005,000	9.5
2010	\$916,169	~\$780,000	22.3
2011	\$820,790	~\$705,000	9.6
2012	\$783,066	~\$660,000	5.7
2013	\$762,099	~\$648,000	2.7
2014	\$760,221	~\$647,000	0.2

Although this year, the state received nearly the same amount in federal funding as last year, in total, over this five-year period, there has been a decline in federal funding to the North Carolina Brownfields Program of more than 40 percent. In order to maintain program capacity despite these funding cuts, and also to meet the statutory requirements of recovering all state costs from the prospective developers, the program increased its fees. In 2007, the program instituted an across-the-board fee increase from \$2,000 to \$5,500 reflecting the true cost of project managers that were federally subsidized through the program’s EPA grant. After continual federal cuts since then, the program increased fees to \$8,000 in 2012.

Continued success of Redevelopment Now Program Option

The program continues to develop the popular Redevelopment Now program option whereby a developer can pay a higher fee and have access to a nearly dedicated project manager and immediate attorney services. This enables a developer to bypass any site queue and reduces the time to completion of a brownfields agreement. Since these particular project managers are without federal subsidy, the fee was a significantly higher \$30,000 as opposed to the normal \$8,000 fee. This option has been a popular choice by developers of high-value projects where the cost of carrying financing for the normal queue process far exceeds the fee for a separate project manager. Of the program’s 47 completed agreements, 15 were in the Redevelopment Now option (compared to 12 Redevelopment Now projects completed last year). In this way, the program has quickened the pace on many such Redevelopment Now projects, reducing the time in the process from the typical 18 months to as little as five-to-six months.

Continuing to Develop Innovative Products to Facilitate Redevelopment

The Program has observed that in certain situations, there may be an entity owning a brownfields property where, for various reasons, it has not been possible to establish eligibility for a brownfields agreement under the BPR. Sometimes, the safe redevelopment of these properties would provide a significant public benefit to the local community. To assist in the redevelopment process and to advance the realization of potential public benefits at these types of properties, the Program has developed and implemented a concept it calls “Ready-for-

Reuse Brownfields

Agreements.” These agreements are essentially brownfields agreements developed in advance of having an identified future prospective developer. The agreement includes all of the safety elements the Division of Waste Management deems necessary (based on data obtained and actions taken voluntarily by the ineligible property owner) but has no entry indicated on the application for the name and signature of a future prospective developer. Such a “Ready-for-Reuse” agreement is expected to prove very useful in marketing the property to potential prospective developers who might be interested in purchasing the property for redevelopment when they know their liability will be limited to the items in the agreement. Coming into this year, two such agreements had been completed. One had facilitated a sale to a new owner for redevelopment. This year, an additional agreement was completed and it also facilitated a sale. Two others made significant progress towards completion, and there is significant interest in both by prospective purchasers.

Brownfields Cross-Training Program to Increase Program Capacity

In September 2014, the Brownfields Program has worked with other programs in the Division of Waste Management to implement a program to provide project managers in other Division of Waste Management Programs cross-training in the Brownfields Program. Two experienced staffers have been added to the program in the latter half of September under this program, one from the Hazardous Waste Section and one from the Solid Waste Section. These staffers will provide full time technical and project management services to the Brownfields Program for at least 6 months before they return to their program of origin. Although these staff will be on a learning curve, their assistance should help increase the program’s overall capacity next year.

Fund Status

The program receives no state appropriation and has two funding sources: federal cooperative agreement funds and fee receipts. All of the brownfields fees charged by the program go into the Brownfields Property Reuse Act Implementation Account as authorized under the statute. While the majority of program funding still comes from the federal cooperative agreement, the fee funds are used by the program to supplement the federal cooperative agreement funds and do play a key role in the program’s capacity to produce brownfields agreements.

For the state fiscal reporting year from July 1, 2013 through June 30, 2014 the Brownfields Property Reuse Act Implementation Account had a beginning balance of \$636,665, annual receipts from fees and interest of \$501,338, and disbursements of \$384,092. This yields an ending fund balance of \$753,911. Table 3 below shows the fund status for the last six years.

Table 3. Brownfields Property Reuse Act Implementation Account Balances

State Fiscal Year	Year-End Fund Balance
2009	\$361,300
2010	\$216,913
2011	\$308,237
2012	\$363,472
2013	\$636,665
2014	\$753,911

The increase in the balance this year is due to a number of factors, including reduced attorney expenditures through the Program's agreement processing reforms, higher revenue from increased program productivity, greater federal funding because of lower-than-expected federal cuts, the continued success of the Redevelopment Now program option, and the vacancy created from one fee-funded staffer leaving the program. The Program has managed to stabilize its funding in the face of cuts in federal funds and then increase its funding in order to hire the appropriate capacity to meet increased program demand. In response the program hired a permanent fee-funded position and plans to hire at least one more in 2015 to meet the increasing demand for the program's services. However, if there are deeper-than-anticipated federal cuts in brownfields cooperative agreement funds, some of the program's federally-funded positions may also be shifted to fee-funded positions. Any plans for increasing the program capacity must also include increased resources for compliance monitoring, as the number of brownfields agreements requiring compliance monitoring continues to increase.

Continued fund stability in the future requires a consistent level of interest by developers in the program and relatively flat federal funding. Through the successful implementation of various fee increases and options, the Program stabilized its resources last year, saw increasing fee revenue this year, and now plans an increase in program capacity to meet demand.

Further Information

For additional information on the Brownfields Program and how it works, please visit the program's Website at www.ncbrownfields.org.

APPENDIX

Brownfields Program Site Summaries and Inventory of Projects as of September 30, 2014

The Project Inventory below is divided into three segments as follows:

Projects with finalized brownfields agreements have completed the public notice phase of the brownfields process and either have a signed brownfields agreement in-place or are waiting for the agreement to be executed.

Active eligible projects have been deemed eligible for a brownfields agreement under BPRA statutory criteria. These developers are working with DENR in some stage of data gathering, analysis or agreement negotiation.

Projects pending eligibility are in the initial stage that sites are in as they enter the program. Sites in this category have yet to meet the requirements under the statute for eligibility for a brownfields agreement.

APPENDIX A
Brownfields Program Site Summaries of
Brownfields Agreements Finalized Between
October 1, 2013 through September 30, 2014

47 FINALIZED BROWNFIELDS AGREEMENTS

(PD = Prospective Developer; RP = Responsible Party)

<p>MOTOR WERKS 410 Oberlin Rd Raleigh, Wake Co.</p> <p>PD: Crescent Cameron Venture I, LLC</p>	<p>The Brownfields Property consists of approximately 2.61 acres and is located at 402 Oberlin Road, Raleigh, Wake County, North Carolina. The Brownfields Property was first developed in residential use in the early 1900s and was then developed in the late 1940s into part of Cameron Village, Raleigh's first shopping mall. The Brownfields Property consisted of two office buildings, a gasoline station, an auto maintenance shop and a multi-level parking structure. Groundwater contamination exists on the Brownfields Property resulting from past operations at the gas station and the auto maintenance shop. Prospective Developer intends to redevelop the Brownfields Property as a multi-family residential and commercial retail center and has commenced construction at the site to that end.</p>	<p>10/30/13</p>
<p>ALLIANCE TRACTOR AMENDMENT 2765 Hendersonville Road Fletcher, Henderson Co.</p> <p>PD: Mission Health, Inc.</p>	<p>The current owner of the property requested in writing that the Notice be amended to include a fitness/wellness center among the approved uses. This use may include a child care center and an in-ground swimming pool. These uses will require additional soil sampling provisions. In addition, due to new soil contamination identified and its subsequent removal and disposal, the amendment includes additional provisions to the soil land use restriction to manage some soil left in place along with revisions to Exhibit B, the Brownfields Plat, and Exhibit 2 of Exhibit A, the contaminant tables included in the brownfields agreement.</p>	<p>11/1/13</p>

<p>TYNER STREET 7810, 7812, 7814, 7816, 7818, 7820, 7842 Tyner St Charlotte, Mecklenburg Co.</p> <p>PD: Tyner Street, LLC</p>	<p>The Brownfields Property is one parcel comprising an approximately 2.36 acre parcel that includes the former Amplate Facility. The property addresses are 7810, 7812, 7814, 7816, 7818, 7820, and 7842 Tyner Street in Charlotte, North Carolina (Mecklenburg County Tax Parcel Identification Number 04722116.)</p> <p>Redevelopment plans for the property include: residential, office, retail, industrial, and, if DENR issues prior written approval, other commercial uses. The property is surrounded by land in commercial, retail, and light industrial uses. Soil, groundwater, and soil vapor on the property are contaminated due to historical operations.</p>	<p>11/22/13</p>
<p>HIGH PENN OIL 198 PPG Road Greensboro, Guilford Co.</p> <p>PD: Sunoco, Inc. (R&M)</p>	<p>The Brownfields Property is located at 198 PPG Road, Greensboro, Guilford County, North Carolina. The Property consists of 6.19 acres and was the former location of High Penn Oil Company, which operated a used oil refinery from 1950 to 1953. The property is currently vacant. The Prospective Developer plans to sell the property for redevelopment for industrial uses including possibly as a railroad spur terminating with a loading rack to serve a petroleum storage terminal on adjacent property.</p>	<p>12/3/13</p>
<p>FUEL SYSTEMS 5019 Hovis Road Charlotte, Mecklenburg Co.</p> <p>PD: Hovis, LLC</p>	<p>The Brownfields Property is located at 5019 Hovis Road, Charlotte, in Mecklenburg County, and includes one parcel encompassing an approximate area of 3.94 acres. The Property was first developed in 1959 with an industrial building containing about 98,000 square feet of heated space and was used for warehouse and distribution. From 1986 until about 2005 the Property was used for the fabrication, etching, painting, and storage of truck fuel tanks. Hovis, LLC purchased the property out of bankruptcy in February 2011. Its intended re-development use is as vehicle storage ("Parking"), Warehousing, and a UHaul franchise (Commercial/Office and Parking) purposes. The Mecklenburg County tax identification number for the parcel is 05702304. Contamination of site soil and groundwater by chlorinated solvents has been documented in the northwest and southwest corners of the Property. Assessment activities concluded no risk from vapor intrusion exists at the Property.</p>	<p>12/3/13</p>

<p>MECK BAR CENTER Intersection of Judson Ave. and West Trade Street Charlotte, Mecklenburg Co.</p> <p>PD: Mecklenburg Bar Foundation</p>	<p>The Brownfields Property is located at the south side of the intersection of Judson Avenue and West Trade Street, Charlotte, in Mecklenburg County, and includes one parcel encompassing an approximate area of about 3.0 acres. The Property was first developed in 1953 with two-story apartment buildings which were part of the Charlotte Housing Authority's Belvedere Home Apartments. The Belvedere Homes public housing project was demolished in 2004 and 2005. The Property is currently vacant, and its intended re-development use is as Office, Adult Continuing Education and Training, Recreational Events, and associated automobile Parking purposes. The Mecklenburg County tax identification number for the parcel is 06904138. Contamination of groundwater by chlorinated solvents has been documented in the northeast and northwest corners of the Property. Assessment activities concluded no risk from vapor intrusion exists at the Property. Minor soil contamination by PAHs (polycyclic aromatic hydrocarbons) was reported in one on-site location and was not considered a risk to human health or the environment with the proposed redevelopment.</p>	<p>12/17/13</p>
<p>FAMILY DOLLAR – LAGRANGE 233 East Washington St LaGrange, Lenoir Co.</p> <p>PD: Eastern Pride, Inc.</p>	<p>The Brownfields Property comprises approximately 1.03 acres and is located at 233 East Washington Street in LaGrange, Lenoir County. The Brownfields Property was first developed in the 1960s for residential use. A self-service car wash occupied a portion of the property and was in use for approximately 20 years. The Brownfields Property was most recently occupied by an approximately 800 s.f. residence, an approximately 1,600 s.f. mini-storage building and four single-wide mobile homes. The mini-storage building was reportedly used by the former tenants of the mobile homes. The car wash facility was demolished in approximately 2007. Groundwater contamination, consisting of low concentrations of petroleum and solvent-based compounds, has migrated onto the Brownfields Property from an off-site source area. The source of the contamination is believed to be an automobile service station located adjacent to the Brownfields Property, and the site of a documented release of these compounds. Prospective Developer has redeveloped the Brownfields Property for commercial retail use.</p>	<p>12/23/13</p>

<p>BASF-ENKA LANDFILL Sand Hill Road Asheville, Buncombe Co.</p> <p>PD: Enka Partners of Asheville, LLC</p>	<p>The Brownfields Property is located at Sand Hill Road, Asheville, Buncombe County, North Carolina. It comprises 56.64 acres; it was a former BASF Corporation property. The property was first operated by American Enka Corporation; the facility has historically manufactured continuous filament yarn, nylon textile yarn and carpet yarn. Prospective Developer intends to redevelop the Property for retail shopping center, associated roadways and, if DENR issues prior written approval, other commercial and office purposes.</p>	<p>2/4/14</p>
<p>NOBLE ROAD 2302 Noble Road Raleigh, Wake Co.</p> <p>M/I Homes of Raleigh, LLC</p>	<p>The Brownfields Property comprises approximately 10 acres and is located at 2302 Noble Road in Raleigh, Wake County. The Brownfields Property was first developed in approximately 1950 and was owned and operated by the Wake County Board of Education as a bus parking, fueling and maintenance facility until approximately 2011. Groundwater contamination known to exist at the Brownfields Property is thought to have resulted from operations conducted at the site during its past use. Prospective Developer purchased the Brownfields Property on April 8, 2013 and intends to redevelop the site for (1) townhouse development, (2) multi-family dwelling development, and (3) residential development sales office and model homes.</p>	<p>2/7/14</p>
<p>NEW BELGIUM BREWING 55, 157 & 163 Craven Street Asheville, Buncombe Co.</p> <p>PD: New Belgium Brewing Company</p>	<p>The Brownfields Property is located at 55, 157, 163 Craven Street, Asheville, Buncombe County, North Carolina. It comprises 19.81 acres, and historically was used for auto wrecking, junk yard, gas station and restaurant purposes. More recently the northern portion was a livestock boarding/market/auction, tobacco warehouses, gas station, and restaurant, the southern portion was a mini storage facility. Prospective Developer desires to redevelop the property as a state of the art craft brewery and offices, a visitor center, wastewater treatment, warehousing, distribution, parking, greenways, employee recreation, event space, walking areas, and stream restoration, as well as other commercial or industrial uses:</p>	<p>2/24/14</p>

<p>WINSTON MUTUAL BLDG. 1225 East Fifth Street Winston-Salem, Forsyth Co.</p> <p>PD: Fifth Street Investments, LLC</p>	<p>The Property is located at 1225 East Fifth Street in Winston-Salem, Forsyth County and is occupied by the vacant four-story, 18,000 square foot historically significant Winston Mutual Insurance building and surrounding asphalt parking areas and landscaping. Prior to the construction of the building, the site was used for a mix of residential and commercial operations. Historic commercial uses in the site vicinity include several gasoline service stations, including automobile repair services, a mortuary and funeral home, restaurants and dry cleaning operations. Prospective Developer has committed itself to redevelopment for no uses other than rehabilitating the currently vacant and historically significant former Winston Mutual Insurance building for mixed commercial office, professional office, nonprofit office, business incubator, retail, warehousing, multi-unit residential, restaurant, community center and religious institutional uses, with associated parking and service drives.</p>	<p>3/3/14</p>
<p>CAROLINA CREOSOTING Eastbrook Drive Navassa, Brunswick Co.</p> <p>PD: Eastbrookl LLC</p>	<p>The site comprises 91.37 acres and is located in Navassa, Brunswick County, North Carolina, in the state's coastal plain region. An approximately 10-acre portion of the property was first developed in 1974 as a wood preserving and treating facility by Carolina Creosoting Corporation. It has been idle since 1984. Environmental testing conducted in the 1980s found soil to be contaminated with wood treating chemicals, predominantly creosote and pentachlorophenol. In the late 1980s, the EPA conducted a large remediation project by land applying creosote-contaminated soil and sludge. After post application soil testing indicated bioremediation was not occurring adequately, the EPA conducted a large removal action which included the excavation and offsite disposal of approximately 8100 tons of creosote and PCP-contaminated soil and sludge, 21,300 gallons of contaminated liquid waste and 1245 gallons of waste oil between 1992 and 1995. The developer plans to use the subject property for commercial, industrial, and/or other non-residential commercial uses, which may include a rail terminal for off-loading materials from rail cars, and may additionally include silvaculture and/or conservation related uses for the previously undeveloped portions of the tract.</p>	<p>3/14/14</p>

<p>PCA INTERNATIONAL 815 Matthew-Mint Hill Rd. Matthews, Mecklenburg Co.</p> <p>PD: Mathews Property 1, LLC</p>	<p>The Brownfields Property is located at 815 Matthews-Mint Hill Road and is approximately 15 acres. The property was the former site of PCA International and operated as a film processing and development center. Environmental contamination exists in soil, groundwater, and vapor on the property. Matthews Property 1, LLC has committed itself to office, distribution and warehouse use and, if DENR issues prior written approval, other commercial uses. The property is surrounded by land in commercial, retail, and light industrial uses.</p>	<p>4/15/2014</p>
<p>CAROLINA SPORTSPLEX 13317, 13433 & 13333 Dorman Road Pineville, Mecklenburg Co.</p> <p>PD: Carolina Sportsplex, LLC</p>	<p>The Brownfields Property is located at 13317, 13433, and 13333 Dorman Road, Pineville, in Mecklenburg County, and includes three parcels encompassing an approximate area of 47.77 acres. The Property was partially developed with two residential structures which are now abandoned. The houses and outbuildings are to be demolished. A 2005 Phase I and Phase II environmental site assessment report estimated approximately 3.7 acres of the Property were covered by dumped debris. Carolina Sportsplex, LLC purchased the property on December 30, 2013. Its intended re-development is as commercial/office, recreational, retail, food service, medical and parking purposes, including six soccer fields, a covered running track, bleachers, a playground, a two-story administrative office building containing dressing rooms, retail, walk-up restaurant, medical and restroom facilities, and another small structure for concession sales and additional restroom facilities. The Mecklenburg County tax identification numbers for the three parcels are 221 11108, 22111109, and 22111112. Contamination of site groundwater by petroleum hydrocarbons has been documented in the eastern to southeastern portion of the Property. Based on the environmental assessments it was concluded no risk from vapor intrusion exists at the Property.</p>	<p>4/15/2014</p>

<p>LOFTIS/BLYTHE CONSTRUCTION 5600 David Cox Road Charlotte, Mecklenburg Co.</p> <p>PD: David Cox Road, LLC</p>	<p>The Brownfields Property is located at 5600 David Cox Road in Charlotte, Mecklenburg County, encompasses an area of 34.51 acres, and was previously used as a construction company office and landfill. Its intended re-development use is for commercial, distribution, warehouse, office, manufacturing and industrial purposes. The Mecklenburg County tax identification number for the parcel is 02720102. Approximately five acres of the Brownfields Property has landfilled material containing concrete, tree limbs and stumps and some household debris.</p>	<p>4/14/2014</p>
<p>COASTAL LUMBER 912, 916-918, 934, 036, 1000 Craven Street New Bern, Craven Co.</p> <p>PD: New Bern Investments, LLC</p>	<p>The Brownfields Property is located at 912, 934, 936 and 1000 North Craven Street, New Bern, in Craven County, and includes five parcels encompassing an approximate area of 24.77 acres. The northern portion of the Property was first developed about 100 years ago with oil and fertilizer companies, and the southern portion of the Property from at least 1885 with sawmill and lumber companies. From 1973 until about 1988 a small area of the central portion of the Property was used for the production of pressure-treated lumber using chromated arsenate, and as a result elevated arsenic concentrations remain primarily in the middle and southern portions of the site's soil and groundwater. The Property's intended re-development use is as Commercial, Retail, Multi-Unit Residential, Single Family Residential, and Parking.</p>	<p>5/19/2014</p>

<p>AIR PARK 3800 North Liberty St. Winston-Salem, Forsyth Co.</p> <p>PD: Air Park, LLC</p>	<p>The Brownfields Property is located at 3800 North Liberty Street, Winston-Salem, in Forsyth County, and includes one parcel encompassing an approximate area of 3.47 acres. The Property is zoned general industrial, was first developed in 1981 with an industrial building encompassing an area of about 53,430 square feet, and was used by Piedmont Airlines as their Pilot Training facility. The property was occupied by US Airways Landing Gear Assembly, and then was purchased by ACAS Landing Gear Services in 1998 which went into bankruptcy in approximately 2005. Air Park, LLC purchased the property in June 2013. Its intended re-development use is as Industrial, Commercial/Office, Post- secondary Education, and associated Parking purposes. Contamination of site groundwater by chlorinated solvents from an adjacent and immediately upgradient, off-site property has been documented on the eastern half of the Property.</p>	<p>5/5/2014</p>
<p>SOUTHERN APARTMENTS 811 & 1331 W. Morehead and 829 S. Summit Ave Charlotte, Mecklenburg Co.</p> <p>PD: Southern Apartment Group – 49, LLC</p>	<p>The Brownfields Property is a former Coca Cola Bottler located at the southeast corner of West Morehead and South Summit Avenues and is comprised of three parcels with tax identification numbers 07325409, 07325410 and 07325S01. The Property comprises approximately 3.16 acres, was previously used for industrial and commercial purposes and is known to have contamination in the soil and groundwater. The Prospective Developer has committed itself to redevelop the Property for no uses other than mixed use high-density residential, retail and office purposes.</p>	<p>5/8/2014</p>

<p>ERWIN SQUARE RENNOVATION 2200 South Main St. Durham, Durham Co.</p> <p>PD: Erwin Square Plaza, LLC</p>	<p>The Brownfields Property is located at 2200 West Main Street, Durham, in Durham County, and includes one parcel encompassing an approximate area of 7.418 acres. The Property was first developed in the early 1900's with Mill Building 4 of the Erwin Mills. In the 1980's the building was owned and operated by Burlington Mills. In about 1992 the Property was redeveloped with its current configuration encompassing about 238,792 square feet of space, which includes a ten-story office building flanked by attached two-story wings used for office and retail. Erwin Square Plaza, LLC purchased the property on May 29, 2013. Its intended re-development is as office, retail, high density residential, hospitality, laboratory/research, parking and recreational use. Contamination of site groundwater by chlorinated solvents has been documented in the eastern portion of the Property.</p>	<p>5/23/2014</p>
<p>RENAISSANCE PLACE APARTMENTS 631 North Tryon St. Charlotte, Mecklenburg Co.</p> <p>PD: 10th and Tryon, LLC</p>	<p>The Brownfields Property is a 2.17 acre parcel located at 631 North Tryon Street in Charlotte, Mecklenburg County. The Property was previously used for residential purposes from at least 1905 until the late 1950s. A commercial building was also constructed on the northeast corner of the Property in the 1930s and was occupied by a gasoline station, dry cleaners and restaurant from the 1930s through the mid to late 1950s. All structures were demolished in the late 1950s. A hotel building was constructed on the Property in 1958 and was subsequently converted into use as an apartment building. The structure was demolished in 2007. It is currently vacant property. Tenth & Tryon, LLC desires to build high density, residential apartment complex, parking deck, and office and retail space on the property.</p>	<p>5/20/2014</p>
<p>SOUTHERN STATES – WILSON 6601 Ward Boulevard Wilson, Wilson Co.</p> <p>PD: Sirius Metal Recycling, Inc.</p>	<p>The Brownfields Property is located at 6601 Ward Boulevard in Wilson, Wilson County, North Carolina. The 2.2 acre property was formerly a pesticide and fertilizer manufacturing plant with operations that included the storage of bulk petroleum fuels, potash, and nitrates. Sirius Metal Recycling, Inc. is operating a recycling center for various consumer products at the facility doing business as Wilson Recycling Center.</p>	<p>6/9/2014</p>

<p>NAD LABS 2101 Westinghouse Blvd. Charlotte, Mecklenburg Co.</p> <p>PD: Beacon #32, LLC</p>	<p>The Brownfields Property is located at 2101 Westinghouse Boulevard in Charlotte, Mecklenburg County, encompasses an area of 9.42 acres, and was previously used as an industrial warehouse. Its intended re-development use is for manufacturing, warehousing, distribution, and industrial purposes. The historical site use has been as part of the 2,266-acre Naval Ammunition Depot (hereinafter "NAD") which manufactured 40 mm anti-aircraft ammunition from about 1942 through about 1959. The Brownfields Property was developed with several NAD buildings which performed services as a laboratory building; administration offices; barracks; cafeteria; machine shop and automobile service; storage of general stores, paints, acids, solvents, and oil; and a railcar unloading/loading depot In 1979 the Brownfields Property was developed with its current on-site, single 200,000 square foot warehouse building. The Brownfields Property currently has two tenants. The most recent soil and groundwater assessment did not discover impacts to soil or groundwater. Sub-slab soil vapor assessment reported several compounds, all of which were below the November 2013 DWM Non-Residential Vapor Intrusion Screening Levels.</p>	<p>6/27/2014</p>
<p>HERFF JONES YEARBOOK 9601 Monroe Road Charlotte, Mecklenburg Co.</p> <p>PD: Monroe Storage, LLC</p>	<p>The Brownfields Property is located at 9601 Monroe Road and is approximately 10 acres in size. The Brownfields Property was the former site of Herff Jones, Inc.'s yearbook printing operations. Environmental contamination exists in groundwater on the property. Monroe Storage, LLC has committed itself to commercial use of the property, specifically a climate controlled self-storage facility. Additional approved uses include office, retail, and if DENR issues prior written approval, other commercial uses. The property is surrounded by land in commercial, retail and light industrial uses.</p>	<p>7/2/2014</p>
<p>WITTEN LUMBER 310 East Long Ave. Gastonia, Gaston Co.</p> <p>PD: Quik Trip Corporation</p>	<p>The Brownfields Property is located at 310 East Long Avenue in Gastonia, Gaston County. The property is 3.72 acres. It is the former location of the Gastonia Weaving Company, the Gastonia Lumber Company, and most recently Witten Enterprises, LLP, a lumberyard. The site is being developed as a gasoline service station and convenience store (QuikTrip #1045).</p>	<p>7/1/2014</p>

<p>ANVIL KNITWEAR II 301 Linwood Road Kings Mountain, Cleveland Co.</p> <p>PD: Cleveland Chamber Holdings, LLC</p>	<p>The Brownfields Property is located at 304 Linwood Road, Kings Mountain, Cleveland County, and includes one parcel encompassing an approximate area of about 14.908 acres. Previous uses of the Property included multiple textile operations from 1902 to 2003, a manufacturer of fiberglass boats (2006 through 2008), and a container cleaning operation (2007 through 2009). It is currently operated by STEAG Energy Services, LLC to regenerate catalysts from power plant pollution control systems, store catalysts and other air pollution control equipment. Prospective Developer sold the Property to STEAG Energy Services, LLC on December 19, 2012. Groundwater assessments have reported Tetrachloroethene (PCB) at a concentration slightly above the North Carolina groundwater standard, and arsenic was reported at a concentration above the January 2014 IHSB Industrial PSRG, but below the current residential risk-based standard of 34.0 mg/kg, and is therefore not a concern at the Property. The Property's intended re-development use is as Light Industrial, Warehouse, Office, and Parking.</p>	<p>7/15/2014</p>
<p>BLOOM INDUSTRIAL 3000 & 3100 Stitt Street Monroe, Union Co.</p> <p>PD: Bloom Industrial, LLC</p>	<p>The Brownfields Property is located at 3000 & 3100 Stitt Street and is approximately 23 acres. The property was the former site of Bloomsburg Mill. Environmental contamination exists in groundwater and vapor at the property due to past activities. Bloom Industrial, LLC has committed itself to industrial, office, distribution and warehouse use and, if DENR issues prior written approval, other commercial uses. The property is surrounded by land in industrial uses.</p>	<p>7/11/2014</p>

<p>AUTO UNDERTAKERS (AKA CVS -HENDERSONVILLE) 510-520 South Main Street Hendersonville, Henderson Co.</p> <p>PD: CVS 5537 NCC, LLC</p>	<p>The Brownfields Property is located at 510-520 South Main Street, Hendersonville, North Carolina. The Property comprises 2.3 acres. The Prospective Developer has committed itself to redevelopment for no uses other than commercial and office use. The Property has been developed with structures since at least 1949. The earliest known buildings on the Property were a restaurant at 520 South Main Street and a gas station at 510 South Main Street. There is some indication that the gas station later became a laundry. The gas station structure was not present by 1970. The restaurant was converted into a hair salon in the 1970s. At one time a car wash operated on the Property. Three buildings on the Boyd Hyder parcel (510, 512, and 514 South Main Street) were built in the 1980s and have been occupied by a Precision Tune and two other auto repair facilities, two loan companies, a salon and a pizza restaurant. The Property is currently owned by CVS 5537 NC, L.L.C.; which purchased the Property on May 22, 2013.</p>	<p>7/25/2014</p>
<p>REVOLUTION MILL STUDIOS 1200 N. Revolution Mill Dr. Greensboro, Guilford Co.</p> <p>PD: Historic Revolution, LLC</p>	<p>The Brownfields Property is located at 1200 N. Revolution Mill Drive, Greensboro, Guilford County, North Carolina. The 25.5 acre property is the site of the former historic Cone Mills textile operations. Historic Revolution, LLC is redeveloping the property for mixed use redevelopment including light industrial, commercial, food production, residential and recreational uses.</p>	<p>8/13/2014</p>

<p>CITY MARKET 228 & 230 E. Martin St. and 225 E. Davie St. Raleigh, Wake Co.</p> <p>PD: City of Raleigh</p>	<p>The Brownfields Property, which lies in downtown Raleigh, is bordered to the north by East Martin Street, to the south by East Davie Street, to the east by South Person Street, and to the west by several retail stores beyond which lies South Blount Street. The Property comprises 0.98 acres. The three (3) parcels may have been developed as early as 1896. The past uses of the combined three (3) parcels included dry cleaning facilities, service stations, auto repair shops, oil companies, used car lots, motor companies, and a soft drink bottling company, a church, and multiple residences. The Prospective Developer has owned the 228 and 230 East Martin Street tracts since November 20, 1989 and the 225 East Davie Street tract since August 23, 1995. Environmental contamination exists on the Property in soil and groundwater. The planned uses of the Brownfields Property include mixed use development, including commercial/office, industrial and residential uses.</p>	<p>8/13/2014</p>
<p>CAROLINA AUTO SUPPLY 430 West 4th St. and 427 West Trade St. Charlotte, Mecklenburg Co.</p> <p>PD: Trade & Graham Associates, LLC</p>	<p>The Brownfields Property is located in the central portion of the city of Charlotte, NC and includes one parcel (Tax ID 07311302) encompassing 1.442 acres. The Property has street addresses of 430 West 4th Street and 427 West Trade Street in Mecklenburg County, and is located in an area developed primarily as office buildings and parking. Previous uses of the Property included a gasoline station on its southwest corner near the intersection of South Graham and West 4th Streets from about 1929 to at least 1969. The Property historically also contained an automotive maintenance facility in its approximate west central portion. The most recent historical development, prior to serving as two parcels of at-grade parking, included two two-story office buildings demolished in late 1998. Groundwater assessments have reported Chromium, Lead, Naphthalene, and Tetrachloroethene (PCE) at concentrations above the North Carolina groundwater standard. Several Polycyclic Aromatic Hydrocarbon compounds associated with former gasoline tanks were reported at depths of about six to seven feet below grade. The Property's intended re-development use is as mixed-use, multi-family residential, retail, office, and open space with associated automobile parking.</p>	<p>9/9/2014</p>

<p>HONEYWELL (AKA JENGOR-MARS HILL) 400 Hickory Drive Mars Hill, Madison Co.</p> <p>PD: JenGor-Mars Hill, LLC</p>	<p>The Brownfields Property is located at 400 Hickory Drive, Mars Hill, Madison County, North Carolina. It comprises 31.57 acres, and historically was used prior to the 1950s as undeveloped land, a small portion of the property was used for residential purposes, initial development of the property was used for manufacturing radios and similar products. Processes included electroplating, soldering, assembly, degreasing, and painting. Honeywell most recently operated at the property for 40 plus years to manufacture snap-action switches. Prospective Developer desires to redevelop the property for an industrial/commercial park, manufacturing, with associated warehousing and distribution activities, offices, hydroponic gardening, and parking and driveways as well as other commercial uses with prior written DENR approval.</p>	<p>8/11/2014</p>
<p>PRESTIGE LABELS 151 Industrial Drive Burgaw, Pender Co.</p> <p>PD: HHG Properties, LLC</p>	<p>The Brownfields Property is located at 151 Industrial Drive, Burgaw, Pender County, North Carolina. The property consists of 5.6 acres and is the former location of the Prestige Labels facility. The property is currently vacant. The Prospective Developer intends to redevelop the property for commercial purposes. Initial plans are to expand the prospective Developer's current business onto the property and expand into logistics management from this location.</p>	<p>9/15/2014</p>
<p>ASHEVILLE HARDWARE 91 Biltmore Ave. Asheville, Buncombe Co.</p> <p>PD: Public Interest Projects, Inc.</p>	<p>The Brownfields Property is located at 91 Biltmore Avenue, Asheville, Buncombe County, North Carolina. It comprises 0.38 acres, historically the property was used as a gasoline service station, auto sales and repairs until Rice White Development, LLC, purchased the property in 2012. Prospective Developer desires to redevelop the property for a micro-brewery, a restaurant, retail and other commercial uses with prior DENR approval.</p>	<p>9/22/2014</p>
<p>GREY HOSIERY MILL 301 Fourth Ave. East Hendersonville, Henderson Co.</p> <p>PD: City of Hendersonville</p>	<p>The Brownfields Property is located at 301 Fourth Avenue East, Hendersonville, Henderson County, North Carolina. It comprises 1.103 acres, historically the property was primarily operated as a hosiery mill and outlet for mill products, more recently the City of Hendersonville has used the property for limited storage. Prospective Developer desires to sell the property for redevelopment as residential, retail, offices, entertainment, brewery or food production facility, and other commercial uses with prior DENR written approval.</p>	<p>9/25/2014</p>

<p>BAKER PROPERTY 180 Newspaper Way Holly Springs, Wake Co.</p> <p>PD: Minta of Holly Springs, LLC</p>	<p>The Brownfields Property comprises approximately 3.18 acres and is located at 180 Newspaper Way, Holly Springs, Wake County. The Brownfields Property is located within the Holly Springs Industrial Park. The Brownfields Property was used as gravel supply yard and a landfill from 1953 until 1973 under a lease with the Town of Holly Springs. Groundwater contamination is present at the Brownfields Property in the form of low concentrations of Chromium, Lead and Arsenic. Prospective Developer intends to sell the Brownfields Property for redevelopment in industrial/commercial uses, including but not limited to a self-storage facility, or other industrial/commercial uses pre-approved in writing by DENR.</p>	<p>9/22/2014</p>
<p>WINDSOR OIL 738 River Road Williamston, Martin Co.</p> <p>PD: Town of Williamston</p>	<p>The Brownfields Property is located at 721, 722 & 738 River Road, Williamston, Martin County, North Carolina. The 7.4 acre property was formerly used for the bulk storage and distribution of fertilizer compounds and petroleum hydrocarbon products. The Town of Williamston plans to redevelop the Property for recreational, restaurant, retail, educational heritage center, and associated office and parking uses.</p>	<p>9/15/2014</p>
<p>STANLEY ENVIRONMENTAL 1404 Angier Ave. Durham, Durham Co.</p> <p>PD: Stanley Environmental Solutions, Inc.</p>	<p>The site is located at 1404 Angier Avenue in Durham, Durham County, North Carolina, and is comprised of approximately 2.064 acres. The property was used as a bulk petroleum distribution facility from approximately the 1930s through the 1980s. A gasoline station also operated on a portion of the property from the mid-1950s to approximately 1979. The City of Durham utilized EPA assessment grants to perform environmental testing in 2008. The prospective developer is operating a biofuels manufacturing facility on the site recycling waste cooking oil and grease collected from local restaurants, and may also operate a recycling facility using vermiculture.</p>	<p>9/20/2014</p>

<p>RIVER PARK (AKA DUPONT FARMS) 1833 Loop Road Clayton, Johnston Co.</p> <p>PD: Town of Clayton</p>	<p>The Brownfields Property is located at 1833 Loop Road in Clayton, Johnston County, NC and includes one parcel (Tax ID 16103029A) encompassing 39.27 acres. The undeveloped Property was previously used to grow tobacco and was also used as an agrochemical research field. Environmental assessments have reported residual insecticide compounds above applicable soil and groundwater standards. Removal of material from an on-site disposal trench is to be performed. The Property's intended re-development use is for recreation, athletic fields, equipment staging area for the local fire department, and associated parking.</p>	<p>9/25/2014</p>
<p>CENTRO Property bounded by W. Boulevard, Camden Rd, W. Kingston and Hawkins St. Charlotte, Mecklenburg Co.</p> <p>DP: Camden USA, Inc.</p>	<p>The Brownfields Property is located in the central portion of the city of Charlotte, NC and includes one parcel (Tax ID 12306301) encompassing 3.55 acres. Previous uses of the Property included residential, commercial, and office from about 1920 to the current time. Soil assessments have reported petroleum products and Polycyclic Aromatic Hydrocarbon compounds above residential standards, and groundwater assessments have reported petroleum fuel compounds at concentrations above the North Carolina groundwater standard. Soil vapor sampling activities completed in May 2013 indicated no risk from vapor intrusion exists at the Property. The Property's intended re-development use is as mixed-use, high-density residential, retail, office, and recreational space.</p>	<p>9/25/2014</p>
<p>CRABTREE HOLIDAY INN 4100 Glenwood Ave. Raleigh, Wake Co.</p> <p>PD: Carolina Hotel Investors – Crabtree LLC</p>	<p>The Brownfields Property comprises approximately 4.5 acres and is located at 4100 Glenwood Avenue in Raleigh, Wake County, North Carolina. From approximately 1959 to 1968, the property was a portion of a larger tract of land that was operated by the City of Raleigh as a municipal landfill. The twelve-story hotel building was constructed at the property in 1973, and that hotel, now a Holiday Inn, is operating at the Property. Prospective Developer acquired the property on July 11, 2013 and intends to undertake a \$4.5 to 6 million renovation of the hotel. Prospective Developer intends to continue operating the Holiday Inn after the renovation is completed.</p>	<p>9/25/2014</p>

<p>NORFOLK SOUTHERN Corner North Brevard St. and Parkwood Ave. Charlotte, Mecklenburg Co.</p> <p>PD: City of Charlotte</p>	<p>The Brownfields Property is approximately 18 acres and operates as part of the Norfolk Southern Intermodal Facility (NSIF) located at North Brevard Street and Parkwood Avenue. At the NSIF intermodal facility, shipping containers are loaded and unloaded onto semi-trailers and rail cars. The property is surrounded by land in commercial and industrial use. Soil and groundwater on the property are suspected to be contaminated based on historical site operations. The City of Charlotte plans to redevelop the land for transportation purposes for the Charlotte Area Transportation Systems (CATS) LYNX Blue Line Extension (BLE) project. The current project plan will include two light rail passenger stations, light rail car storage yard, and an operations and maintenance facility with office space.</p>	
<p>AMERLINK 7991 Beasley Road Gold Rock, Nash Co.</p> <p>PD: Eastern Holdings, LLC</p>	<p>The Brownfields Property is comprised of 9.63 acres and is located at 7991 Beasley Road, Gold Rock, Nash County, and was the former location of the Amerlink, LTD which manufactured log homes on the property. The property is currently vacant. Eastern Holdings LLC intends to redevelop the property for industrial/commercial use. Initial plans are to utilize the property as the site of a construction company with the main focus on concrete construction including concrete pumping services.</p>	<p>9/15/2014</p>
<p>PENNSTON SITE 3600 Reed Fork Pkwy Greensboro, Guilford County</p> <p>PD: Reedy Fork Investments</p>	<p>The Brownfields Property consists of approximately 78 acres and is located at 3600 Reedy Fork Parkway, Greensboro, Guilford County, North Carolina. The Brownfields Property has been wooded and undeveloped since at least 1937. No release of regulated substances is known or suspected to have occurred at the Brownfields Property. Groundwater at the Brownfields Property is known to be contaminated with chlorinated solvents that have migrated in groundwater to the Brownfields Property from the adjoining Wysong & Miles manufacturing site. Prospective Developer intends to develop the Brownfields Property for commercial retail and office use or other commercial use approved in advance and in writing by DENR.</p>	<p>9/15/2014</p>

<p>HIGHLAND BREWING 12 Old Charlotte Hwy Asheville, Buncombe Co.</p> <p>PD: Clan Highland, LLC</p>	<p>The Brownfields Property is located at 12 Old Charlotte Hwy, Asheville, Buncombe County, North Carolina. It comprises 40.6 acres; historically the property was used as a metal stamping and diffuser manufacturer, a bearing manufacturer, a textile warehouse, and more recently a micro-brewery, distillery, warehousing, and offices. Prospective Developer desires to redevelop the property for a micro-brewery expansion, distillery, event space, light manufacturing warehousing, retail, office space, recreational and other commercial uses with prior written DENR approval.</p>	<p>9/28/2014</p>
<p>WAKE FOREST INNOVATION QUARTER (FORMERLY PIEDMONT TRIAD RESEARCH PARK - CENTRAL DISTRICT) Multiple addresses within 3rd Street, I-40 Business, US Hwy 52 and Chestnut St. Winston-Salem, Forsyth Co.</p> <p>PD: Wake Forest University Baptist Medical Center and multiple affiliate entities thereof</p>	<p>The Brownfields Property comprises 51.695 acres and is located at various street addresses within an area generally bordered by 3rd Streets on the north, Interstate 40 "Business" on the south, U.S. Highway 52 on the east, and Chestnut Street on the west, in Winston-Salem, Forsyth County, North Carolina. The Brownfields Property has seen various uses for more than 100 years. Past uses have included rail road operations (freight, seed, grain and coal storage), granite products and upholstery materials sales, and tobacco processing. Other historic site uses include a Piedmont Natural Gas Co. operations center, a manufactured gas plant, a bus station, commercial plumbing supply, a cell tower, automotive repair facilities, electrical contractors supply, general warehousing operations and residential. The Brownfields Property has been idle since 2005, and most structures associated with past uses have been demolished and removed. Groundwater and soil gas contamination exists at the Brownfields Property from past industrial and commercial uses. In conjunction with the development of the Wake Forest Innovation Quarter (formerly known as Piedmont Triad Research Park), Prospective Developer intends to redevelop the Brownfields Property for a broad suite of uses, including biotechnology research facilities, offices, retail outlets, public open areas, high-density residences, performance/concert halls, hotels, community centers, swimming pools, parking, schools and, subject to DENR's advance written approval, any uses not listed above that are allowed by the Master Plan, Central District of the Piedmont Triad Research Park (now known as "Wake Forest Innovation Quarter"), dated January 6, 2010.</p>	<p>9/26/2014</p>

<p>SOUTH ELM STREET 700 S. Elm St. Greensboro, Guilford Co.</p> <p>PD: City of Greensboro</p>	<p>The 6.80 acre property is comprised of 15 parcels on two city blocks on the southern edge of the City of Greensboro's central business district. It was first developed in the late 1800s for single family residences and for a variety of commercial uses, which have included over the years a bakery, fuel distributors, gasoline stations, automobile repair shops, print shops, a large coal yard, office space and retail. Several EPA brownfields assessment and remediation grants, along with other funding, were used to assess and remediate residual coal and UST-related soil contamination at the property. Petroleum constituents and chlorinated solvents are still present in soil and groundwater on portions of the site. The Redevelopment Commission of Greensboro is redeveloping the property with a \$140,000,000 mixed-use project, which will include a large educational facility for a consortium of local universities as well as office, hotel, commercial, and high-density residential uses.</p>	<p>9/29/2014</p>
<p>HAWKINS STREET-DYNATECH 2171 Hawkins St. Charlotte, Mecklenburg Co.</p> <p>PD: CLT Group</p>	<p>The Brownfields Property is located at 2171-2187 Hawkins Street in Charlotte; Mecklenburg County Tax Parcel Identification Number 12103116. Through sales to third parties, CLT Group, LLC intends to effect redevelopment of the subject property for industrial, office, retail and, if DENR issues prior written approval, other commercial uses. The property is surrounded by land in commercial, industrial, and residential use. Groundwater is contaminated at the property due to past activities. Dynatech operated on the Property in unit 2187 Hawkins Street for approximately eleven (11) years beginning in 1973. Plating operations were in the southwest corner of the building.</p>	<p>9/29/2014</p>

**APPENDIX B
BROWNFIELDS AGREEMENTS FINALIZED IN PRIOR
YEARS (271)**

(PD = Prospective Developer; RP = Responsible Party)

<p>301 FAYETTEVILLE STREET 301 Fayetteville Street Raleigh, Wake Co. PD: Highwoods Properties</p>	<p>The property consists of 0.833-acres with former retail uses, including two “cleaning” establishments. The PD intends to redevelop the property into a 33-story structure for retail, office, banking/financial services, parking, and multi-family residential use.</p>
<p>A GREAT ESCAPE 1806 Funtime Blvd. Winston-Salem, Forsyth County PD: A Great Escape LLC</p>	<p>Prospective developer wants to purchase this approximately 5-acre abandoned amusement park (miniature golf and go-cart track), which is located on edge of a former municipal landfill. PD wants to refurbish it and re-open it with same use.</p>
<p>ABBOTT LABORATORIES 16900 Aberdeen Road Laurinburg, Scotland Co. PD: Marketta, LLC and QualPak, LLC</p>	<p>The Brownfields Property is 50.75 acres in size. Abbott Laboratories, Inc. formerly manufactured medical devices (e.g., anesthesia kits and specialty intravenous injection sets) at the Brownfields Property. Prospective Developer plans to use the Brownfields Property for industrial purposes, including light and heavy manufacturing. Currently an affiliate of Prospective Developer manufactures topical antimicrobial products there. Soil and groundwater at the site are contaminated with constituents of petroleum products and chlorinated solvents previously used at the site.</p>
<p>ABC ENGRAVERS 724 Montana Drive Charlotte, Mecklenburg Co. PD: Holden Business Park, LLC</p>	<p>Former engraving and plating facility with known chromium and chlorinated solvent contamination in soil and groundwater. PD intends to redevelop the site as an office complex.</p>
<p>ADAMS-MILLIS FACILITY 400 West English Road High Point, Guilford County PD: Bank of North Carolina</p>	<p>The Brownfields Property is located at 400 West English Road in High Point, Guilford County. The property consists of two (2) parcels 0186837 and 0186838 comprising approximately 2.6 acres. The property includes a former textile plant building and a boiler house that were renovated in 2011. The former textile building at the site currently houses a permanent furniture showroom and restaurant facilities. The former boiler house is used for storage. The former water tower and brick stack remain as part of the historic structures. The remainder of the property is paved and used for parking and driveways.</p>

<p>AIRPORT EXXON 3305 North Liberty St. Winston-Salem, Forsyth Co. PD: Mrs. Becky Flowers</p>	<p>The Property consists of 0.56 acres and was first developed in 1989. The site has previously been used as an auto repair facility, a retail tire store and most recently as a small engine repair facility. Soil and groundwater contamination exists at the Brownfields Property as a result of past operations conducted there. Prospective Developer has redeveloped the Brownfields Property as a convenience store/gas station.</p>
<p>ALAMAC AMERICAN 1885 Alamac Road Lumberton, Robeson Co. PD: Alamac American Knits, LLC</p>	<p>The former knit textile manufacturing facility has perchloroethylene contamination associated with former dry-cleaning operations. The PD is using the facility to also manufacture knit textiles, but does not use perchloroethylene on the premises.</p>
<p>ALAMAC KNIT FABRIC NC Hwy 125 Hamilton, Martin Co. PD: Penco Products, Inc.</p>	<p>106-acre former textile manufacturing facility with known soil and groundwater contamination involving chlorinated solvents. Site is undergoing active remediation under NC DWQ. Intended reuse is as a non-polluting school locker manufacturing facility that will employ some 350 workers.</p>
<p>ALCAN PACKAGING FOOD 1600 Westinghouse Blvd. Charlotte, Mecklenburg County PD: Alcan Packaging Food & Tobacco</p>	<p>Approximately 9-acre parcel in an industrial portion of Charlotte. The soil and groundwater are impacted from historic operations with n-propyl acetate and n-propyl alcohol. The PD intends to sell the property for redevelopment of industrial and commercial uses.</p>
<p>ALLISON MANUFACTURING 930 Old Charlotte Road Albemarle, Stanly County PD: NCSC Properties, LLC</p>	<p>The Brownfields Property is located at 930 Old Charlotte Road, Albemarle, Stanly County, North Carolina. It comprises approximately 18.93 acres and contains a manufacturing structure of approximately 128,600 square feet. Prospective Developer intends to effect redevelopment of the property for office, light manufacturing and, if DENR issues prior written approval, other commercial purposes. The Brownfields Property's groundwater and soil are contaminated.</p>
<p>ALMONT SHIPPING – NEW Hanover & Cowan Streets Wilmington, New Hanover Co. PD: Riverfront Holdings, LLC</p>	<p>The Property is comprised of 23.37 acres on the east bank of the Northeast Cape Fear River. The Property is a part of the former Almont Shipping terminal property, which was used from 1870 until 2005 primarily as a shipping terminal. Contamination at the property resulted from the storage of numerous commodities on the site. Part of the southern part of the former shipping terminal site was also used for bulk petroleum storage between 1893 and 1898. The property will be redeveloped for mixed-use, which may include high-density residential, marina, hotel, office, retail, performance/concert hall, meeting/convention facility, open space/outdoor recreation and related automobile parking.</p>

<p>ALPHA MILLS 312 E. 12th Street Charlotte, Mecklenburg Co. PD: Crosland, Inc.</p>	<p>A 5.77-acre parcel that was historically a textile mill. Most recently the site was the former Consolidated Group Incorporated engraving facility. The site has known soil, groundwater, surface water, and sediment impacts from historical site operations. PD intends to redevelop the property for residential apartments with compatible commercial and retail development.</p>
<p>AMERICAN CYANAMID 2200 Donald Ross Road Charlotte, Mecklenburg Co. PD: DRR of the Carolinas, LLC</p>	<p>The property has been vacant since approximately 1975, prior to which it operated as a resin and textile manufacturing company. The PD intends to redevelop the 4.1-acre parcel into parking for trailers, cars, and commercial vehicles and, in the future, to commercial and light industrial facilities.</p>
<p>ANCHOR MILL 404 Church Street Huntersville, Mecklenburg Co. PD: Town of Huntersville</p>	<p>Abandoned textile manufacturing facility with known metals contamination in soil; and lead, chlorinated solvent, and petroleum hydrocarbon contamination in groundwater. PD intends to redevelop the 32-acre site as a mixed-use transit village that reuses the old mill building and adds new office, retail, and residential components.</p>
<p>ANDALE 1181, 1185, 1271, & 1291 Old Caroleen Road Forest City, Rutherford County PD: Andale</p>	<p>The Brownfields Property comprises approximately 153 acres at the southeast corner of the intersection of Old Caroleen Road and U.S. Highway 74 in Forest City, North Carolina. Its addresses are 1181/1185 and 1271/1291 Old Caroleen Road. Volatile organic compound contamination exists at the Brownfields Property, which is the former site of Burlington Industries, Inc.'s J.C. Cowan facility. Prospective Developer plans to redevelop the Brownfields Property for use as a data center. Other uses may include light manufacturing and warehousing, other commercial purposes and mixed use if DENR issues prior written approval, open space, a Forest City sewer pump station, a Duke Energy electrical substation, and other utilities.</p>
<p>ANDREX INDUSTRIES 180 Deaverview Road Asheville, Buncombe Co. PD: Milkco, Inc.</p>	<p>A 9-acre light manufacturing site formerly used as a textile production facility that operated a knitting, weaving and cutting business along with dry cleaning, shrinking and packaging of fabrics. Tetrachloroethylene groundwater contamination from dry-cleaning operations being remediated by RP with pump-and-treat system. PD is adjacent property owner, a milk processing and distributing plant. Initial plan is to use part of property for truck and trailer parking. Within 3 years they plan to demolish Andrex buildings and expand the Milkco Plant to double capacity within eight years.</p>

<p>ARCHDALE MARKETPLACE 5801 South Boulevard Charlotte, Mecklenburg Co. PD: Eastbourne Investments, Ltd.</p>	<p>Approximately 13-acre parcel known as Archdale Marketplace Shopping Center. Groundwater is contaminated at the property due to historical site operations by an A&P grocery store, Sno-White Cleaners, and K-mart auto service center. PD intends to redevelop the property for commercial and retail use.</p>
<p>ARROW LAUNDRY & CLEANERS 4735 Monroe Road Charlotte, Mecklenburg County PD: Lake City Tractor Supply</p>	<p>The Brownfields Property consists of approximately 16.5 acres and comprises eight parcels at four addresses. The Brownfields Property is surrounded by land in commercial and residential use. Groundwater under portions of the Brownfields Property is contaminated. The businesses that formerly operated on the Brownfields Property included a textile manufacturing plant, a service station and a drycleaner. Prospective Developer plans to redevelop the Brownfields Property for commercial, retail, residential, office and open space use.</p>
<p>ARROW LAUNDRY II 1933 E. 7th St. & 1928 E. 8th St. Charlotte, Mecklenburg Co. PD: The Conformity Corporation</p>	<p>The Brownfields Property is located at 1933 East 7th Street in Charlotte, Mecklenburg County, North Carolina. It is surrounded by land in commercial, retail, and residential uses. The former Arrow Laundry and Cleaners, Inc. operated on the Brownfields Property for approximately 42 years, beginning in 1964. Soil on the property is contaminated. Prospective Developer's redevelopment plans for the Brownfields Property include residential and certain commercial uses.</p>
<p>ASHEVILLE ICE PLANT 90 and 9999 Riverside Drive Asheville, Buncombe Co. PD: Ice Plant of Asheville, LLP</p>	<p>The Brownfields Property is located at 90 and 9999 Riverside Drive, Asheville, Buncombe County, North Carolina. An ice production plant, with trucking operations and a fuel station, previously operated there. Prospective Developer may reuse the Property as set forth in Land Use Restriction 1 below.</p>
<p>ASHEVILLE MICA 75 Thompson Street Asheville, Buncombe County PD: T. R. Enterprises</p>	<p>The former mica plant consists of four existing structures and approximately 3.0-acres. It has both soil and groundwater contamination from an on-site aboveground storage tank and possible off-site sources. The PD has committed itself to redevelopment for no uses other than residential, retail, office, common space, parking, pet park, and greenway purposes.</p>
<p>ATHOL MANUFACTURING 100 22nd St; 403 E. C St; 106 20th St. Butner, Granville Co. PD: SAI Admin Claim & Creditor Trust</p>	<p>The Brownfields Property comprises 21.10 acres in Butner, Granville County, North Carolina and is comprised of the "Main Property" (the block that includes 100 22nd Street), the "Trim Products Property" (the block that includes 106 20th Street), and residential property at 403 East C Street. Previous uses of the Main Property include a machine shop, vehicle maintenance facility and automotive fabric production facility. Previous uses on the Trim Products Property include an automotive fabric production facility and a portion of the property once served as a bakery. The property at 403 East C Street has seen only residential use.</p>

	Prospective Developer desires to sell the Property for redevelopment for the uses allowed by the Land Use Restrictions below. Environmental contamination exists on the Brownfields Property in groundwater, soil, soil gas and indoor air at concentrations precluding unrestricted use.
ATS MANUFACTURING FACILITY Hwy 321 & Rankin Lake Rd Gastonia, Gaston Co. PD: WDL Holdings, LLC	Past uses at the 6.65-acre property have included knitting operations, a furniture store, and remanufacturing of rear wheel drive transmissions. Groundwater is contaminated at the site with chlorinated solvents. The PD intends to remove the existing structures, an unoccupied single-story manufacturing building and residence, and redevelop the Brownfields Property for a mix of retail and other commercial uses.
AVERY DENNISON CORP 2305 Soabar Street Greensboro, Guilford Co. PD: Soabar Street, LLC	The subject property consists of an 86,000 square-foot industrial facility located near the center of an 11.83-acre land parcel in a commercial/industrial area of Greensboro between Soabar Street to the west and West Meadowview Road to the south. The abandoned facility formerly housed tag and label manufacturing operations and also contained warehouse and office space. Prospective Developer Soabar Street, LLC, intends to lease the subject property for warehousing, order fulfillment, distribution and associated support uses.
BASF – ENKA Sand Hill Road Asheville, Buncombe Co. PD: Enka Partners of Asheville, LLC	The Brownfields Property is located at Sand Hill Road, Asheville, Buncombe County, North Carolina. It comprises 56.64 acres; it was a former BASF Corporation property. The property was first operated by American Enka Corporation; the facility has historically manufactured continuous filament yarn, nylon textile yarn and carpet yarn. Prospective Developer intends to redevelop the Property for retail shopping center, associated roadways and, if DENR issues prior written approval, other commercial and office purposes.
BASF FACILITY 4330 Chesapeake Drive, Charlotte, Mecklenburg Co. PD: U.S. Polymers, Inc	The Brownfields Property (Tax Parcel ID No. 03909102) is located at 4330 Chesapeake Drive, Charlotte, Mecklenburg County, North Carolina. The parcel comprises 12.8614 acres and is the site of a former BASF Corporation facility. Prospective Developer intends to effect redevelopment of the Brownfields Property for industrial, laboratory and office uses. Groundwater and soil are contaminated at the Brownfields Property due, on information and belief, to past activities at and around the site.
BASF-PENDER 110 Vitamin Drive, New Hanover & Pender Counties PD: Pender County	The Brownfields Property is located at 110 Vitamin Drive in New Hanover County and Pender County, North Carolina, and comprises approximately 400 acres. The site is the former location of a BASF Corporation facility that manufactured various vitamin products until closing in 2009. The Prospective Developer intends to redevelop the Brownfields Property as a commercial/industrial park.

<p>BALDOR ELECTRIC 3821 Barringer Drive Charlotte, Mecklenburg Co. PD: K. Brown Trust</p>	<p>Former electric motor and motor component assembly and manufacturing facility with solvent-impacted soil and groundwater. PD intends to redevelop the property for use as industrial condominiums.</p>
<p>BAXTER OIL, FORMER 619 Spartanburg Hwy Hendersonville, Henderson Co. PD: Jones Commercial Properties, Inc</p>	<p>The Brownfields Property is located at 619 Spartanburg Highway in Hendersonville, Henderson County, North Carolina. It comprises 0.21 acres. Among past activities on the Brownfields Property were the operations, from 1970-75, of a bulk fuel oil facility known as "Baxter Oil," and since then a series of restaurants and retail operations The Property is currently vacant. Prospective Developer intends to sell the Brownfields Property for retail, office and, with prior written DENR approval, other commercial redevelopment, along with associated parking.</p>
<p>BB&T - MOREHEAD CITY MAIN 2806 Arendell Street Morehead City, Carteret Co. PD: Branch Banking & Trust Company</p>	<p>The Brownfields Property is located at 2806 Arendell Street, Morehead City, in Carteret County, and includes one parcel encompassing an approximate area of 1.602 acres. The Property was formerly used as a hotel with an office and pool, and its intended re-development use is as Commercial/Office and Branch Bank for BB&T. The Carteret County tax identification number for the parcel is 637620823118000. Groundwater contamination by a low concentration of Trichloroethene has been documented. The contamination is believed to have originated from an off-site source.</p>
<p>BEAMAN CORP. 6303 Old 421 Road Liberty, Randolph Co. PD: Pallett Express, Inc</p>	<p>The Brownfields Property comprises 27.04 acres and is located at 6306 Old 421 Road, Liberty, North Carolina. The former Beaman Corporation used the property to manufacture primarily modular buildings and steel canopies from 1966 until 1989. The property usage in the 1970's and 1980's resulted in documented contamination of the groundwater by Tetrachloroethylene (PCE). In late September 2012, American Modular Technologies, ceased with business operations at the property and is currently liquidated. In early 2013, the facility was operating as Kirkman Construction Services, Inc. dba American Modular Technologies. At this time, BCU, LLC is the property owner. The Property's groundwater is primarily contaminated with chlorinated solvents at concentrations above the applicable limits. The Prospective Developer intends to reuse the Property for office and light industrial use.</p>
<p>BENDIX HEAVY VEHICLE FACILITY 727 Bendix Drive Salisbury, Rowan Co. PD: DDSM Properties, LLC</p>	<p>The property consists of 20.96 acres and was first developed in 1961 by the Bendix Corporation ("Bendix"), which manufactured compressors, valves and accessory components for heavy vehicle air braking systems until 1990. Subsequent site uses have included metal fabrication and, currently, boat sales, storage and maintenance. Soil and groundwater contamination are present at the site. Prospective Developer intends to</p>

	redevelop the Brownfields Property for manufacturing, warehousing, distribution, office and, with prior written DENR approval, other commercial uses.
BLOCK 46 1101 D St. & 110 Wilkesboro North Wilkesboro, Wilkes Co. PD: Shepherd Real Estate, LLC	The Brownfields Property is located at 1101 D Street and 110 Wilkesboro Boulevard in North Wilkesboro, Wilkes County, North Carolina. It comprises 29.331 acres and is the former site of a furniture manufacturing facility. Prospective Developer intends to redevelop the Brownfields Property for retail, office, medical facility, higher education, government, residential, roadway and parking purposes, light manufacturing, and other commercial purposes with prior written DENR approval.
BLUE RIDGE BROADCASTING 1049 HWY US 70 Black Mountain, Buncombe Co. PD: Ingles Markets, Inc.	The Brownfields Property comprises 45.5 acres in Black Mountain, Buncombe County, North Carolina. Prospective Developer has committed itself to redevelopment of the Brownfields Property for no uses other than as a frozen, refrigerated and dry goods distribution center with offices, associated driveways and parking. The Brownfields Property's soil and groundwater are contaminated, due, on information and belief, to the site's prior use as a private airport and maintenance hangar, as well as the possible migration of groundwater contamination from off-site.
BOSCH TOOL 310 Stanton Road Greenville, Pitt County PD: JB & GB Properties	The Brownfields Property consists of 10.642 acres at 310 Stanton Road, Greenville, Pitt County, North Carolina. It was developed in 1966 as a tool manufacturing facility. Groundwater contamination, including low concentrations of chlorinated solvents, from past on-site and off-site uses exists at the Brownfields Property. The site has been idle and vacant since 2008. Prospective Developer intends to redevelop the Brownfields Property as a document storage and conference facility.
BOULIGNY SITE 2320 N. Davidson Street Charlotte, Mecklenburg Co. PD: NODA Properties, LLC	Approximately 3.5-acre parcel that was the former R.H Boulingy facility. The site has known groundwater impacts from chlorinated solvents. PD intends to redevelop the property for mixed-use development with commercial, retail, industrial and residential uses.
BROMMA PROPERTY II 2285 Durham Road Roxboro, person Co. PD: Daniel Talbert, Sr.	The Brownfields Property is located at 2285 Durham Road, Roxboro, Person County, North Carolina, and is approximately 11.6 acres in size. Prospective Developer has committed himself to redevelopment of the Brownfields Property for no uses other than retail and commercial businesses, including restaurants and warehousing/distribution firms, and medical and other office space. The Brownfields Property was developed in the late 1950s by an entity that manufactured plastic crates and steel products. Bromma, Inc. purchased the Brownfields Property in 1992 and manufactured cargo spreaders (large metal clasps used to load and unload cargo ships) there until May 11, 2004.

<p>BROOKFORD STREET 9900 Brookford Street Charlotte, Mecklenburg Co. PD: Cabot Industrial Properties, LP</p>	<p>The Brownfields Property is located at 9900 Brookford Street, Charlotte, North Carolina (Tax Parcel Identification Number 2031022). That parcel comprises approximately 10.84 acres and is the site of a former Alcan Aluminum Corporation operation. Prospective Developer intends to sell it for industrial and, if DENR issues prior written approval, other commercial redevelopment. Limited sampling and analysis of groundwater at the site has indicated exceedances of applicable maximum contaminant values. The Brownfields Property is surrounded by land in commercial and industrial use.</p>
<p>BROWN'S SOLVENT CO. 2935 Griffith Street Charlotte, Mecklenburg Co. PD: Estate of K. C. Bell</p>	<p>Former paint and solvent formulation facility with known solvent-impacted soil and groundwater. PD intends to initially renovate & reuse the existing structure for office/warehouse use, and ultimately raze the building and redevelop the site as a mixed office/retail complex in keeping with other redevelopment taking place in Charlotte's South End.</p>
<p>BROYHILL FURNITURE 409 4TH Street Conover, Catawba Co. PD: City of Conover</p>	<p>The Brownfields Property is located at 409 4th Street Place SE in Conover, Catawba County, North Carolina. It comprises 26.45 acres and is the former site of a furniture manufacturing facility. Prospective Developer intends to redevelop the Brownfields Property for residential, retail (and, if DENR issues prior written approval, other commercial), transit depot, office, open space, roadway and parking use.</p>
<p>BURKE WAREHOUSE 191 Sterling Street Valdese, Burke Co. PD: Burke Warehouse Leasing, LLC</p>	<p>The Brownfields Property is located at 191 Sterling Street in Valdese, Burke County, North Carolina. It comprises 30.43 acres. There, from 1948 to 2008, first Burkyarns Inc., then Burke Mills, Inc., manufactured, processed and dyed yarns for use in home furnishings and automobile upholstery. Prospective Developer intends to redevelop the Brownfields Property for offices, warehousing, industrial and possibly other commercial uses, with associated driveways and parking.</p>
<p>BURKHART CAROLINA 1703 Dabney Drive Henderson, Vance Co. PD: MPP Properties, Inc.</p>	<p>Former pickle processing and packing facility with chloride-impacted soil and groundwater and minor solvent contamination in groundwater. PD intends to redevelop the property for commercial retail use. Simultaneously, the responsible party will implement groundwater remediation at the site under separate action. The PD's development will provide an impervious cap on the site, further assisting remedial efforts.</p>

<p>BURLINGTON DISTRIBUTION 6012 High Point Rd. Greensboro, Guilford Co. PD: AZAS, LLC</p>	<p>The Brownfields Property comprises approximately 37.29 acres and is located at 6012 High Point Road, Greensboro, Guilford County, North Carolina. Burlington Industries initially developed the Brownfields Property at the same time it developed a manufacturing plant on property adjoining to the east. Burlington manufactured chemicals used in the textile industry in that plant, and the Brownfields Property was developed for use as a center for the temporary storage and distribution of those chemicals. The Brownfields Property was subsequently purchased by Thomas Built Buses and transferred to Daimler-Chrysler Commercial Buses North Carolina, LLC and used to customize, service, repair and maintain busses. Prospective Developer purchased the Brownfields Property in August 2006 and redeveloped the site as a kayak and canoe manufacturing facility. Contamination is present at the Brownfields Property in groundwater, most of which is known to have migrated to the Brownfields Property from the former Burlington manufacturing site. Prospective Developer intends to sell the Brownfields Property for redevelopment as a community college facility, for uses including but not limited to an automotive maintenance and repair technical training center, and/or other commercial purposes. Residential, child care and elementary through secondary school uses are prohibited at the Brownfields Property.</p>
<p>BURLINGTON INDUSTRIES-DURHAM 749 Ninth Street Durham, Durham County PD: Crescent Erwin Ventures I, LLC</p>	<p>The Brownfields Property comprises approximately 6.38 acres in Durham, Durham County, North Carolina and is located at 749 Ninth Street. The Property is where the main portion of the former Erwin Cotton Mills textile factory, later Burlington Industries, operated. Chlorinated solvents have been detected in the Brownfields Property's groundwater and polycyclic aromatic hydrocarbons have been documented in the soil. Prospective Developer plans to redevelop the site for high-density residential use.</p>
<p>BURLINGTON – JAMESTOWN 6008 High Point Road Jamestown, Guilford Co. PD: Alberdingk Boley, Inc.</p>	<p>A 22-acre site containing an abandoned chemical formulation facility operated in support of Burlington Industries textile manufacturing operations. Known chlorinated and petroleum hydrocarbon contamination exists in site soil and groundwater and is being addressed under a consent order with DENR. PD intends to redevelop the property as polyurethane and polyacrylate emulsions manufacturing facility.</p>
<p>BURLINGTON MILLS 476 S. Main Street Mooreville, Iredell Co. PD: Cherokee Investment Partners, LLC</p>	<p>Abandoned textile manufacturing facility with known petroleum hydrocarbon contamination in soil and groundwater, and chlorinated solvent contamination in groundwater. PD intends to redevelop the site as an auto racing industry complex with office, flex, shop, and R&D space.</p>

<p>BUSS COATING 511 Creekside Drive Lenoir, Caldwell County PD: SALT Investments, LLC and S&S Holdings of Lenoir, LLC</p>	<p>The Brownfields Property comprises 4.52 acres in Lenoir, Caldwell County, North Carolina. PD has committed itself to redevelopment of the Brownfields Property for manufacturing, office, warehousing and, with prior written DENR approval, other commercial purposes. The Brownfields Property's groundwater is contaminated due, on information and belief, to pollution emanating from the adjoining Buss Coatings property.</p>
<p>C. C. DICKSON 1520 South Boulevard Charlotte, Mecklenburg Co. PD: C. K. Land Development</p>	<p>A large mixed use development on a former industrial services firm adjacent to a manufactured gas plant. Ground floor retail and studio with office and residential units above. Project is in vicinity of Camden Square and provides redevelopment to economically depressed area. Capping and land use restrictions regarding PAHs in soil and chlorinated solvents in soil and groundwater.</p>
<p>CAL-TONE PAINTS FACILITY 5115 New Bern Avenue Raleigh, Wake Co. PD: Arbor New Bern Avenue, LLC</p>	<p>Soil and groundwater on this 2.75-acre site are contaminated with metals and petroleum constituents. Prior uses include agricultural, and more recently, paint manufacturing. The PD is planning a mixed-use redevelopment including commercial, industrial, and residential.</p>
<p>CAMDEN ROAD 1600 Camden Road Charlotte, Mecklenburg Co. PD: Harris Murr & Vermillion, LLC</p>	<p>Approximately 0.25-acre parcel in Historic South End of Charlotte. The site has known groundwater impacts from historical site operations as a gas station, tire repair, plumbing repair, and other uses. PD intends to redevelop the property for commercial and retail purposes.</p>
<p>CAMDEN SQUARE 127 W. Worthington Avenue Charlotte, Mecklenburg Co. PD: Camden Square Associates</p>	<p>Abandoned Knitting and Printing Operations rebuilt into the "Design Center of the Carolinas". Development supported by the Wilmore Community as a vital redevelopment in an economically depressed area. Land Use restrictions for chlorinated solvents in groundwater.</p>
<p>CAMDEN SQUARE ADDITION 307 W. Worthington Avenue Charlotte, Mecklenburg Co. PD: Camden Square Associates</p>	<p>This project will add, by amendment, 4.5 acres to the first brownfields agreement completed in North Carolina, Camden Square, in Charlotte's South End redevelopment corridor. Contamination includes VOC- and SVOC-impacted soil and groundwater. Intended reuse is for mixed office and retail.</p>
<p>CAMDEN SQUARE AMENDMENT W. Worthington Avenue Charlotte, Mecklenburg Co. PD: Camden Square Associates</p>	<p>By amending the Brownfields Agreement, this project served to add residential to the uses approved under the Agreement for a portion of the property. Prospective Developer conducted additional environmental assessment to evaluate the potential for vapor intrusion in the area of planned residential use, and will install a vapor barrier beneath the slab-on-grade construction.</p>

<p>CANAC KITCHENS 401, 403, 603, 607 Meacham Rd; and 2001 Speedball Rd., Statesville, Iredell Co. PD: Canac Kitchens U.S. Limited</p>	<p>The Brownfields Property comprises 28 acres in Statesville, Iredell County, North Carolina. Prospective Developer has been operating a cabinetry manufacturing facility there and intends to sell the property for redevelopment consistent with manufacturing or office uses. The Brownfields Property's soil and groundwater are contaminated, due, on information and belief, to the site's prior use as a furniture manufacturing facility.</p>
<p>CANNON VILLAGE 1 Lake Circle Drive Kannapolis, Cabarrus Co. PD: Castle & Cooke North Carolina, LLC</p>	<p>The property consists of the approximately 154 acres and was first developed in the early 1900s as Cannon Mills, a textile manufacturing facility around which eventually grew the City of Kannapolis. The Brownfields Property's groundwater and soil are contaminated, chiefly as a result of past textile operations. Prospective Developer has committed itself to redevelopment of the Property as the "North Carolina Research Campus," a health and nutrition research campus that will encompass office and laboratory space, a math and science high school, retail shops, a hotel and conference center, restaurants, potential residences, walking trails, bike paths and green space.</p>
<p>CAROLINA COVE 111 Lakeside Terrace Drive Greenville, Pitt Co. PD: Bradley Greenville, LLC</p>	<p>The Brownfields Property consists of one parcel comprising 9.02 acres. Its improvements, the Lakeview Terrace Apartments (14 buildings containing approximately 100 units), as well as parking areas and associated landscaping, were constructed in approximately 1972. Groundwater is contaminated due, on information and belief, to an off-site dry cleaner. Prospective Developer intends to renovate the structures for affordable housing.</p>
<p>CAROLINA LOG BUILDINGS Howard Gap Road Fletcher, Henderson Co. PD: Town of Fletcher</p>	<p>Former wood treating facility with known pentachlorophenol contamination in soil and groundwater. PD intends to redevelop the 30-acre site as the new heart of the Town of Fletcher to include various office and retail uses.</p>
<p>CAROLINA MEDICAL ELECTRONICS 157 Industrial Drive King, Stokes County PD: Dynamic Real Estate Development LL</p>	<p>The Brownfields Property is located at 157 Industrial Drive in King, NC, having tax parcel number 5991-07-2808. The site is comprised of approximately 6.24 acres and was previously used in the manufacture of electronic circuitry for medical devices. Dynamic Real Estate Development, LLC proposes to use the property for industrial purposes.</p>
<p>CAROLINA PRODUCTION FINISHING 105 Fairview Road Asheville, Buncombe Co. PD: Western Investments Co.</p>	<p>Former textile finishing facility with metals contamination in both soil and groundwater. PD intends to redevelop the site for warehousing and as a sewing operation. PD is in the process of reviewing DENR's draft brownfields agreement for this site.</p>
<p>CEDAR CREEK 3468 Cedar Creek Road Fayetteville, Cumberland Co. PD: DAK Resins, LLC</p>	<p>The Brownfields Property is located at 3468 Cedar Creek Road, Fayetteville, Cumberland County, North Carolina, and comprises approximately 171.82 acres in size. It is the site of a former herbicide manufacturing facility that was</p>

	<p>operated by Monsanto Chemical Company. The Prospective Developer plans to redevelop the site for use as a transloading facility for polyester resin and a railcar storage site. The Prospective Developer also plans, through a joint venture, to construct and operate a plastic bottle recycling center and dedicate a highway right of way. It is planned that steam generation and water and wastewater facilities on the Brownfields Property will continue in use. Soil and groundwater at the Brownfields Property are contaminated with metals, pesticides, chlorinated solvents, and petroleum constituents.</p>
<p>CELANESE DRP 2300 Archdale Avenue Charlotte, Mecklenburg County PD: Eastlan Capital of Charlotte</p>	<p>The property consists of 120.41 acres of land originally developed by the Celanese Corporation of America in 1955 as an office, research and development facility known as "Dreyfus Research Park." Groundwater contamination is present on the Brownfields Property due, it is believed, to past activities conducted on or in the vicinity of the site. Since 1992, DENR's Inactive Hazardous Sites Branch has been overseeing environmental assessment and remedial activities at the site being conducted by Celanese, and the Branch continues to oversee groundwater cleanup activities there. Soil cleanup was completed at the site in 1993. Prospective Developer intends to redevelop the Brownfields Property for high-density, multi-family residential use, including two-, three- and four-story townhouse and condominium units with slab-on-grade construction, several small parks, a pool and a recreational facility.</p>
<p>CELANESE DRP AMENDMENT 2300 Archdale Drive Charlotte, Mecklenburg County PD: Eastlan Capital of Charlotte</p>	<p>The Notice of Brownfields Property was originally recorded in November 2007. The Notice was amended on February 9, 2012 to allow free-standing residences in the reuse of this property. The property consists of 120.41 acres of land originally developed by the Celanese Corporation of America in 1955 as an office, research and development facility known as "Dreyfus Research Park." Groundwater contamination is present on the Brownfields Property due, it is believed, to past activities conducted on or in the vicinity of the site. Since 1992, DENR's Inactive Hazardous Sites Branch has been overseeing environmental assessment and remedial activities at the site being conducted by Celanese, and the Branch continues to oversee groundwater cleanup activities there. Soil cleanup was completed at the site in 1993. Prospective Developer intends to redevelop the Brownfields Property for high-density, multi-family residential use, including two, three- and four-story townhouse and condominium units with slab-on-grade construction, several small parks, a pool and a recreational facility.</p>

<p>CENTRAL PARK LANDFILL Salem and Main Streets Winston-Salem, Forsyth Co. PD: Salem Recreational Fields</p>	<p>Former municipal landfill for the City of Winston-Salem. Site is 7.23 acres in size, and has been used as a city park since the 1950s. Low levels of chlorinated solvents, with no surficial soil contamination. PD intends to redevelop the site for soccer and a softball field for the adjoining Salem Academy and College so their current fields can be used for additional building space. A passive methane collection system will be installed prior to installation of the recreational fields.</p>
<p>CHARLOTTE ARMY MISSILE PLANT 1830 Statesville Ave. Charlotte, Mecklenburg Co. PD: MV Acquisitions 1, LLC</p>	<p>The Brownfields Property is located at 1830 Statesville Avenue, Charlotte, North Carolina. It also has the three addresses 1011, 1013 and 1101 Woodward Avenue. The Brownfields Property is part of a tract where Charlotte Army Missile Plant operated from 1941 through 1967. The parcels are surrounded by land in industrial, commercial and retail use. Soil, groundwater and soil gas on the property are contaminated. Prospective Developer's plans for the property include industrial use in the short term and residential (as well as commercial if DENR approves) use in the long term.</p>
<p>CHARLOTTE CHEMICAL LABORATORY 1112 and 1200 South Boulevard Charlotte, Mecklenburg Co. PD: 1200 South Boulevard, LLC</p>	<p>The Brownfields Property is a 3.1688-acre parcel in downtown Charlotte, Mecklenburg County, North Carolina, generally bounded by South Boulevard, East Carson Boulevard and the City of Charlotte's light rail line. The former Charlotte Chemical Laboratory, an oil storage warehouse, a dye house, a gas station and small residences and retail office buildings formerly occupied the site. Currently the Brownfields Property is used by the City of Charlotte's light rail line; a vacant two-story residence and retail lighting store also are present. Chlorinated solvents, petroleum fuels, and various metals have been detected in the Brownfields Property's groundwater and soil. Prospective Developer plans to use the Brownfields Property for multi-story high-density residential purposes, hotel, office, retail and other purposes approved below and, with prior DENR approval, other commercial purposes.</p>
<p>CHARLOTTE TANK TRUCK Border Drive Charlotte, Mecklenburg Co. PD: WR Deal Holdings LLC</p>	<p>The approximately 2.23-acre site has been used as a business to repair tanker truck chassis, with groundwater contamination potentially migrating from an off-site source. The PD intends to redevelop the property for commercial purposes.</p>
<p>800 CHATHAM ROAD 800 Chatham Road Winston-Salem, Forsyth County PD: Chatham Mill Ventures, LLC</p>	<p>The Brownfields Property comprises approximately 6.01 acres located at 800 Chatham Road in Winston-Salem, Forsyth County, North Carolina. Previous industrial activities at the Brownfields Property, including textile manufacturing, have resulted in residual soil and groundwater contamination. Prospective Developer intends to redevelop the Brownfields Property for high-density residential, office and commercial uses.</p>

<p>CHEROKEE OIL 925 S. Summit Avenue Charlotte, Mecklenburg Co. PD: M & J Equities, LLC</p>	<p>Approximately 2-acre site was formerly a non-permitted hazardous waste storage facility and the site of an EPA removal action. Known arsenic, oil & grease, and solvent contamination exists in site soil and groundwater. PD intends to redevelop the property as a nightclub and parking facility.</p>
<p>CHESTER STREET PROPERTY N. Chester Street Gastonia, Gaston County PD: City of Gastonia</p>	<p>Site contained former Carson Dry Cleaner located in the center city area of Gastonia. Property has known chlorinated solvents contamination in the soil and groundwater. PD intends to redevelop the site in commercial retail uses.</p>
<p>CHOWAN VENEER 259 Coke Avenue Edenton, Chowan Co. PD: Southern Bank & Southern Bancshares (NC)</p>	<p>The Brownfields Property is located at 259 and 262 Coke Avenue, Edenton, Chowan County, North Carolina and comprises approximately 12.4 acres. The Prospective Developer has committed itself to redevelopment for no uses other than residential, commercial office or commercial retail use. Chowan Veneer Company, Inc. has owned the Brownfields Property since before its January 1, 1959 incorporation, and manufactured hardwood veneers there until February or March 2005. On April 26, 2005, Chowan Veneer Company, Inc. filed for protection, in the Eastern (federal) District of North Carolina, under Chapter 7 of the U.S. Bankruptcy Code. The site is currently vacant. The groundwater is contaminated with petroleum constituents.</p>
<p>CITY WEST COMMONS 1506 West Boulevard Charlotte, Mecklenburg Co. PD: CMDC Westover No. 1, LLC</p>	<p>Dilapidated shopping center seized in a drug raid by the U.S. Dept. of Justice that has been approved for transfer to the city of Charlotte. Site had VOC and chlorinated solvent contamination in soil and groundwater. The city intends to transfer the property to a not-for-profit development corporation to redevelop the site as commercial retail shopping facility.</p>
<p>CLARK EQUIPMENT, FORMER 2169 Hendersonville Road Asheville, Buncombe County PD: Buncombe County</p>	<p>The Brownfields Property is located at 2169 Hendersonville Road, Asheville, Buncombe County, North Carolina. It comprises 65.37 acres and has been used for residential, power facilities, with most recent use since the 1970's for manufacture and assembly of construction equipment. Existing manufacturing, office and warehouse buildings have been maintained in good condition on the Property. Prospective Developer intends to redevelop the Property for no uses other than manufacturing (defined as the assembly, fabrication or processing of goods or materials), and associated warehousing and distribution activities, with associated offices, a cafeteria, parking, driveways, and facilities for employee sports, exercise and recreation, including locker rooms.</p>
<p>CLARK EQUIPMENT, FORMER 2169 Hendersonville Road Asheville, Buncombe County PD: Buncombe County</p>	<p>The Brownfields Property is located at 2169 Hendersonville Road, Asheville, Buncombe County, North Carolina. It comprises 65.37 acres and has been used for residential, power facilities, with most recent use since the 1970's for manufacture and assembly of construction equipment.</p>

11/13/12

	<p>Existing manufacturing, office and warehouse buildings have been maintained in good condition on the Property. Prospective Developer intends to redevelop the Property for no uses other than manufacturing (defined as the assembly, fabrication or processing of goods or materials), and associated warehousing and distribution activities, with associated offices, a cafeteria, parking, driveways, and facilities for employee sports, exercise and recreation, including locker rooms.</p>
<p>CLARKSON STREET 1001 S. Clarkson St. and various other nearby addresses Charlotte, Mecklenburg Co. PD:</p>	<p>The Brownfields Property comprises 10 parcels totaling approximately 19 acres along West Morehead Street, Cedar Street, Pitcher Street, Elliot Street, and Clarkson Street in Charlotte, Mecklenburg County, North Carolina, whose Tax Parcel Identification Numbers are 07325213, 07325207, 07325211, 07325210, 07325209, 07325601, 07325501, 07325602, 07314105 and 07314201. Through sale to a third party, Prospective Developer intends to effect redevelopment of the site for the uses specified in Land Use Restriction 1 below. Groundwater and soil vapor are contaminated at the Brownfields Property due, on information and belief, to past activities there and at surrounding properties. The Brownfields Property is surrounded by land in commercial and industrial use.</p>
<p>CLASSIC COFFEE CONCEPTS 1016 and 1024 Montana Drive Charlotte, Mecklenburg Co. PD: Pearl Pacific Properties, LLC</p>	<p>The Brownfields Property is approximately 4.47 acres and is the site of the former Chem-Tex Facility and Pliana Facility. The property address is 1016 and 1024 Montana Drive in Charlotte, North Carolina (Mecklenburg County Tax Parcel Identification Numbers 06915540 and 06915541). Pearl Pacific Properties, LLC's redevelopment plans for the property includes office, industrial, and hotel uses. The property is surrounded by land in commercial, industrial, and residential use. Groundwater and soil vapor are contaminated at the property due to past activities.</p>
<p>COLE ORCHARD Interstate 26 & Highway 25 Hendersonville, Henderson Co. PD: Summit Springs, LLC</p>	<p>The Brownfields Property comprises 55.36 acres in Hendersonville, Henderson County, North Carolina. Prospective Developer has committed itself to redevelopment of the Brownfields Property for no uses other than a residential, office, hospitality, park open space, retail and, with prior written DENR approval, other commercial use project, with associated driveways and parking. The Brownfields Property's soil and groundwater are contaminated, due, on information and belief, to the site's prior use as an apple orchard.</p>

<p>COLOR WORKS II 3008 & 3010 Executive Dr. Greensboro, Guilford Co. PD: Matlab, Inc.</p>	<p>The Brownfields Property comprises approximately 4.35 acres and is located at 3008 and 3010 Executive Drive, Greensboro, Guilford County, North Carolina. It was first developed in approximately 1970 and has been occupied by Piedmont Optical Co., a vision corrections device and equipment manufacturer; Style Knits, Inc. and Flynt Knits, Inc. both of which conducted textile dyeing and finishing operations; and The Color Works, Inc. and Accurate Coatings, both of which conducted commercial coating and decorative printing operations. The site became idle in January 2008. Groundwater contamination is present due, on information and belief, to past activities conducted on or in the vicinity of the site. Prospective Developer has committed itself to redevelopment of the Brownfields Property for no uses other than for custom painting and finishing.</p>
<p>CONAGRA 4851 & 4857 Jones Sausage Road Garner, Wake Co. PD: Garner Economic Development Corporation</p>	<p>The Property comprises 106.22 acres. The Property was first developed industrially, as a “Jesse Jones Sausage” factory, in the 1960s. General Mills, Inc. later bought the factory and began making Slim Jims and other beef jerky products. Goodmark Foods, Inc. eventually bought the Slim Jim brand and the company merged with ConAgra Foods, Inc. in 1998. An explosion occurred at the plant in June 2009, and ConAgra Foods, Inc. closed it in May 2011. Prospective Developer purchased the Property from Congra Agra Foods, Inc. on December 1, 2011. Soil and groundwater impacts exist at the property from past site activities. Prospective Developer has committed itself to redevelopment for no uses other than a commercial/industrial park.</p>
<p>CONBRACO FACILITY 701 Matthews-Mint Hill Rd Matthews, Mecklenburg County PD: Carlton Development</p>	<p>The site is the former sediment and runoff basin for the former Conbraco Facility. The site was remediated in the EPA Superfund Program and given a “No Further Remedial Action Planned (NFRAP)” status. PD intends to redevelop the site as a medical office with other commercial uses.</p>
<p>CONITRON FACILITY 3761 Old Glenola Road Trinity, Randolph Co. PD: United Furniture Industries NC, LLC</p>	<p>The property comprises approximately 54.8 acres and was first developed, with residential and agricultural buildings in the northeast portion, in 1966. Manufacturing commenced on the Brownfields Property in approximately 1980. Operations there have included chair, textile, mattress and boat, canoe, and kayak manufacturing. Past activities on or in the vicinity of the property have contaminated the groundwater there. Prospective Developer has redeveloped the site for furniture manufacturing, warehousing and distribution on the Brownfields Property, and plans to expand operations at the site.</p>
<p>CONTEMPORARY ART MUSEUM 409 West Martin Street</p>	<p>The Brownfields Property consists of 0.56 acres located at 409 West Martin Street in Raleigh, Wake County, North Carolina. It was in use for various commercial purposes,</p>

<p>Raleigh, Wake Co. PD: Contemporary Art Foundation</p>	<p>including produce distribution, metal plating and paint formulation and distribution, from the late 1920s until 1996, as a result of which soil and groundwater are contaminated at the site. The Brownfields Property has been vacant since 1997. Prospective Developer intends to initially redevelop the site as an art museum; potential additional future uses include residential, industrial and, with prior DENR approval, other commercial uses.</p>
<p>COSTCO Costco Wholesale Corporation 14.8 acres 2838 Wake Forest Road Raleigh, Wake County</p>	<p>The former Pepsi manufacturing and bottling company was located on this site until it relocated in 2002. The southeastern portion of the property covers about 2.6 acres of a former City of Raleigh 44-acre municipal landfill. The former Alcatel site is upgradient and a potential source of chlorinated solvents found in the groundwater. Prospective Developer Has built a 149,000 ft² Costco membership warehouse and a membership gasoline station outparcel.</p>
<p>COTTON MILL SQUARE 801 Merritt Drive Greensboro, Guilford Co. PD: Carl Johnson</p>	<p>Former cotton mill and manufacturing facility with chlorinated solvent contamination in soil and groundwater. PD intends to redevelop the site in mixed commercial retail/office and residential.</p>
<p>COTTON MILL SQUARE ADDENDUM 801 Merritt Drive Greensboro, Guilford Co. PD: Carl Johnson</p>	<p>The Brownfields Property, also known as Cotton Mill Square, consists of 32.05 acres and is located at 801 Merritt Drive in Greensboro, Guilford County, North Carolina. The Property is bounded by Spring Garden Street on the north, the Southern Railroad on the south, Merritt Drive on the west, and a parcel in use as a salvage yard on the east. Environmental contamination known to exist on the Property in soil and groundwater is being investigated and remediated by Lucent Technologies, Inc., successor to the Western Electric Company who formerly owned the site and who operated an electronic circuit board and components manufacturing facility in the former cotton mill buildings from 1950 until 1976. Prospective Developer acquired the Property in 1981 and committed itself to mixed office, retail, and residential redevelopment on the site.</p>
<p>CRS Facility 1224 Isley Drive Gastonia, Gaston Co. PD: Gastonia Investments V, LLC</p>	<p>The Brownfields Property comprises approximately 11.53 acres and is located at 1224 Isley Drive, Gastonia, Gaston County, North Carolina. It carries Gaston County tax parcel number parcel 3536-26-0117 and was used for industrial uses. Prospective Developer has committed itself to redevelopment for no uses other than as an industrial, office, storage and possibly other commercial use.</p>

<p>CULTURAL ARTS CENTER 205 McDonald Street, and Old Braswell Library 344 Falls Road Rocky Mount, Nash Co. PD: Imperial Centre Partners, LP</p>	<p>The Property consists of two parcels: 270 Gay Street, the site of the closed Imperial Tobacco Plant, and 344 Falls Road, the site of the former Braswell Memorial Library. The redeveloped parcels comprise approximately 3.6 acres and are the site of the City of Rocky Mount Cultural Arts Center, which will lease the property from Prospective Developer. The 344 Falls Road parcel contains an art education center in the former library and a recital stage. The 270 Gay Street parcel houses a children’s museum and planetarium, a traveling exhibit gallery, a live animal area, a science and technology gallery, a visual arts gallery, a recital stage, offices and a food service area. The soil and groundwater at the Brownfields Property are contaminated with petroleum constituents and metals.</p>
<p>CUMBERLAND SHOPPING CENTER 709 E. Market Street Greensboro, Guilford Co. PD: Project Homestead</p>	<p>Site of former shopping center and dry cleaners with chlorinated solvent-impacted soil and groundwater. PD is a not-for-profit community development corporation. The PD has performed soil remediation activities and intends to redevelop the site with affordable residential housing.</p>
<p>DAYCO FACILITY 2150 South Main Street Waynesville, Haywood County PD: Haywood Advancement Foundation</p>	<p>The property was formerly operated as a large industrial rubber manufacturer and has both chlorinated solvent and petroleum contamination in the soil and groundwater. The PD intends to redevelop the 35.942-acre site into a mixed commercial-retail development.</p>
<p>DEAL MOTORS 136 Merrimon Avenue Asheville, Buncombe Co. PD: Jasmine Development, LLC</p>	<p>The Brownfields Property is located at 136 Merrimon Avenue in Asheville, Buncombe County, North Carolina. It comprises 4.618 acres and is now idle, though it has had various occupants since the 1890s, (including, from 1969-2007, Deal Motors). Most recently a discount furniture store occupied Deal Motors’ former showroom. Prospective Developer intends to redevelop the Brownfields Property for grocery store and other retail use, and for entertainment venues, offices and contiguous parking areas and service drives.</p>
<p>DEAN HARDWOODS – NEW 1 Cowan Street Wilmington, New Hanover County PD: Sawmill Point, LLC</p>	<p>The Brownfields Property is located at 15 Cowan Street in Wilmington, New Hanover County, North Carolina and is 11.07 acres in size. The Property is the former site of Dean Hardwoods, Inc. which operated a sawmill on the property since approximately 1971. The site was developed along the southern property boundary until 1951 with a fertilizer warehouse. A lumber yard was also located on the property until 1910. The property was cleared and graded in 2007 in preparation for mixed-use redevelopment which was not completed. The property has been vacant since 2007. Sawmill Point Investors, LLC intends to redevelop or sell for redevelopment for mixed-use purposes which will likely included residential and commercial uses, with the possibility of recreational use.</p>

<p>DIXIE TRUCKING 3606 N. Graham Street Charlotte, Mecklenburg Co. PD: M.H.O.C., LLC</p>	<p>The Property (Tax Parcel Identification Number 08508202) is located at 3606 North Graham Street, Charlotte, Mecklenburg County, North Carolina and comprises 16.25 acres. It is the former site of a Dixie Trucking Co. facility. PD has committed itself to redevelopment of the Brownfields Property for no uses other than as a trucking terminal or for other industrial purposes.</p>
<p>DOLLAR GENERAL KINSTON Corner King & East Streets Kinston, Lenoir Co. PD: Glandon Forest Equity, LLC</p>	<p>The Brownfields Property is located at the southeast corner of King and East Streets in Kinston, Lenoir County, North Carolina and is 1.58 acres in size. The property was the location of Lenoir Oil and Ice Company's Ice Plant until the 1980s. The site has been vacant since at least 1994. Groundwater at the site is contaminated with volatile organic compounds/chlorinated solvents from an unknown source. Prospective Developer intends to redevelop the site for commercial/retail purposes.</p>
<p>DON CHRISTIAN PROPERTY Main Street Carrboro, Orange County PD: Main Street Properties</p>	<p>This approximately 0.5-acre underused site had been in use as a bulk oil facility and gas station since the 1920s and is currently in use as an auto repair shop. The site contains petroleum hydrocarbon impacts in soil and groundwater. PD intends to reuse the property in commercial/retail use as part of the renovation and expansion of the existing, adjoining shopping center.</p>
<p>DOUBLE OAKS APARTMENTS 2623 Double Oaks Road & 2542 Horne Drive Charlotte, Mecklenburg Co. PD: Double Oaks Development, LLC</p>	<p>The Brownfields Property is located at 2623 Double Oaks Road and 2542 Horne Drive, Charlotte, Mecklenburg County, North Carolina; it includes 14 parcels comprising approximately 61.267 acres. Prospective Developer plans to redevelop it for no other use than those allowed by Land Use Restriction 1 below. The Brownfields Property has been in residential and commercial use since being developed in the 1950s, and is surrounded by land in commercial, retail and green space (formerly landfill) use. The Brownfields Property's groundwater is contaminated.</p>
<p>DUKE POWER MGP 321 e. Friendly Ave. Greensboro, Guilford Co. PD: Weaver Foundation, Inc.</p>	<p>The property is a 3.9-acre portion of a former Duke Energy manufactured gas plant site. The site soil and groundwater are contaminated with coal tar constituents. Remedial activities, including excavation of contaminated soil and groundwater investigation and monitoring, have been conducted at the site by Duke Energy under the jurisdiction of the Inactive Hazardous Site Branch of DENR's Superfund Section. Prospective Developer intends to reuse the property for parking, office, nonprofit services, retail, higher education, and for high-density residential above the ground floor.</p>

<p>DURHAM CENTRAL PARK COHOUSING 128 & 132 Hunt Street Durham, Durham County PD: Durham Central Park Cohousing Community</p>	<p>The Brownfields Property comprises 0.582 acres at 128 and 132 Hunt Street in Durham, Durham County, North Carolina. The site was first developed in the early 1900s for residential use. A warehouse was constructed at 128 Hunt Street in 1980 and is leased by a manufacturer of custom electrical power supplies for model trains. In 1960, the 132 Hunt Street parcel was developed as a tire replacement and automotive repair facility that does business as Tire King of Durham. Tire King moved to a new location, leaving 132 Hunt Street currently in disuse. Contamination exists at the Brownfields Property as a result of past operations conducted on or in the vicinity of the site. Prospective Developer intends to redevelop the Brownfields Property for high-density residential use, to include a multi-story 24-unit cohousing condominium building.</p>
<p>DYNATECH INDUSTRIES 2213 Toomey Avenue Charlotte, Mecklenburg Co. PD: R. G. Automation, Inc.</p>	<p>Former plating facility with metals-impacted soil and groundwater. EPA conducted soil removal activities at the site and has classified it as NFRAP. PD intends to redevelop the property for use as mixed office/retail complex.</p>
<p>EAST GANNON PROPERTY 102 East Gannon Avenue Zebulon, Wake Co. PD: Berkshire-Hudson Capital XI, LLC</p>	<p>This property consists of four parcels of land totaling 1.75 acres with four existing structures (former restaurant, current auto sales, auto service garage and hair salon). Site planned to be redeveloped into a stand-alone Eckerd Drug Store, with other surrounding complimentary retail tenants. Soil and groundwater are contaminated with petroleum constituents from above-ground storage tanks used by previous gas station.</p>
<p>EAST PARK – BOYER 1607 E. 4th Street Charlotte, Mecklenburg Co. PD: Torrence Street Partners, LLC</p>	<p>Approximately 0.39-acre parcel that is a portion of the East Park Development Project, with known chlorinated solvent and gasoline contamination. PD intends to redevelop the site as a pedestrian urban infill multiple-use development with commercial, residential, recreational and common open space. The site is part of the City of Charlotte's East Park re-development zone.</p>
<p>EAST PARK – CRAVER 1609 Elizabeth Avenue Charlotte, Mecklenburg Co. PD: Providence Road Land Partners, LLC</p>	<p>Approximately 0.65-acre parcel that is a portion of the East Park Development Project, with known chlorinated solvent and gasoline contamination. PD intends to redevelop the site as a pedestrian urban infill multiple use development with commercial, residential, recreational and common open space. The site is part of the City of Charlotte's East Park re-development zone.</p>
<p>EAST PARK – DOROTHY HALL 1423 E. 4th Street Charlotte, Mecklenburg Co. PD: 1427 East Fourth Street, LLC</p>	<p>Approximately 0.8-acre parcel that is a portion of the East Park Development Project, with known chlorinated solvent and gasoline contamination. PD intends to redevelop the site as a pedestrian urban infill multiple-use development with commercial, residential, recreational and common open space. The site is part of the City of Charlotte's East Park re-development zone.</p>

<p>EAST PARK – JOAL REALTY 1534 Elizabeth Avenue Charlotte, Mecklenburg Co. PD: Joal Realty</p>	<p>Part of the 24-acre site encompassing a six-block area with known chlorinated solvent contamination. PD intends to redevelop the site as a model for urban infill mixed-use development with an emphasis on the needs of pedestrians in an urban setting. The site is part of the City of Charlotte's East Park re-development zone located between the CBD and the historic residential neighborhoods of Elizabeth and Myers Park.</p>
<p>EAST PARK – KOSSOVE 1515 E. 4th Street Charlotte, Mecklenburg Co. PD: David Kossove</p>	<p>Part of the 24-acre site encompassing a six-block area with known chlorinated solvent contamination. PD intends to redevelop the site as a model for urban infill mixed use development with an emphasis on the needs of pedestrians in an urban setting. The site is part of the City of Charlotte's East Park re-development zone located between the CBD and the historic residential neighborhoods of Elizabeth and Myers Park.</p>
<p>ECUSTA 1 Ecusta Road Pisgah Forest, Transylvania Co. PD: Ecusta Business Development Centers, LLC</p>	<p>In its prime, this 540-acre site was the world's largest non-wood pulp and specialty paper manufacturing facility. Closed since late 2002, the site has known metals, caustic and solvent contamination. PD intends to re-start flax pulping operations and to market the pulp to paper manufacturers. PD may also undertake other uses of site buildings and facilities, including office space and possible use of excess wastewater treatment capacity by local municipalities.</p>
<p>ECUSTA TRACT A 1 Ecusta Road Brevard, Transylvania Co. PD: Davidson River Village, LLC</p>	<p>The Brownfields Property is located at 1 Ecusta Road, Brevard, Transylvania County, North Carolina. It comprises 48.43 acres, was a part of an assemblage comprising approximately 527 acres (the "Ecusta Mill"), and has been designated the "Tract A Property." Decades of industrial activity at the Ecusta Mill began with the manufacture of cigarette papers in the late 1930s. The Tract A Property encompasses property west of the Davidson River that was formerly the northern portion of the Ecusta Mill's original plant. Prospective Developer intends to redevelop the Tract A Property for residential, hotel, retail and office activities, the activities set forth in Land Use Restriction 1.f. below, and any other activities approved in writing by DENR in advance. For informational purposes, it is noted that Darin Bright is an Authorized Person of Brownfield Development I LLC, the sole member of Prospective Developer, and has signed this Notice in such capacity. Separate and apart from his position as Authorized Person of Brownfield Development I LLC, Mr. Bright is a Vice President of The Prudential Insurance Company of America, a Member of Brownfield Development I LLC, on behalf of its PRISA II insurance company separate account.</p>

<p>ECUSTA TRACT B 1 Ecusta Road Brevard, Transylvania Co. PD: Davidson River Village, LLC</p>	<p>The Brownfields Property is located at 1 Ecusta Road, Brevard, Transylvania County, North Carolina. It comprises 102.53 acres, was a part of an assemblage comprising approximately 527 acres (the “Ecusta Mill”), and has been designated the “Tract B Property.” Decades of industrial activity at the Ecusta Mill began with the manufacture of cigarette papers in the late 1930s. The Tract B Property encompasses property west of the Davidson River and east of Ecusta Road that was formerly the southern portion of the Ecusta Mill’s original plant. Portions of the acreage are non-contiguous with the southern portion of the original plant site, and they are separated from the original plant site by multiple properties. Prospective Developer intends to redevelop the Tract B Property for residential, hotel, retail, river recreation, river use, and office activities, the activities set forth in Land Use Restriction 1. h. below, and any other activities approved in writing by DENR in advance. For informational purposes, it is noted that Darin Bright is an Authorized Person of Brownfield Development I LLC, the sole member of Prospective Developer, and has signed this Notice in such capacity. Separate and apart from his position as Authorized Person of Brownfield Development I LLC, Mr. Bright is a Vice President of The Prudential Insurance Company of America, a Member of Brownfield Development I LLC, on behalf of its PRISA II insurance company separate account.</p>
<p>ECUSTA TRACT C 1 Ecusta Road Brevard, Transylvania Co. PD: Davidson River Village, LL</p>	<p>The Brownfields Property is located at 1 Ecusta Road, Brevard, Transylvania County, North Carolina. It comprises 1.97 acres, was a part of an assemblage comprising approximately 527 acres (the “Ecusta Mill”), and has been designated the “Tract C Property.” Decades of industrial activity at the Ecusta Mill began with the manufacture of cigarette papers in the late 1930s. The Tract C Property lies in the center of the former plant portion where the former Electrochemical Building was located of the Ecusta Mill, placing it on the east side of Ecusta Road and west of the Davidson River. Prospective Developer is restricted to passive uses such as roads, utilities, sidewalks, parks and walking or wildlife viewing along with open space for biking, hiking, and running activities, as they are recorded in the Declaration of Perpetual Land Use Restrictions recorded in Book 594, Page 531 at the Transylvania County Register of Deeds’ office, which imposes Land Use Restrictions on the Tract C Property. For informational purposes, it is noted that Darin Bright is an Authorized Person of Brownfield Development I LLC, the sole member of Prospective Developer, and has signed this Notice in such capacity. Separate and apart from his position as Authorized Person of Brownfield Development I LLC, Mr. Bright is a Vice President of The Prudential Insurance Company of</p>

	<p>America, a Member of Brownfield Development I LLC, on behalf of its PRISA II insurance company separate account.</p>
<p>ECUSTA TRACT D 1 Ecusta Road Pisgah Forest, Transylvania County PD: Davidson River Village, LLC</p>	<p>The Brownfields Property is located at 1 Ecusta Road, Brevard, Transylvania County, North Carolina. It comprises 52.31 acres, was a part of an assemblage comprising approximately 527 acres (the “Ecusta Mill”), and has been designated the “Tract D Property.” Decades of industrial activity at the Ecusta Mill began with the manufacture of cigarette papers in the late 1930s. The Tract D Property has been carved out as the river portion of the Ecusta Mill, and the acreage borders the Davidson River as well as the northern portion of the Tract E Property, known as the Process Island Landfill. Prospective Developer intends to redevelop the Tract D Property for greenways, open space, river recreation, river use, agricultural, residential, hotel, retail and office use, the activities set forth in Land Use Restriction 1.k. below, and any other activities approved in writing by DENR in advance. For informational purposes, it is noted that Darin Bright is an Authorized Person of Brownfield Development I LLC, the sole member of Prospective Developer, and has signed this Notice in such capacity. Separate and apart from his position as Authorized Person of Brownfield Development I LLC, Mr. Bright is a Vice President of The Prudential Insurance Company of America, a Member of Brownfield Development I LLC, on behalf of its PRISA II insurance company separate account.</p>
<p>ECUSTA Tract G 1 Ecusta Road Pisgah Forest, Transylvania Co. PD: Davidson River Village, LLC</p>	<p>The Brownfields Property comprises 12.99 acres, was a part of an assemblage comprising approximately 527 acres (the “Ecusta Mill”) and has been designated “Tract G.” Decades of industrial activity at the Ecusta Mill began with the manufacture of cigarette papers in the late 1930s. Tract G was farm land or undeveloped until approximately 1963, and by 1978 it was used for overflow Ecusta Mill parking. Prospective Developer intends to redevelop the Brownfields Property for residential, hotel, retail and office use, the activities set forth in Land Use Restriction 1.f. below, and any other commercial uses approved in writing by DENR in advance.</p>

<p>EDISON PROJECT 305 & 327 South Wilmington Street Raleigh, Wake County PD: Hamilton Merritt, Inc.</p>	<p>The Brownfields Property consists of approximately 2.827 acres and is located at 109 East Davie Street, and at 301, 305, 307, 313 and 343 South Wilmington Street, Raleigh, Wake County, North Carolina. Numerous buildings have occupied the Brownfields Property since at least 1884, the date of the earliest known use map of the site area. The Brownfields Property originally contained a livery, a boarding house and other dwellings. The Property was fully developed by 1958; uses of it and adjacent lots on the same block have included financial institutions, cabinet shop, dry cleaner, chemical company, print shop, laboratory, auto sales and repair, welding shop, gasoline station, tire retreading, furniture repair and sales, agricultural implements sales and clothing manufacturing. Minor contamination exists at the Brownfields Property in soil and groundwater from historic uses. Prospective Developer intends to redevelop the Brownfields Property for mixed residential, hotel, restaurant, retail and/or office use.</p>

<p>EDMUNDS MANUFACTURING 1016 Battleground Avenue Greensboro, Guilford County PD: Carroll Investment Properties, LLC</p>	<p>The Brownfields Property consists of 4.483 acres located at 1016 Battleground Avenue in Greensboro, Guilford County, North Carolina. It was first used in 1919 by A.G. Lassiter & Co. as the site of a steam-powered asphalt plant utilizing coal-fired boilers. Beginning in the early 1940s, the Brownfields Property was owned by Truitt Manufacturing, which conducted metal fabrication activities there including metal cutting, plating, packaging and shipping. Edmunds Manufacturing Co. acquired the Brownfields Property in approximately 1960 and continued metal fabrication operations there until March 2004. On June 29, 2007, Hill Street Holdings, LLC purchased the Brownfields Property and still owns it. The Prospective Developers have committed themselves to redevelop the Brownfields Property for no uses other than office, retail, self-storage,</p>	

	hotel, parking, and landscaping purposes, or other use approved in advance and in writing by DENR.
EDWARDS PROPERTY 10211-10311 Rozzelle's Ferry Rd. Charlotte, Mecklenburg Co. PD: Anne Edwards	The Brownfields Property is located at 10211-10311 Rozzelle's Ferry Road in Charlotte, Mecklenburg County, North Carolina. The property is approximately 2 acres and was the site of former minnow bait ponds. The parcels are surrounded by land in commercial, retail, and residential use. Ms. Edwards intends to sell the property for redevelopment by a third party for retail, office, industrial, gas station, other commercial (if DENR issues prior written approval), parking (in lots and structures), or institutional purposes. Soil and groundwater are contaminated at the property due to past activities which include backfilling the ponds with foundry sand.
ELECTRONICS COMPONENTS CORP. 513 S. Dudley Street Burgaw, Pender County PD: MoJo Properties, LLC	The approximately 5-acre site was first developed in 1966 as a facility for manufacturing small transformers. The property was idled in 1999. Site groundwater is contaminated with chlorinated solvents. Prospective Developer intends to reuse the site to manufacture sound equipment and other music-related equipment.
ELK MOUNTAIN LANDFILL Elk Mountain Road Woodfin, Buncombe Co. PD: Town of Woodfin	The property consists of approximately 156 acres of land and improvements located west of U.S. Highway 19 and approximately one mile north-northeast of downtown Woodfin, Buncombe County, North Carolina. Portions of the site were first developed in approximately 1970 as a municipal landfill. The landfill was operated by the City of Asheville, North Carolina, under a lease from the Rhodes estate, the property owner at the time. The landfill was closed in the early 1980s. Prospective Developer purchased the site in 1985 from the Rhodes estate, and, in the late 1990s, redeveloped the former landfill portion of the Brownfields Property into a 9-hole municipal golf course. The golf course was closed in 2002. Prospective Developer intends to sell the Property for redevelopment into a mixed-use residential and commercial community and, on the portion of the Brownfields Property formerly used as a municipal landfill, recreational open space, parking areas, roadways, utility corridors, ball fields, lights, walking paths and a possible golf course with associated amenities such as tennis courts and a clubhouse, or other features or structures.
ERWIN SQUARE 2211 Hillsborough Road Durham, Durham Co. PD: WP East Acquisitions, LLC	This approximately 6-acre property is a portion of a decommissioned former Burlington Industries site, other portions of which have already been redeveloped. There is known chlorinated solvent contamination in groundwater, and these impacts are being addressed under an approved Division of Water Quality corrective action plan. PD intends to redevelop the site in high-density residential use.
FABRICTEX	The Brownfields Property consists of approximately 14.7

<p>376 Clarks Creek Road Lincolnton, Lincoln County PD: CCR Real Estate Holdings, LLC</p>	<p>acres and is located at 376 Clarks Creek Road in Lincolnton, Lincoln County, North Carolina. The site was in use for farming until 1981, when it was initially developed for industrial uses. Fabrictex, a textile dyeing, knitting and finishing business, operated at the site from 1983 until 2004, when Fabrictex ceased operations and closed the facility. Environmental contamination exists in soil at the Brownfields Property from past operations conducted there. The site has been redeveloped by Prospective Developer for textile knitting and finishing operations.</p>
<p>FAIRVIEW ROAD 6 Fairview Road Asheville, Buncombe Co. DP: M Realty, LLC</p>	<p>The Brownfields Property is located at 6 Fairview Road, Asheville, Buncombe County, North Carolina. It comprises 3.44 acres; it was previously a Carolina Tractor and Biltmore Cast Stone facility and most recently a furniture warehouse and staging, an indoor baseball practice facility, and a commercial countertop business. Prospective Developer desires to sell the property for the purpose of retail, office, residential and other commercial uses with prior written DENR approval.</p>
<p>FERGUSON ENTERPRISES 101 W. Tremont Avenue Charlotte, Mecklenburg Co. PD: Tremont Partners, LP</p>	<p>The Property comprises approximately 2.88 acres and is currently the site of a warehouse and showroom operated by Ferguson Enterprises, Inc. Prospective Developer intends to effect redevelopment of the Property that will consist of a multi-story building containing luxury residential units with amenities, as well as retail, office and other commercial uses, and a parking structure. Groundwater is contaminated at the Brownfields Property due to past activities on an adjacent upgradient property known as the "Parks-Cramer Site."</p>
<p>FIELDCREST BLANKET MILL 206 Warehouse Street Eden, Rockingham County PD: Riverwalk Development, LLC</p>	<p>The Property is located along the Smith River in Eden, Rockingham County, North Carolina. It includes the sites of two former textile mills and nearby residential properties, and comprises 18.439 acres. Prospective Developer plans a mixed-use redevelopment, which may include a hotel and conference center, museum, arts and crafts studios, office space, theater, restaurants, retail space, warehousing and open public space in the form of a greenway and park along the river. The redevelopment plan also includes preservation and reuse of the historic and architecturally significant Nantucket textile mill. Groundwater at the site is contaminated with chlorinated solvents.</p>
<p>FISHBURNE EQUIPMENT Airport Road Arden, Buncombe Co. PD: R. & P. Van Praag</p>	<p>Former metal fabrication and tobacco press manufacturing facility with suspected VOC contamination in soil and groundwater, based on detection of these compounds on adjoining, downgradient property, the former Buncombe County landfill. PD intends to redevelop the site for light manufacturing/assembly, warehousing, and public storage uses.</p>

<p>FLEMINGTON LANDFILL US Hwy 421 North Wilmington, New Hanover Co. PD: Cape Fear Soccer Association</p>	<p>Site of a closed (1979), privately operated domestic and industrial solid waste landfill with VOC-impacted soil and groundwater. Intended reuse is for a soccer complex. This is the first former landfill property proposed for redevelopment under the NC brownfields statute, and the project's feasibility and technical challenges are being carefully evaluated.</p>
<p>FLETCHER OUTPATIENT MEDICAL FACILITY 2765 Hendersonville Road Fletcher, Henderson Co. PD: Mission Health, Inc.</p>	<p>The Brownfields Property is located at 2765 Hendersonville Road, Fletcher, Henderson County, North Carolina. It comprises 9.59 acres; it was the site of a former tractor trailer training facility and more recently auto repair, service and detailing operations. Prospective Developer had the Property's four (4) existing buildings demolished and removed in 2011. Prospective Developer intends to redevelop the Property for no uses other than provision of medical and related supporting services including, but not limited to, surgery, urgent care, physical therapy, physician offices, radiology, pharmacy, administration, education, food service, open/common space, parking, and associated drives. In the event the Property is no longer used as described in the preceding sentence, the Property may be used for retail, office or light industrial and related supporting services.</p>
<p>FLYNT FABRICS MILL PROPERTY 202 S. Nash Street Hillsborough, Orange County PD: Falk Companies</p>	<p>Former Flynt Fabrics, a textile dyeing and finishing operation, closed in late 2000. Potential, but not confirmed, contamination at the site includes asbestos, lead, peroxide, acetic acid, #5 fuel oil, dyes, salts, bleaches, cleaners, and oils. Prospective Developer desires to purchase the old mill and parking portion of the Property and redevelop it in residential use.</p>
<p>FONTAINE 5th WHEEL 3883 South Church Street Rocky Mount, Nash County PD: New Standard Corporation</p>	<p>This former metals fabrication/manufacturing facility has been vacant since 2001 and the property contains chlorinated solvent and petroleum contamination in soil and groundwater. Prospective Developer intends to reuse the three site buildings for metal stamping, fabrication and assembly operations.</p>
<p>FOOD LION Waughtown & Sprague Streets Winston-Salem, Forsyth Co. PD: Food Lion, Inc.</p>	<p>A new large supermarket placed on the site of an abandoned grocery store in urban Winston-Salem. Project had strong community support as a quality of life issue as the community had no supermarket. Land use restrictions for chlorinated solvent contamination in groundwater. Brownfield Assessment determined the source to be nearby drycleaner.</p>

<p>FULFLEX, INC. PROPERTY 500 E. 7th Street Scotland Neck, Halifax County PD: Town of Scotland Neck</p>	<p>Approximately 20-acre property contains a vacant 100,000 SF building, the site of rubber product manufacturing until 2002. Fulflex is the responsible party and is currently working with the Aquifer Protection program to remediate a petroleum and chlorinated solvent plume. The town plans to make site improvements to attract a new manufacturing tenant, who will purchase the site at a reduced rate if they bring enough jobs to the area.</p>
<p>GARCO 2242 Carl Drive Asheboro, Randolph Co. PD: P & R Development, LLC</p>	<p>The Brownfields Property is located at 2242 Carl Drive, Asheboro, Randolph County, North Carolina. It comprises approximately 12 acres and was formerly the site of a Klausner Furniture Industries, Inc. assembly plant. Prospective Developer intends to use the Brownfields Property for commercial and industrial environmental services that include non-hazardous waste management and recycling operations, among which may be waste-to-energy operations. The site is adjacent to property containing a groundwater contamination plume believed to extend onto the Brownfield property.</p>
<p>GATEWAY AT OLD SALEM 1198 S. Broad Street Winston-Salem, Forsyth County PD: Southeast Gateway Ventures</p>	<p>Project size is approximately 51 acres. The property is planned for mixed-use redevelopment including offices, commercial/retail space, residences, a YWCA, a private school and parking. Contamination is from a former Duke Power Plant substation (PCBs, PAHs in soil) and groundwater contamination from a number of sources, mainly petroleum but with a few chlorinated solvents. Cleanup of contamination at the Duke Power facility under the Inactive Hazardous Sites Program is almost complete. The Duke Power site comprises only a portion of this large brownfields redevelopment project.</p>
<p>GENERAL WOOD 1901 Wood Treatment Road Leland, Brunswick County PD: Leland Land, LLC</p>	<p>A 120-acre utility pole treatment facility (creosote, chromated copper arsenate (CCA) and pentachlorophenol (PCP)) under Chapter 11 bankruptcy that is currently under RCRA jurisdiction. PD's intent is to be able to distinguish old from new contamination and then continue with pole treatment (CCA and PCP only). Groundwater contamination mainly associated with creosote and petroleum. Metal and PCP contamination in soil.</p>

<p>GLENCOE MILL 2362 River Road Burlington, Alamance Co. PD: Historic Preservation Foundation of NC</p>	<p>The Property comprises 7.04 acres and is located at 2362 River Road in Burlington, Alamance County, North Carolina. A textile mill operated on the Brownfields Property from 1880 until 1954, as did a hydroelectric plant from 1880 until 1996. From 1954 through the late 1990s, numerous businesses were housed in the site buildings, the most recent having been a metal salvage business and the hydroelectric plant-related business operations. The property contains an abandoned textile mill, picker house, napper house, dye house, cotton storage sheds, machine shop and textile warehouses. The site is adjacent to a historic mill village. Both the village and the mill complex are listed on the National Register of Historic Places. Contamination exists in soil, groundwater and stream sediment at the Property as a result of past site operations. Plans are to redevelop the Brownfields Property with a mix of commercial, office, light industrial, storage/warehouse, and institutional and/or residential uses.</p>
<p>GOLDEN BELT MFG 900 E. Main & 400 E. Elm St. Durham, Durham Co. PD: Edgemont Realty, LLC</p>	<p>The Property consists of 5.478 acres and is located at 807 East Main Street in Durham, Durham County, North Carolina. In 1887, Golden Belt Manufacturing Co. constructed a textile mill on the Brownfields Property that consisted of at least 10 buildings in which it produced cotton bags, sheeting and hosiery. Golden Belt Manufacturing Co. operated on the Brownfields Property until 1996. Contamination exists in soil and groundwater at the site as a result, based on information and belief, of past site operations. Prospective Developer intends to redevelop the Property for mixed-use that may include office, high-density residential, retail, light manufacturing, institutional and, with prior written DENR approval, other commercial use.</p>
<p>GOLDTEX 401 Patetown Road Goldsboro, Wayne Co. PD: Scouts, LLC</p>	<p>The Brownfields Property comprises 15.22 acres and is located at 401 Patetown Road in Goldsboro, Wayne County, North Carolina 27530. The site was initially developed in 1973 by Texfi Industries, Inc. as a textile finishing facility. In 1983 the Brownfields Property was acquired by Goldtex who conducted textile dyeing and finishing operations until July 1998. Groundwater contamination exists at the site due, on information and belief, to the past textile operations. Since applying to enter DENR's Brownfields Program and then purchasing the site, Prospective Developer has redeveloped the Brownfields Property as a fence materials fabrication and distribution facility.</p>
<p>GRIFFITH STREET PROPERTY 565 Griffith St. & 536 Jetton St. Davidson, Mecklenburg Co. PD: Five Six Five, LLC</p>	<p>Prior industrial operations resulted in soil and groundwater contamination by petroleum and VOCs. The PD plans to redevelop the facility as a charter school and as retail and commercial space.</p>

<p>GUILFORD MILLS W. Wendover Avenue Greensboro, Guilford Co. PD: Wendover Crossing, LLC</p>	<p>A 55-acre site containing former textile manufacturing facility with known VOC contamination in soil and groundwater. PD intends to redevelop the property in mixed retail uses. Public benefits include the creation of an estimated 500 jobs and substantial tax rolls increases.</p>
<p>GUILFORD MILLS – HORNADAY 5644 Hornaday Road Greensboro, Guilford Co. PD: Tower Investments, LLC</p>	<p>The Property consists of approximately 30.23 acres and is located at 5644 Hornaday Road in Greensboro, Guilford County, North Carolina. Soil and groundwater contamination exist at the site as a result of past operations conducted thereon, which included the manufacture of textiles and textile machinery. Prospective Developer intends to initially redevelop the site for light industrial uses, such as warehousing or light manufacturing, possibly followed, within three (3) to five (5) years, by mixed retail/office redevelopment (rezoning allowing).</p>
<p>GUILFORD MILLS - W. MARKET STREET 4925 W. Market Street Greensboro, Guilford County PD: Kim's Greensboro Real Estate, LLC</p>	<p>A 19.8-acre vacant textile facility with ancillary buildings. Minor groundwater contamination associated with former underground storage tanks. Other non-UST contamination has been documented but information has not yet been sent to us. PD plans to use the site for general commercial property.</p>
<p>HAMILTON PROPERTY 216 Dunavant Street Charlotte, Mecklenburg Co. PD: Rush Family, LLC</p>	<p>A small, dilapidated property bought for the expansion of Cost Effective Maintenance Inc., a small business in the South End area of Charlotte. Expansion into this property allowed CEM to stay in Charlotte instead of move to suburbs. Land use restrictions for chlorinated solvent contamination in groundwater.</p>
<p>HANESBRANDS INDUSTRIAL 700 Stratford Road Winston-Salem, Forsyth Co. PD: 700 South Stratford, LLC</p>	<p>The Brownfields Property comprises 26.515 acres and is located at 700 Stratford Road in Winston-Salem, Forsyth County, North Carolina. The Brownfields Property was initially developed as a knitting facility in the early 1900s and was most recently used as a textile dyeing and finishing facility by Hanesbrands. Soil and groundwater contamination exists at the Brownfields Property from past industrial uses. Prospective Developer intends to redevelop the Brownfields Property for commercial uses which may include restaurant, retail, medical/professional office, computer data center and/or other commercial uses approved in advance and in writing by DENR.</p>

<p>HANESBRANDS THEATRE 201 N. Spruce St. Winston-Salem, Forsyth Co. PD: The Arts Council</p>	<p>The Brownfields Property comprises approximately 0.46 acres and is located at 201 North Spruce Street, Winston-Salem, Forsyth County, North Carolina. Its previous uses have included automotive sales, service and repair businesses, and most recently an AC Delco automotive parts and service store. Groundwater at the site is contaminated with low levels of chlorinated solvents from past activities at the site. Prospective Developer plans to redevelop the site as a multi-purpose venue that can be configured to include a 300-seat theater and associated practice rooms, classrooms and office space, and that hosts events including theater, music and dance performances, film screenings, workshops, parties, fundraisers, lectures and readings.</p>
<p>HARRIS AUTO & BODY SHOP 2300 Statesville Avenue Charlotte, Mecklenburg County PD: Charlotte-Mecklenburg Housing Partnership</p>	<p>The Brownfields Property is located at 2300 Statesville Avenue, in Charlotte, Mecklenburg County, North Carolina. It comprises approximately 1.19 acres and was formerly the site of the Harris Auto & Body Shop and various commercial uses. It is surrounded by land in residential use. The parcel's groundwater and soil are contaminated. Prospective Developer plans to redevelop the parcel for residential, office, retail and, if DENR issues prior written approval, other commercial uses.</p>
<p>2000 HAWKINS STREET 2000 Hawkins Street Charlotte, Mecklenburg Co. PD: Selwyn Property Group Investments, LLC</p>	<p>The Brownfields Property is located at 2000 Hawkins Street in Charlotte, NC, having tax parcel number 12103313. The site is comprised of approximately 1.13 acres and was previously used in the storage and distribution of packaging products as well as for the printing and book binding. 2000 Hawkins, LLC proposes to use the property for industrial, retail, office, and high-density residential purposes.</p>
<p>HENREDON SITE/MORGANTON HEIGHTS 400 Henredon Drive Morganton, Burke County PD: Morganton Retail Investment, LLC</p>	<p>The Brownfields Property is located at 400 Henredon Drive and 500 Hopewell Road, Morganton, Burke County, North Carolina. It comprises approximately 103.652 acres on which a Henredon Furniture Industries, Inc. plant formerly operated. Prospective Developer plans to redevelop the Property as a retail shopping center with several anchor tenants, small shop space and several outparcels. Office, hotel and residential uses may be included in the future.</p>
<p>HILEMN LABS 3125 Spring Garden Street Greensboro, Guilford Co. PD: VIC, Inc.</p>	<p>The property consists of approximately 0.9 acres and was formerly used in the manufacture of mirrors from 1958 to 2004. The property improvements comprise approximately 16,000 square feet in three contiguous buildings. The original building was constructed in 1958 and saw additions added through the mid-1970s. Site groundwater and soil vapor are contaminated with chlorinated solvents from past site uses. Prospective Developer has redeveloped the site for sign manufacturing and marketing.</p>

<p>HILLSBOROUGH VENTURES 3011 Hillsborough Street Raleigh, Wake Co. PD: Hillsborough Ventures, LLC</p>	<p>Project involves redeveloping an area of parking lots and dilapidated, underused retail structures. Land use restrictions are in place for the petroleum hydrocarbon and chlorinated solvent contamination in soil and groundwater. PD intends to redevelop the property as mixed residential (private student dormitory for N.C. State University) and retail complex.</p>
<p>HILLSBOROUGH VENTURES ADDITION 3 Concord St, 24 McKnight Ave, 3101 Stanhope Dr Raleigh, Wake Co. PD: Hillsborough Ventures, LLC</p>	<p>Prospective developer added acreage to the footprint of original Hillsborough Ventures project, which involves redeveloping an area of parking lots and dilapidated, underused retail structures adjacent to N.C. State University for mixed residential (private student dormitory) and retail uses.</p>
<p>HISTORIC BILTMORE VILLAGE II/RANKIN PATTERSON OIL 1 Fairview Road Asheville, Buncombe County PD: Historic Biltmore Village II, LLC</p>	<p>The Brownfields Property is located at 1 Fairview Road, Asheville, Buncombe County, North Carolina. It comprises 1.26 acres and is the site of a former bulk petroleum storage and distribution facility. Prospective Developer intends to redevelop the Property for no uses other than for retail, office, hospitality, restaurant, parking (with associated drives) purposes, and, if DENR issues prior written approval, other commercial purposes.</p>
<p>HISTORIC COTTON MILL 191 Riverside Drive Asheville, Buncombe Co. PD: RiverLink, Inc.</p>	<p>A 2.63-acre site formerly occupied by a cotton mill that operated from the 1900s but has been abandoned for many years. PD will conduct environmental assessment to determine if the site has any contamination. PD intends to redevelop the site in mixed commercial/retail and residential uses. This project is part of the Asheville French Broad Riverfront Plan.</p>
<p>HOLLAR HOSIERY 883 Highland Avenue Southeast Hickory, Catawba County PD: Hollar Hosiery Investments, LLC</p>	<p>The Brownfields Property is located at 883 Highland Avenue Southeast, Hickory, Catawba County, North Carolina. It comprises 2.07 acres and has historically been used for hosiery mill operations. It contains a large brick warehouse constructed in three (3) sections. Prospective Developer intends to redevelop the Property for no uses other than residential, light manufacturing (including without limitation a brewery), higher education, office, retail and, if DENR issues prior written approval, other commercial purposes, all of which may only occur in conformance with all land use restrictions below.</p>

<p>HOME DEPOT – SOUTH BOULEVARD 4750 South Boulevard Charlotte, Mecklenburg County PD: CNR Properties, RLLLP</p>	<p>A 12-acre site currently occupied by a produce grocer and office rental store (1 acre), parking (7 acres), abandoned plant nursery (1 acre); the rest is undeveloped. Operations at adjacent Academy Steel Drum (ASD) from 1947-69 included the disposal of wastes and sludge from drums into pits/lagoons. The location of the lagoons and overflow drainage is suspected to have been partially on subject property. After ASD burned in 1969 the property was thoroughly re-graded with contaminated soil moved around. Elevated concentrations of lead, chromium, and PCBs in soil along with lead, 2-chlorophenol, and Trichloroethene. PD plans to lease property to Home Depot for construction of a new Home Depot home improvement retail store.</p>
<p>HONDROS PROPERTY 9101 & 9111 Nations Ford Rd. Charlotte, Mecklenburg Co. PD: Arrowood Nations Ford Property, LLC</p>	<p>The property comprises approximately 16 acres. Prospective Developer intends to effect the redevelopment of the property for retail, other commercial purposes and for residential use. Groundwater and soil vapor are contaminated at the site due, on information and belief, to past activities on surrounding properties.</p>
<p>HUGHES SUPPLY PROPERTY 1927 S. Tryon St. Charlotte, Mecklenburg County PD: 127 Tryon Investors, LLC</p>	<p>The Brownfields Property is located at 1927 South Tryon Street, Charlotte, North Carolina, where Hughes Plumbing Supply, Ltd. formerly operated. It carries Mecklenburg County tax parcel number 12101204, and was used for office and warehouse purposes. The Brownfields Property is surrounded by land in commercial and industrial use. Prospective Developer's redevelopment plans for the Brownfields Property include retail and office use, with ground level use restricted to parking</p>
<p>HUTCHINSON SHOPPING CENTER 2030 North Graham Street Charlotte, Mecklenburg Co. PD: MV Graham II, LLC</p>	<p>The Brownfields Property is located at 2030 North Graham Street, Charlotte, North Carolina. The parcel is currently the site of Hutchinson Shopping Center, which has approximately 15 tenants and contaminated soil and groundwater. The surrounding area is in commercial and industrial use. Prospective Developer plans to redevelop the Brownfields Property for residential use.</p>
<p>INDUSTRIAL PLASTICS 4810 Clover Road Greensboro, Guilford County PD: Standard Tools & Equipment</p>	<p>The site comprises 17.77-acres and had a variety of industrial operations since the 1970s. The PD intends to redevelop the Brownfields Property for non-residential commercial and/or industrial uses.</p>
<p>KENT CORNER 709 etc. Kent & 1201 etc. W. Chapel Hill St. Durham, Durham County PD: Chapel Hill Street Development, LLC</p>	<p>The Brownfields Property is a multi-parcel property located at 705, 707 & 709 Kent Street and 1111, 1115, 1117, 1119, 1121, 1200 & 1201 West Chapel Hill Street. Previous uses vary by parcel but include former dry cleaner, gasoline service station, pest extermination, day care, residential, community center, and community garden uses. The planned reuse is for mixed use redevelopment including commercial office, medical laboratory, retail, restaurant, second story or higher multi-unit residential use, and</p>

	community service organizations, potentially including youth programs and child-care services, with associated parking, common open space for public use, and storm water management features.
KIDD LANE BATTERY DISPOSAL 3607 Kidd Lane Charlotte, Mecklenburg Co. PD: Joshua's Farm	Abandoned dairy farm with historical lead battery disposal operations. The approximately 1-acre parcel is adjacent to a 22-acre horse & animal farm area for the Joshua's Farm Operations. The site has a limited area with lead contamination in the surficial soils. PD intends to redevelop the area as a parking lot for the horse and animal farm operations.
KINGS ARMS APARTMENTS 1209 Charles Boulevard, 606 East 11 th Street O Charles Street 504 East 12 th Street 508 East 12 th Street 510 East 12 th Street 600 East 11 th Street Greenville, Pitt County PD: University Residences - ECU, LLC	The Brownfields Property comprises 15.81 acres that include seven (7) contiguous parcels bearing Pitt County Tax PIN numbers 4687-47-7826 (Tract 1), 4687-48-7327 (Tract 2), 4687-48-5458 (Tract 3), 4687-48-3139 (Tract 4), 4687-48-3199 (Tract 5), 4687-48-4159 (Tract 6) and 4687-48-6547 (Tract 7) at street addresses Respectively, the parcels' addresses are 1209 Charles Boulevard, 606 East 11 th Street, O Charles Street, 504 East 12 th Street, 508 East 12 th Street, 510 East 12 th Street, and 600 East 11 th Street, in Greenville, Pitt County, North Carolina. Historically, the parcels' use has been residential, in single- and multi-family buildings, with some institutional use. Prospective Developer plans to redevelop the Brownfields Property for high density residential purposes.
LEARY BROTHERS STORAGE CO. 101 Virginia Road Edenton, Chowan Co. PD: Virginia Road, LLC	The Brownfields Property consists of approximately 4.2 acres and is located at 101 Virginia Road in Edenton, Chowan County, North Carolina. Among the former uses of the land are as the site of an agricultural supply and storage business, a retail florist and a warehouse for tires. Low levels of arsenic from, it is believed, releases of fertilizer compounds, have been detected in the Brownfields Property's soil and groundwater. The Brownfields Property has been idle since its structures suffered damage as a result of Hurricane Isabel in September 2003. Prospective Developer owns the Brownfields Property and plans to sell it for the purposes of redevelopment for retail, commercial and office use.
L. I. Building 449 Trollingwood Road Haw River, Alamance Co. PD: L. I. Building, LLC	The Brownfields Property is located at 449 Trollingwood Road, Haw River, Alamance County, North Carolina. Prospective Developer plans to redevelop it for industrial, sales/distribution and, with prior written DENR approval, other commercial use. The site was developed in 1967, and used from that time until 1973 as a textile knitting facility. Hose manufacturing has occurred on the Brownfields Property since 1973.

<p>LEWITH TEXTILE 3539 Wilkinson Boulevard Charlotte, Mecklenburg Co. PD: CMDC Wilkinson No. 1, LLC</p>	<p>Project involves the redevelopment of 50+ acres of abandoned and underused commercial and industrial property, including the former Lewith Textile facility. Contaminants include Petroleum hydrocarbon and chlorinated solvents in soil and groundwater. PD intends to redevelop the site as an industrial park for light manufacturing and warehousing/distribution.</p>
<p>LIGGETT APARTMENTS 601 West Morgan Street Durham, Durham Co. PD: FCP West Village Phase I Owner, LLC</p>	<p>The Brownfields Property is located at 601 West Morgan Street in Durham, North Carolina. The Property comprises approximately 1.68 acres and previously contained rail spurs and remained mostly undeveloped. The Property was believed to be used for the storage and delivery of materials, supplies and equipment used to manufacture cigarettes, but was converted to surface parking in the 1990's and is currently used as such. The Prospective Developer has committed itself to redevelopment of the Property for no uses other than mixed use to include commercial, high density residential, parking and recreational purposes.</p>
<p>LOWES OF NORTH HICKORY 1430 2nd Street NE Hickory, Catawba Co. PD: Lowe's Home Centers, Inc.</p>	<p>The property comprises 13.818 acres, including all or portions of seventeen (17) contiguous tax parcels, in Hickory, Catawba County, North Carolina. A retail home improvement store and stormwater retention pond have been constructed at the site. Prospective Developer has committed itself to redevelopment of the Brownfields Property for no uses other than the subject retail home improvement store (or other retail or office use), with associated outside storage areas, parking areas, a stormwater detention pond, and related open landscaped areas. The Brownfields Property's soil and groundwater are contaminated, due, on information and belief, to the site's prior use for a hosiery mill that included dye operations.</p>
<p>MALLARD CREEK 3021 Driwood Court Charlotte, Mecklenburg Co. PD: Colonial Realty, Ltd.</p>	<p>A 21-acre site adjacent to former auto service station and chainsaw service center operations. Petroleum hydrocarbon and chlorinated solvent contamination in groundwater, sourced from underground and aboveground storage tanks releases on the adjacent site, has migrated onto the subject property. PD intends to redevelop the property as an apartment complex.</p>
<p>MCGILL PROPERTY 5860, 5862, 5864 & 5866 Yadkin Road Fayetteville, Cumberland County PD: Yadkin Road Land Co., LLC</p>	<p>The Brownfields Property is located at 5860, 5862, 5864 and 5866 Yadkin Road in Fayetteville, Cumberland County, North Carolina. Prospective Developer plans to redevelop it for rental storage, office and retail use, and possibly other commercial use if approved by DENR. The Brownfields Property was used by various automotive repair businesses from approximately 1973 until 2010.</p>

<p>MERCHANDISE MART 2500 E. Independence Blvd. Charlotte, Mecklenburg Co. PD: The Park Ministries, Inc.</p>	<p>The Brownfields Property comprises approximately 34 acres and is located at 2500 Independence Boulevard (the surrounding streets are East Independence Boulevard, Colonnade Drive, Briar Creek Road and Madeleine Avenue) in Charlotte, Mecklenburg County, North Carolina. Prospective Developer has committed itself to redevelopment for no uses other than as a religious center that would be known as “The Park.” The Park would be used for a religious center, office, restaurant, retail and wholesale purposes, a conference/ exhibition center, trade shows, educational/training programs and charity events.</p>
<p>MIDCAL ALUMINUM 4933 Brookshire Blvd. Charlotte, Mecklenburg Co. PD: G3 Enterprises, Inc.</p>	<p>The Brownfields Property is located at 4933 Brookshire Boulevard, Charlotte, Mecklenburg County, North Carolina and carries tax parcel identification number 03907111. Prospective Developer, its former owner, has sold it to a North Carolina general partnership, the Waltham Group, for use as a recycling facility. Groundwater is contaminated at the Brownfields Property due, on information and belief, to past activities at surrounding properties.</p>
<p>MIDTOWN MALL 401 South Independence Blvd. Charlotte, Mecklenburg Co. PD: Midtown Redevelopment</p>	<p>The Brownfields Property consists of two (2) parcels located at 401 South Independence Boulevard and 431 South Kings Drive, Charlotte, North Carolina; they bear Mecklenburg County tax parcel identification numbers 12522701 and 12522801, respectively. The Brownfields Property comprises approximately 10.3 acres and is the site of the former Midtown Square Mall. Prospective Developer intends to effect mixed-use redevelopment of the Brownfields Property that may include commercial, retail, office, residential and institutional uses, as well as parking structures and open space. Groundwater and soil are contaminated at the Brownfields Property due to past activities.</p>
<p>MILL BUILDING AT ERWIN SQUARE 2024 West Main Street Durham, Durham Co. DP: CPGPI Erwin Mill, LLC</p>	<p>The Brownfields Property comprises 4.3863 acres located at 2024 West Main St. in Durham, North Carolina having Durham County Parcel number 104050 and PIN number 0822-18-21-7804. The Property includes the original building of the former Erwin Mill textile mill which has subsequently been used for office and residential purposes. The Prospective Developer has committed itself to redevelopment of the Property for no uses other than mixed-use to include high-density residential, hotel, post-secondary education, retail and office purposes.</p>

<p>MITCHELL'S FORMAL WEAR 115-145 Scaleybark Road Charlotte, Mecklenburg Co. PD: Crosland Centre Associates</p>	<p>The Brownfields Property is located at 115-145 Scaleybark Road in Charlotte, Mecklenburg County, North Carolina. The affected parcels are, for tax purposes, #14905468B and a portion of #14905468A. Redevelopment of the site in conformance with the Land Use Restrictions below is planned. Groundwater and soil are contaminated at the Brownfields Property due, on information and belief, to dry-cleaning conducted by former occupant Mitchell's Formal Wear. In 2002, the site was certified for entry into DENR's Dry-Cleaning Solvent Clean-up Act Program and assigned number 060-005.</p>
<p>MODEL LINEN PD: QUB Studios 120 West Lewis Street Greensboro, Guilford Co. PD: QUB Studios</p>	<p>The site was used to manufacture wood stoves and has low levels of chlorinated solvents in the groundwater. The site will be redeveloped as a photographic studio and other commercial space.</p>
<p>MOORESVILLE CROSSROADS 465, 479, 481 & 485 River Highway Mooresville, Iredell County PD: MPG Mooresville, LLC</p>	<p>The Brownfields Property is located at 465, 479, 481 and 485 River Highway, Mooresville, NC. The property is comprised of approximately 6.9 acres composed of a coal combustion by-products structural fill. MPG Mooresville LLC proposes to use the property for retail, office, restaurant and possibly other commercial purposes.</p>
<p>MTE HYDRAULICS 105 Chickasaw Road (intersection of Chickasaw Rd. & Pearson's Turnpike (state Hwy 2663) Gastonia, Gaston County PD: Liberty Land, LLC</p>	<p>A 9.76-acre parcel in Gastonia. The site has known soil and groundwater impacts from historical site operations, which included the manufacturing of hydraulic components and brake pads and other uses. Prospective Developer intends to upgrade the property for manufacturing purposes and additional commercial use.</p>
<p>NACCO 2040 Morganton Boulevard Lenoir, Caldwell County PD: SV Lim Holdings, LLC</p>	<p>The Brownfields Property is located at 2040 Morganton Boulevard in Lenoir, Caldwell County, North Carolina. It comprises 27.55 acres and is the site of a facility that manufactured masts, hydraulic cylinders for forklifts, and electric motors there from 1978 until 2004. Prospective Developer purchased the Brownfields Property in 2005 and has used it for warehousing. Prospective Developer intends to sell the tract for retail, office, light manufacturing, warehouse, roadway and parking redevelopment, and additional commercial uses with prior written DENR approval.</p>
<p>NATIONAL TEXTILES 100 Reep Drive Morganton, Burke Co. PD: Reep Drive, LLC</p>	<p>This former textile plant has contaminated soil and groundwater, likely from previous operations which included two dry-cleaning machines to clean textiles with perchloroethylene. The approximately 32-acre site will be redeveloped by the PD as a furniture manufacturing facility.</p>

<p>N.C. EQUIPMENT COMPANY 3101 Hillsborough Street Raleigh, Wake Co. PD: Rose Mary Development, LLC</p>	<p>The property consists of approximately 2.04 acres at 3101 Hillsborough Street, Raleigh, Wake County, North Carolina. The land was first developed in 1949 as the headquarters of North Carolina Equipment Company, a heavy equipment sales and service business. The site has been idle since December 2001. Groundwater contamination is present on the Brownfields Property, attributable, on information and belief, to past activities on or in the vicinity of the tract. Prospective Developer intends to redevelop the site for office space and commercial uses, including retail sales.</p>
<p>N.C. EQUIPMENT CO. II 5 & 7 Rosemary Street and 3112 Stanhope Ave. Raleigh, Wake Co. PD: Rose Mary Development, LLC</p>	<p>The Property consists of 0.99 acres located at 5 & 7 Rosemary Street and 3112 Stanhope Ave. in Raleigh, Wake County. The land had been in residential use since the mid-1930s. Groundwater contamination exists at the property, attributable to past commercial activities that have occurred in the vicinity of the site. PD intends to redevelop the property for use exclusively as a parking lot that will support the redevelopment that has taken place on the adjoining former N.C. Equipment Co. brownfields property.</p>

<p>NEWMAN MACHINE 801A Spring Garden Street, 702 Fulton Street, 507 Houston Street, Greensboro, Guilford County PD: University Residences – Greensboro, LLC</p>	<p>The Brownfields Property consists of approximately 10.22 acres that include three (3) parcels bearing Guilford County Tax PIN numbers 7864331862 (Lot 1), 7864336768 (Lot 2) and 7864346003 (Lot 3). Respectively, the parcels' addresses are 801A Spring Garden Street, 702 Fulton Street and 507 Houston Street, Greensboro, Guilford County, North Carolina. The Brownfields Property was initially developed for residential use in the late 1800s. Newman Machine Company, a manufacturer of woodworking equipment for the pulp and paper industry, began operations at the site in 1906. That company ceased operations in 2008. Soil and groundwater contamination, believed to have resulted from past operations and activities at the Property, exist at the Brownfields Property. Prospective Developer razed all buildings at the Brownfields Property and has committed itself to redevelopment of the site for no uses other than as a multi-family apartment complex.</p>
<p>NORTH COLLEGE STREET PROPERTY 900 N. College Street Charlotte, Mecklenburg Co. PD: SilverGirls, LLC</p>	<p>The Property comprises approximately 0.85 acres. It is bordered to the north by the former location of a Holiday Inn motel, to the south and southeast by railroad tracks and the site of the former Consolidated Metals facility (the subject of N.C. Brownfields Project No. 07009-03-60, now in residential use), to the east by land in commercial use, and to the west by Brookshire Freeway/Interstate I-277. From the 1900s through the 1960s, the Property's only use was as the location of a single family residence; the southern portion of the Property also formerly contained a railroad right of way that was present as early as 1911. Since the mid-1960s, the site has been idle and vacant, other than a large billboard that has been present since the 1990s. Prospective Developer's redevelopment plans for the site include residential, retail and other commercial use.</p>
<p>NORTH TRYON COMMERCIAL 2205-2221 & 2229 N. Tryon St. Charlotte, Mecklenburg Co. PD: MV Tryon II, LLC</p>	<p>The Brownfields Property includes six parcels, comprising approximately 6 acres in Charlotte, Mecklenburg County. MV Tryon II, LLC plans to redevelop for residential, office, industrial, retail and, if DENR issues prior written approval, other commercial uses. The property is currently in use for warehousing. The property is surrounded by land in commercial, retail and residential use. The property is part of a larger redevelopment project in the area, which includes office, retail, residential and industrial use. Soil, groundwater and soil vapor gas on the property are contaminated.</p>

<p>NU-TREAD TIRE 545 Foster Street, Durham, Durham County PD: Durham CREDO-1, LLC</p>	<p>The Brownfields Property is located at 545 Foster Street, Durham, North Carolina. The property comprises approximately 0.37 acres and is the former site of one (1) 1,600-square foot building with ground floor and walk-in basement levels. The building was demolished in 2007 and 2008. The site was used for automotive maintenance and repair purposes from the mid-1940s to 2006. The most recent occupant of the property was Nu-Tread Tire, which conducted heavy duty truck tire services at the site. Prospective Developer proposes to redevelop the property for high-density residential, office and retail use, with associated parking.</p>
<p>OLD PINEVILLE ROAD 4928 Old Pineville Road Charlotte, Mecklenburg Co. PD: John H. Huson</p>	<p>The property consist of a parcel at 4928 Old Pineville Road and a parcel at 649 Scholtz Road, both in Charlotte, Mecklenburg County, North Carolina; carrying tax parcel identification numbers 16907608 and 16907607, respectively; and comprising a total of approximately 3.5 acres. The parcels are surrounded by land in commercial and industrial use. A business known as Queen City Boiler formerly operated on the 4928 Old Pineville Road parcel for approximately 40 years, beginning in 1965. The 649 Scholtz Road parcel is cleared but undeveloped. Prospective Developer intends to redevelop the two parcels for mixed office, retail, residential and, with prior written DENR approval, other commercial use.</p>
<p>THE OLD WOOD 99 Riverside Drive Asheville, Buncombe County PD: The Old Wood Company</p>	<p>The Brownfields Property is located at 99 Riverside Drive, Asheville, Buncombe County, North Carolina and comprises 0.49 acres. Prospective Developer intends to redevelop it for the manufacture of furniture and other wood products from reclaimed wood products, and for a retail furniture showroom, offices, parking, and access drives. The Brownfields Property was residential in nature until approximately 1913, when it became vacant. Its next known use was by "Bedding and Furniture Supplies" in the 1960s, and it was most recently used as an appliance warehouse from 1982 to 2010.</p>
<p>OXFORD PRINTING 8 Industry Drive Oxford, Granville Co. PD: FHO Partners, LLC</p>	<p>Former textile printing and finishing facility with VOC contamination in groundwater. PD has conducted remediation of floor drain contents. PD intends to redevelop the site for industrial/distribution use.</p>
<p>PACE CONSERVATION CENTER Freedom Park Road & Lennoxville Road Beaufort, Carteret County PD: Buried Treasures, Inc.</p>	<p>The Brownfields Property is located at Freedom Park Road and Lennoxville Road in Beaufort, Carteret County, North Carolina. It consists of 10.01 acres and is the former site of the Town of Beaufort Refuse Dump. Prospective Developer intends to create a natural area, through the use of a conservation easement, that will preserve and foster the return of the natural flora and fauna of the area.</p>

<p>PADGETTE LANE PROPERTY 105 Padgette Lane Carrboro, Orange County PD: Downtown Urban Ventures, LLC</p>	<p>The property is located at 105 Padgette Lane, Carrboro, Orange County, North Carolina. It consists of 0.97 acres intended by Prospective Developer for planned mixed residential and commercial use. The site previously was the location of an automobile salvage lot and repair shop, Butler's Garage. The site's soil and groundwater are contaminated from past site operations.</p>
<p>PARKER HANNIFIN 12415 Capital Boulevard Wake Forest, Wake Co. PD: St. Ives 220 Commercial, LLC</p>	<p>A 33-acre former air control devices manufacturing facility with known Trichloroethene contamination in soil and groundwater resulting from former wastewater treatment operations. PD intends to redevelop the site in mixed commercial, retail, and office space uses. Responsible party is currently undertaking assessment and remediation within RCRA and N.C. Hazardous Waste Section oversight.</p>
<p>PATTERSON MILL 900 Jefferson Street Roanoke Rapids, Halifax Co. PD: Roanoke Rapids Graded School District</p>	<p>The Brownfields Property is a 23-acre parcel located adjacent to Roanoke Rapids High School at 900 Jefferson Street in Roanoke Rapids. It was formerly operated as a textile mill under a series of owners, but is commonly referred to as the Patterson Mill site and is on the DENR Inactive Hazardous Sites Branch (IHSB) list of inactive sites (NONCD0002855). The Roanoke Rapids Graded School District has demonstrated a desire to sell the Property for redevelopment as outdoor recreational fields, open space, picnic areas, greenway trails, restroom and concession facilities, restaurant and retail space, and associated parking areas for public use.</p>
<p>PELTON & CRANE PLANT 200 Clanton Road Charlotte, Mecklenburg County PD: Clanton Partners I, LLC</p>	<p>The Property (Tax Parcel Identification Number is 14702106) is located at 200 Clanton Road, Charlotte, North Carolina and comprises approximately 6 acres. The Pelton & Crane Company, a division of Siemens Medical Solutions, USA, Inc., manufactured products for the dental industry on the Brownfields Property from 1955 until 1992. Soil and groundwater at the site are impacted by chlorinated solvents. Prospective Developer has committed itself to redevelopment of the Brownfields Property for no uses other than for warehouse and, with prior written DENR approval, other commercial purposes.</p>
<p>PIEDMONT TRIAD RESEARCH PARK #1 CAMEL CITY CLEANERS/MGP 401 East Third Street Winston-Salem, Forsyth Co. PD: PTRP Holdings, LLC</p>	<p>The Property consists of approximately 1.27 acres located at 415 East Third Street in Winston-Salem, Forsyth County, North Carolina. The site was most recently used as a dry-cleaning facility and was originally developed in the late 1800s as a manufactured gas plant. Soil and groundwater contamination are present on the site due to past activities conducted on or in the vicinity of the site. In conjunction with the development of the planned Piedmont Triad Research Park, Wake Forest University Health Sciences, through BRF-A1a, LLC, intends to redevelop the subject property as a bio-technology research and office facility.</p>

<p>PIEDMONT TRIAD RESEARCH PARK #2 Various properties east and south of downtown Winston-Salem Winston-Salem, Forsythe County PD: PTRP Holdings, LLC</p>	<p>The Brownfields Property comprises approximately 49.02 acres in Winston-Salem. The land, initially used residentially and then industrially, has been in use for more than 100 years. Site soil and groundwater are contaminated from past operations as a R. J. Reynolds Tobacco Company cigarette manufacturing facility. Prospective Developer intends to redevelop the Brownfields Property with bio-technology research facilities, offices, retail outlets, public open areas, high-density residences, performance/concert halls, hotels, community centers, swimming pools, parking and schools.</p>
<p>PIEDMONT TRIAD RESEARCH PARK – SOUTHERN DISTRICT Various Addresses south of I-40 Business Winston-Salem, Forsyth Co. PD: PTRP Holdings, LLC</p>	<p>The Brownfields Property consists of 40.637 acres in Winston-Salem, Forsyth County, North Carolina and is bordered by U.S. Interstate 40 “Business,” Stadium Drive, U.S. Highway 52 and Salem Avenue. It has been developed for more than 100 years and has been put to various uses, including bulk oil distribution, lumber and building materials storage, ready-mix concrete plant, furniture manufacturing, warehousing, fire extinguisher sales, linen-washing service, electrical component assembly, food and beverage distribution, vehicle parking, ceramic tile sales and service, and single-family residences. Soil and groundwater contamination exist at the Brownfields Property as a result of historical operations conducted there. In conjunction with the development of the planned Piedmont Triad Research Park, PTRP Holdings, LLC intends to redevelop the site for one or more of the following uses: bio-technology research facilities, office, retail outlets, public open areas, high-density residential, performance/concert hall, hotel, community centers, swimming pool, vehicle parking and schools.</p>
<p>PILOT MILLS 1121 Haynes Street Raleigh, Wake Co. PD: Capital Way, Inc, & Hedgehog Holdings, LLC</p>	<p>Abandoned, condemned turn-of-the-century textile mill in Downtown Raleigh redeveloped into office space and preserved on the National Register of Historic Places. Land use restrictions for chlorinated solvent in groundwater and capping of mercury in soils.</p>
<p>PLANTERS OIL MILL 1006 Cokey Road Rocky Mount, Edgecombe County PD: City of Rocky Mount</p>	<p>The Brownfields Property comprises 7.3 acres and is located at 1006 Cokey Road, Rocky Mount in Edgecombe County, North Carolina. Prospective Developer has committed itself to redevelopment of the Brownfields Property for no uses other than multi-unit residential, associated parking and community garden purposes, and potentially for light industrial and other commercial use in the long term. The site was originally developed in the early 1900s and hosted cottonseed oil, soybean oil and fertilizer production operations at various times until 1983, when a fire destroyed the facilities.</p>

<p>POND ROAD LANDFILL 79 Pond Rd Asheville, Buncombe County PD: Sonia Gribble</p>	<p>The Brownfields Property comprises 4.72 acres in Asheville, Buncombe County, North Carolina. Prospective Developer has committed itself to limit redevelopment of the Brownfields Property to updating of existing structures and operation of a resource recovery facility for recycling of metals and recovery of Freon. The Brownfields Property's soil and groundwater are contaminated due, on information and belief, to previous county landfill and auto salvage operations there.</p>
<p>PPD HEADQUARTERS SW corner of Harnett and Front Streets Wilmington, New Hanover County PD: River Ventures, LLC</p>	<p>Approximately 8-acre site is a small portion of the ~ 40-acre Almont Shipping site that will all eventually be redeveloped once Almont moves to the Wilmington Port Authority. Almont has been a dealer in bulk commodities (saltcake, urea, potash, phosphate, etc.). The site as a whole has been in business for almost a hundred years, with warehouses currently on this property being built in the late 1970s. Prior to that time it was operated as a fuel depot with large ASTs located on the site. Contamination from the adjacent CSX property spill of 2.2 million gallons of diesel in 1982 is suspected, although a Phase II assessment is currently underway. PD intends to demolish the buildings on site in order to construct a 400,000 ft² office building.</p>
<p>PROCTOR PROPERTY 4084 NC Highway 186 Seaport, Northampton County PD: North Carolina Biofuels, LLC</p>	<p>The Brownfields Property comprises 7.10 acres and is located at 4084 N.C. Highway 186, Seaport, Northampton County, North Carolina. Prospective Developer proposes to redevelop this former site of an agricultural chemical storage, mixing and distribution facility for the purpose of manufacturing biofuel from soy bean oil.</p>
<p>PURSER DRIVE-GARNER 816 & 818 Purser Drive Garner, Wake Co. PD: WLA Garner Land, LLC</p>	<p>The Brownfields Property is 1.981 acres and is located at 816 and 818 Purser Drive, Garner, Wake County, North Carolina. It is comprised of two parcels with tax parcel identification numbers 1701166307 and 1701163369. The Prospective Developer has developed the Brownfields Property into a parking lot for a retail shopping center. Prior to the Prospective Developer's purchase and redevelopment of the Brownfields Property, two light industrial/commercial businesses were present: Fowler's Trucking (816 Purser Drive) and C&M Electric (818 Purser Drive).</p>
<p>QUALITY METAL PRODUCTS 1111 Oates Road Gastonia, Gaston Co. PD: Wede Corporation, LLC</p>	<p>This 11-acre site contains an abandoned facility of 48,000 square feet formerly used as for metal fabrication. Parts cleaning activities resulted in solvent impacts to site soil and groundwater. PD intends to refurbish the facility for metal fabrication utilizing high-tech, non-contaminating methods.</p>

<p>R. W. MCCOLLUM 107 W. Meadowview Rd. Greensboro, Guilford Co. PD: R.W. Holding, LLC</p>	<p>The Brownfields Property consists of approximately 6.5 acres at 107 West Meadowview Road in Greensboro, Guilford County, North Carolina. Since 1960, R.W. McCollum Company, Inc. has engaged in cleaning, repair and maintenance of tanker trailers used for the transportation of bulk liquids on the Brownfields Property. Groundwater contamination exists at the Brownfields Property due, on information and belief, to previous site activities. Prospective Developer has committed itself to redevelop the Brownfields Property as a tanker trailer cleaning and repair facility, a trucking dispatch terminal, office space and, possibly, truck wash and diesel repair facilities, or other commercial uses if DENR approves same.</p>
<p>RACHEL STREET 2404 Rachel St. Charlotte, Mecklenburg Co. PD: Charlotte-Mecklenburg Housing Partnership</p>	<p>The Brownfields Property comprises approximately 0.516 acres, the address of which is 2404 Rachel Street, Charlotte, NC. Prospective Developer plans to redevelop it for residential, recreational and open space uses. The site was formerly in commercial use and is surrounded by land in residential use. Groundwater and soil on the Brownfields Property are contaminated.</p>
<p>RADIATOR SPECIALTY Wilkinson Blvd. & Suttle St. Charlotte, Mecklenburg Co. PD: Suttle Avenue, LLC</p>	<p>The Brownfields Property includes six (6) parcels, comprising approximately 27 acres of the former Radiator Specialty Facility, in Charlotte, Mecklenburg County, North Carolina, which Prospective Developer plans to redevelop for no uses other than mixed residential, commercial, office, retail, medical, institutional and school purposes.</p>
<p>RALEIGH MGP 600 West Cabarrus St. Raleigh, Wake County PD: Clancy & Theys Construction Co.</p>	<p>The Brownfields Property is a portion of the former site of the "Number 2" manufactured gas plant at 600 West Cabarrus Street, Raleigh, Wake County, North Carolina. It comprises 4.08 acres of a 4.76-acre parcel (tax identification #1703475257). Prospective Developer proposes reuse for light industrial (including without limitation construction company offices and warehouses), other office and retail purposes, as well as for parking areas, service drives, a city street extension and high-density residential purposes, as well as any additional commercial uses DENR approves in writing in advance.</p>
<p>RBC TOWER PARKING DECK 331 S. Wilmington St. Raleigh, Wake Co. PD: Highwoods 301 Fayetteville Street, LLC</p>	<p>The Brownfields Property comprises approximately 1.2 acres and is located at 331 South Wilmington Street, Raleigh, Wake County, North Carolina. Historic uses of the property since the late 1800s have included various commercial, retail and light manufacturing activities. Soil and groundwater contamination are present on the Brownfields Property due, on information and belief, to past activities conducted on or in the vicinity of the site. The site became idle, and all structures had been demolished, prior to August 2008. Subsequent to acquiring the Brownfields Property, Prospective Developer constructed an eight-story, pre-cast concrete parking deck containing approximately 1,240 spaces.</p>

<p>REA ASPHALT PLANT 2701 Youngblood Street Charlotte, Mecklenburg Co. PD: South End Silos, LLC</p>	<p>The Brownfields Property consists of three (3) parcels located at 2701 Youngblood Street in Charlotte. The Property comprises 8.551 acres and is the site of the former Rea Construction Asphalt Plant. Prospective Developer intends to effect mixed use redevelopment of the Property that may include commercial, office, retail and residential uses. Groundwater and soil are contaminated at the Brownfields Property due to past activities.</p>
<p>REA ASPHALT PLANT ADDITION 2701 Youngblood Street Charlotte, Mecklenburg Co. PD: South End Silos, LLC</p>	<p>Prospective Developer added 0.768 acres of real property that had been a right-of-way along Griffith Road adjacent to the original Rea Asphalt Plant Property. The additional acres are impacted from past site activities, and the proposed uses are the same as those for the original project.</p>
<p>REDMAN HOMES Redman Road Mebane, Orange Co. PD: Barber & Ross Co.</p>	<p>Former mobile home manufacturing facility with metals and solvent contamination in soil and groundwater. PD has performed drum removal and soil remediation activities. PD intends to redevelop the site as a manufacturing facility to produce windows and doors.</p>
<p>REEVES SITE 8900 Research Drive Charlotte, Mecklenburg County PD: Linda Wolfe, Paul Ferrigan</p>	<p>Approximately 20-acre parcel that was historically the former Reeves Brother Facility that operated as a textile research and development laboratory. The site has known groundwater impacts from chlorinated solvents. PD intends to redevelop the property for commercial and light industrial uses.</p>
<p>RETREAT AT RALEIGH 5801 Hillsborough Street Raleigh, Wake County PD: Retreat At Raleigh, LLLC</p>	<p>The Brownfields Property comprises approximately 22.143 acres in Raleigh, Wake County, North Carolina and is located at 5801 Hillsborough Street. A plastering business and brass and copper polishing business formerly operated at the site. Residences and associated outbuildings currently occupy the Property. Chlorinated solvents have been detected in the Brownfields Property's groundwater. Prospective Developer plans to redevelop the site for high-density residential use.</p>
<p>REVENTURE EAST Mount Holly Road Charlotte, Mecklenburg County PD: ReVenture Park Investments I, LLC</p>	<p>The Brownfields Property is located on Belmeade Drive in Charlotte, Mecklenburg County and comprises approximately 305 acres consisting of parcels with tax identification numbers 05306101, 05305103, 05328105, 05306117, 05306118 and 05306119. The Property is primarily undeveloped woodlands or former agricultural lands. A portion of the Property has been used by Charlotte Mecklenburg Utilities to construct, operate and dismantle a pump station and later construct a lift station which remains in operation. A former wastewater effluent canal from the adjacent Clariant Mount Holly East plant transects the southwest portion of the Property. ReVenture Park Investments I, LLC proposes to make no use of the Property other than the following purposes: manufacturing, power production (including thermal energy generation), alternative fuels production, recycling, research and</p>

	development, environmental education, retail, agriculture, data center use, greenhouses, vocational and training facilities, showroom facilities, wildlife habitat enhancement, composting, utilities, recreation, hotels, land conservation, wastewater treatment and/or management, waste stabilization and management, materials management, warehousing and distribution and, if DENR issues prior written approval, additional commercial uses, as well as all support and maintenance activities associated with each use.
REVENTURE WEST Mount Holly Road; Belmead Charlotte, Mecklenburg County PD: ReVenture Park Investments I, LLC	The Brownfields Property is located in Charlotte, Mecklenburg County. The Brownfields Property comprises approximately 329 acres. The Prospective Developer has committed itself to redevelopment of it for no uses other than those described in Land Use Restriction 1, below. The Brownfields Property is bordered to the north by North Carolina Highway 27, beyond which lies the Catawba River; to the south by undeveloped land and Long Creek, beyond which lies undeveloped wooded land; to the east by Long Creek, Belmeade Road and utility rights of way, beyond which lies a mix of agricultural, residential, and light commercial properties; and to the west by industrial properties and the Catawba River, beyond which lies the City of Mount Holly.
RUSAK PROPERTY 3331 Griffith Street Charlotte, Mecklenburg Co. PD: CharMeck Board of Education	A 1.21-acre parcel that is adjacent to the Marie G. Davis Middle School. The site is contaminated from historical operations as a metal plating facility. The PD intends to incorporate the adjacent parcels into the new middle school construction. The brownfields parcel will be the plaza entrance.
SALEM UNIFORM 4015 N. Cherry Street Winston-Salem, Forsyth County PD: Winston Weaver Co. Inc.	2.53-acre site that has been vacant for many years. Was leased out from 1967-83 to Salem Uniform and from 1983-86 to Cintus Corporation which purchased the assets for Salem Uniform. During a Limited Site Assessment for petroleum USTs, high levels of PCE were discovered, probably from dry cleaning solvents. PD is currently leasing space, but would like to improve it for use for fertilizer storage and other commercial usage.
SANFORD WWTP 1351 Douglas Drive Sanford, Lee Co. PD: S. Wornnom & G. Perkins	Former municipal wastewater treatment plant site with petroleum impacted sewer sludge and metals impacts in site soils and low concentrations of volatile and semi-volatile compounds in groundwater. PD intends to redevelop the property in commercial use, including restaurant, retail space and a multi-screen movie theater.
SCHLAGE LOCK FACILITY 3551 North Wesleyan Blvd. Rocky Mount, Nash County PD: Community Resource Exchange	49.15 acre/196,000 square foot former manufacturing facility for lock/doorknob plating and assembly that used PCE as a degreasing solvent. Working with the Hazardous Waste Section as site is a RCRA TSD post-closure facility with active voluntary GW remediation system (Ingersoll-Rand is RP). Chlorinated solvents (PCE, TCE, 1,2-DCE,

	toluene and acetone are main constituents of concern in both soil and groundwater. PD is non-profit organization needing a loan in order to make improvements to former manufacturing facility, in order to provide tenant space for non-profit organizations and possible outparcels for commercial retail businesses.
SCHRADER-BRIDGEPORT 1609 Airport Road Monroe, Union Co. PD: Carolina Classifieds.com, LLC	The Brownfields Property is located at 1609 Airport Road, Monroe, Union County, North Carolina. It comprises approximately 10 acres and contains a manufacturing structure of approximately 108,000 square feet. The Brownfields Property was developed by Schrader Automotive, Inc. (now Schrader-Bridgeport International, Inc.) in 1979. That firm manufactured tire valve stems and associated accessories at the Brownfields Property, including core components and inserts, from 1979 until 2004. Groundwater, soil and indoor air at the Brownfields Property are contaminated. Air sparging and soil vapor extraction are being conducted to remediate the groundwater and soil. Prospective Developer intends to redevelop the Brownfields Property for commercial and light industrial use by refitting the manufacturing structure for use in its printing and distribution business.
SCOTLAND MEMORIAL HOSPITAL 600 McLean Street Laurinburg, Scotland County PD: City of Laurinburg	The Brownfields Property consists of 4.31 acres and comprises a city block bordered to the north by McLean Street, to the south by West Covington Street, to the east by King Street, and to the west by Malcolm Street, in Laurinburg, Scotland County, North Carolina. The surrounding properties include a city park, a nursing facility, a school, and land in residential and institutional use. The Prospective Developer has committed itself to redevelopment of the Brownfields Property for no uses other than institutional and recreational purposes.
SHULER PROPERTY US 23/74 & Hyatt Creek Road Waynesville, Haywood Co. PD: Waynesville Commons Retail Assoc, LLC	The property comprises 4.494-acres and was formerly a Drive-In Movie Theater, after which the property was used to dump construction and demolition debris. The PD has committed itself to redevelopment for no uses other than a roadway that provides access to the Brownfields Property to the west, and for restaurants, banks, retail shops, gas station uses, other commercial uses with prior written DENR approval, and offices, plus contiguous accessory uses such as parking areas and service drives.
SINGER COMPANY 357 Amilite Way Chocowinity, Beaufort Co. PD: DMB NC 2, LLC	Abandoned rural manufacturing facility with lead and phthalate contamination in soil and groundwater. The brownfields agreement provides for partial site remediation. PD intends to redevelop the site with mixed retail and light industrial uses.

<p>SMITH METAL & IRON 725 W. 4th Street Charlotte, Mecklenburg Co. PD: City of Charlotte</p>	<p>Former site of a scrap metal yard and of a waste cell created for the temporary disposal of impacted soil removed during the construction of the adjoining Carolina Panther's practice field. The waste in the cell has been removed, and minor chlorinated solvent impacts remain in site groundwater. PD intends to redevelop the site in high density residential with additional office, entertainment, and retail potential.</p>
<p>SMITH PROPERTY 309 Campbell Street Shelby, Cleveland Co. PD: Cleveland County</p>	<p>Project involves the redevelopment of an area occupied by seven underused and dilapidated residential homes with petroleum hydrocarbon and chlorinated solvent contamination in groundwater. PD has the support of local residents to reuse the site as a parking lot serving the Cleveland County Offices.</p>
<p>SONOCO FLEXIBLE PACKAGING FACILITY 2203 Hawkins Street Charlotte, Mecklenburg Co. PD: Harris Murr & Vermillion, LLC</p>	<p>It is believed that groundwater and soil are contaminated at the Brownfields Property due to historical activities. The PD intends to redevelop the property for commercial (including retail and office), residential and ancillary purposes.</p>
<p>SOUTH END TRANSIT DISTRICT Various Dunavant and Hawkins Street, South Boulevard and Remount Road Addresses Charlotte, Mecklenburg Co. PD: Cherokee Investment Partners IV, LLC</p>	<p>The Brownfields Property consists of parcels comprising approximately 22.41 acres in Charlotte, Mecklenburg County, North Carolina with the following addresses: 2205, 2303, 2309, 2321, 2401, 2405, 2415/2418 and 2517 Dunavant Street; 2235 Hawkins Street; 2300, 2316, 2400, 2500 and 2508/2522 South Boulevard; and 140 Remount Road. The parcels have been in use since as early as the late 1930s for residential and various commercial, retail and light industrial uses. Soil and groundwater contamination exist on the Brownfields Property as a result of these past uses. Prospective Developer intends to redevelop the Brownfields Property for mixed commercial, high density residential and recreational use, with associated parking and landscaped areas.</p>
<p>SOUTH JOHN STREET 714 South John Street Goldsboro, Wayne Co. PD: City of Goldsboro</p>	<p>The Brownfields Property is located at 714 South John Street in Goldsboro, Wayne County, North Carolina and is 5.22 acres in size. The property was the former location of Wayne Agricultural Works which operated a foundry and electroplating facility and General Industries which manufactured tanks and oil/water separators on the site. The property has been unused except for storage since 1996. Groundwater at the site is contaminated with volatile organic compounds, semi-volatile organic compounds and metals from historical operation at the site. Soils at the site are contaminated with semi-volatile organic compounds and metals from historical operations at the site. Prospective Developer intends to redevelop the site for commercial use, open space, parking, and/or expansion of the adjacent cemetery.</p>

<p>SOUTH TRYON STREET 2036 S. Tryon Street Charlotte, Mecklenburg Co. PD: Citiline, LLC</p>	<p>A 2.88-acre parcel near historic SouthEnd. PD intends to redevelop the property for commercial purposes such as office and showroom condominiums. Groundwater is contaminated at the property due to historical site operations as industrial/warehouse storage.</p>
<p>SOUTHERN MANUFACTURING 1000 Seaboard Street Charlotte, Mecklenburg Co. PD: Fiber Mills, LLC</p>	<p>This 9-acre site located in inner Charlotte was a former asbestos tile manufacturing facility. Asbestos was discontinued in 1986, and the facility was closed in 1999. The site has asbestos contamination in soils. Intended reuse of the site includes an outdoor amphitheater, a technical business park, or a mixed-use development with industrial, commercial, and residential uses.</p>
<p>SOUTHSIDE PROPERTIES 2208 South Boulevard #2222 Charlotte, Mecklenburg Co. PD: Atlantic Realty Partners, Inc.</p>	<p>The Property comprises approximately 4.2 acres and is the former site of operations conducted by, among others, Carolina Metal Products, LLC and Lida Manufacturing Company. Groundwater and soil are contaminated at the site due, on information and belief, to past activities. Southend Realty Partners, LLC intends to effect redevelopment of the property for residential (including hotel) purposes, and/or for office, merchandise sales space/showroom, food and beverage facility, health/personal care provider and, with prior written DENR approval, other commercial use.</p>
<p>SPATCO (Southern Pump & Tank Co.) 1680 Lowery Street Winston-Salem, Forsyth Co. PD: Dimmette Properties, LLC</p>	<p>The Brownfields Property comprises approximately 2.97 acres and is located at 1680 Lowery Street in Winston-Salem, Forsyth County, North Carolina. Decades of commercial use of the property have resulted in soil and groundwater contamination. The Prospective Developer desires to sell the subject property for industrial and commercial use, with associated office space.</p>
<p>SPECTRUM MILLS 136 Patterson Road Kings Mountain, Cleveland County PD: The Spectrum Mills, LLC</p>	<p>The Brownfields Property is located at 136 Patterson Road, Kings Mountain, Cleveland County, North Carolina. It comprises approximately 43 acres and contains an idle textile dyeing facility. Spectrum Mills, LLC proposes to use the Brownfields Property for industrial purposes, including textile dyeing, manufacturing and warehousing operations.</p>
<p>STATE FARM ROAD 660 State Farm Road Boone, Watauga Co. PD: Glen Wilde, LLC</p>	<p>Project involves the redevelopment of property occupied by a rural residence with chlorinated solvent contamination in groundwater and in a spring from an off-site source. PD intends to redevelop the site as a medical office complex.</p>
<p>STONEVILLE FURNITURE CO. 525 S. Henry Street Stoneville, Rockingham Co. PD: Community Resource Exchange</p>	<p>The site is a 22.5 acre historic furniture manufacturer that was idled in 2003. PD plans to redevelop the facility for light industrial, warehousing and flex space, thereby creating at least 200 jobs and greatly improving the tax base. The site has chlorinated solvent impacts to soil and groundwater.</p>

<p>SUN CHEMICAL 1100 Fairchild Road Winston-Salem, Forsyth PD: Warhal Properties, LLC</p>	<p>The property consists of 5.26 acres and was formerly used as an ink manufacturing facility. The property was abandoned in the 1990s. Groundwater and soil vapor at the site are contaminated with chlorinated solvents from past site operations. The property has been renovated and redeveloped for office and warehouse use and plumbing systems fabrication.</p>
<p>SUN CHEMICAL – CHARLOTTE 1701 Westinghouse Blvd. Charlotte, Mecklenburg County PD: Selwyn Property Group Investments, LLC</p>	<p>The Brownfields Property is located at is 1701 Westinghouse Boulevard, Charlotte, North Carolina and the Mecklenburg County Tax Parcel Identification Number is 20310205. SPG 1701, LLC plans to redevelop said parcel for no uses other than industrial, office, retail and, if DENR issues prior written approval, other commercial uses. The most recent property owner was Sun Chemical Corporation. Groundwater is contaminated on the Brownfields Property due to historical site operations which include ink manufacturing.</p>
<p>SWIFT ADHESIVES 9724 Industrial Drive Pineville, Mecklenburg Co. PD: Bjorn Industries, Inc.</p>	<p>The Brownfields Property comprises approximately 5.4 acres and is located at 9724 Industrial Drive in Pineville, Mecklenburg County, North Carolina. The site has historically been used for the manufacture of adhesive products. Prospective Developer intends to sell it for commercial and industrial redevelopment, as more particularly described in Land Use Restriction 1 below. The Brownfields Property’s groundwater, soil and sub-slab vapor are contaminated.</p>
<p>SYNCOT FIBERS 660 State Farm Road Boone, Watauga Co. PD: Glen Wilde, LLC</p>	<p>The Brownfields Property is located at 2459 Wilkinson Boulevard, Charlotte, NC 28208, in Mecklenburg County. The Brownfields Property consists of a two-story (plus basement) brick building containing 56,958 square feet on a 3.136 acre parcel. The site previously was the location of Syncot Fibers, which stored and processed waste cotton and synthetic filler materials to make mattress filler, mops and other products. Prior businesses that operated at the site included offices, laboratories and warehouses of companies that reportedly handled large volumes of dyes and other textile chemicals. The Brownfields Property’s soil and groundwater are contaminated.</p>
<p>SYNGENTA 9 Davis Drive Research Triangle Park Durham, Durham Co. PD: Syngenta Biotechnology, Inc.</p>	<p>The Brownfields Property comprises 50.68 acres and is located at 9 Davis Drive, Research Triangle Park in Durham, Durham County, North Carolina. The Brownfields Property was undeveloped woodland until 1967 when Hercules Inc. constructed a fiber research and development facility on the site. Hercules operated at the site until 1978 when it leased the facility to IBM for training and office use. IBM occupied the building until 2006 after which the building was vacant and unused. Groundwater and soil gas contamination exists at the Brownfields Property from past industrial uses. Prospective Developer has committed itself to the redevelopment of the Brownfields Property as an</p>

	agricultural and biotechnology research facility with associated administrative and office functions.
TAR HEEL LIFT 7055 Albert Pick Road Greensboro, Guilford Co. PD : Albert Pick, LLC	The Brownfields Property comprises approximately 7.64 acres at 7055 Albert Pick Road, Greensboro, Guilford County, North Carolina. The site was developed in 1974 as a forklift service and repair facility. Soil and groundwater contamination at the property are attributable, on information and belief, to past activities conducted there. Prospective Developer acquired the Brownfields Property on July 15, 2003, and has subsequently redeveloped it for use for a grading equipment storage facility and for office and showroom space for other commercial uses
TARTAN MARINE S. NC Hwy 177 Hamlet, Richmond Co. PD: Chair Specialist Co.	Former boat manufacturing facility with lead contamination in soil. Additional site sampling conducted by the PD has shown previous soil removal actions have left no health-based lead problems. PD intends to redevelop the site as a chair and table base manufacturing facility.
TERRELL MACHINE 3030 South Boulevard Charlotte, Mecklenburg Co. PD: SESCO Group-Carolina Bldg., LLC	Site of former textile manufacturing and gear box machining operations, property in Charlotte's South End district is being redeveloped with ground floor retail and office/residential above. Remedial actions to eliminate hot spot contamination included soil removal and groundwater pump and treat. Land use restrictions are in place to address chlorinated solvent contamination remaining in groundwater.
TEXFI INDUSTRIES – FAYETTEVILLE 601 Hoffer Dr. Fayetteville, Cumberland Co. PD: City of Fayetteville	The Brownfields Property is located at 601 Hoffer Drive in Fayetteville, Cumberland County. The property consists of two (2) recombined parcels (0438-96-4009 and 0438-95-1325) comprising approximately 79 acres. The property includes a 218,000-square foot manufacturing building that is in significant disrepair and was most recently used by Texfi Industries for textile production including finishing. The City of Fayetteville plans to redevelop the property for storage of municipal equipment and materials, utility uses, and the extension of the city's greenway trail system, and the potential site for a future combined county and municipal public safety answering point.
TOBACCO WAREHOUSE 221-223 NE Main Street Rocky Mount, Edgecombe Co. PD: City of Rocky Mount	The Brownfields Property is an assemblage of 18 contiguous parcels comprising 4.12 acres that encompass a portion of the Douglas Block Redevelopment Area, an historically African-American commercial and residential community near downtown Rocky Mount, Edgecombe County, North Carolina. The parcels are bounded to the west by N.E. Main Street and commercially developed property; to the north by Goldleaf Street; to the east by Albemarle and Atlantic Avenues; and to the south by E. Thomas Street and commercial property. The site previously was the location of large tobacco warehouse facilities, and numerous retail, medical and dental establishments. Soil and groundwater at the property are

	contaminated.
TOWN & COUNTRY RENT-A-CAR 5324 Independence Blvd. Charlotte, Mecklenburg Co. PD: SRE-North Carolina II, LLC	The property is located at 5324 East Independence Boulevard, Charlotte, Mecklenburg County, North Carolina, and comprises approximately 1.6 acres. It has previously been the site of a heating oil distribution business, a service station, an automobile repair shop, a car wash and a rental car business. Soil at the property is contaminated with gas and diesel-range organics. The site has been vacant and idle since July 2004. The Prospective Developer has committed itself to redevelopment of the property exclusively for commercial/office use, through sale of the site to a developer.
TOWN OF CARY PUBLIC WORKS 7503 Green Hope School Road Cary, Wake Co. PD: Town of Cary	The Brownfields Property is located at 7503 Green Hope School Road, Cary, NC. The Property is comprised of 12.995 acres on a portion of which pesticide contamination is known to exist. The Town of Cary plans to use the property as a Public Works facility.
TRIANGLE DRIVE PROPERTY 6009 Triangle Drive Raleigh, Wake Co. PD: Thornwood Partners, LLC	The Brownfields Property consists of approximately 2.00 acres and is located at 6009 Triangle Road in Raleigh, Wake County, North Carolina. It was first developed in 1971 and initially occupied, from 1971 until the early 1990s, by an electric motor repair company, then, until 2002, by a countertop manufacturer. Remediation of petroleum, oil & grease and PCB-impacted soil was conducted at the Brownfields Property in 1993. Analytical results of confirmatory soil samples collected after completion of soil remediation activities indicated no concentrations of contaminants in excess of soil remediation goals of the Inactive Hazardous Sites Branch of DENR's Superfund Section. Residual environmental contamination exists in groundwater at the Brownfields Property from past activities conducted thereon and/or from off-site sources. Prospective Developer has committed itself to redevelopment of the Brownfields Property for no uses other than as a facility that manufactures, warehouses and sells stone, wood and solid surface countertops.
UNION CARBIDE 5400 Hovis Road Charlotte, Mecklenburg County PD: CSX Transportation, Inc.	The Brownfields Property comprises approximately 17.65 acres in Charlotte, Mecklenburg County, North Carolina and is located at 5400 Hovis Road. It is also known as the former Union Carbide Battery Recycling Site. Chlorinated solvents and metals have primarily been detected in the Brownfields Property's groundwater, and Polycyclic Aromatic Hydrocarbons and metals have been documented in the soil. Prospective Developer plans to develop a parking and storage facility to expand its railroad operations adjacent to the site.
UNIVERSAL STAINLESS 10801 Nations Ford Road Charlotte, Mecklenburg Co. PD: ADH Properties, LLC	The Brownfields Property is located at 10801 Nations Ford Road, Charlotte, North Carolina (Tax Parcel Identification Number 20514109). It comprises approximately 8.132 acres and has been the site of a Universal Stainless, Inc.

	<p>facility and other industrial operations that have included textile equipment manufacturing and metal fabrication, cutting and sewing of quilts and bedspreads, and the manufacture of batting material for bedspreads and quilts. Prospective Developer intends to redevelop the acreage for office, industrial, retail, parking and, if DENR issues prior written approval, other commercial uses. The Brownfields Property is surrounded by land in commercial and industrial use.</p>
<p>UNIVERSITY NISSAN US Hwy 421 S Boone, Watauga County PD: University Nissan of Boone, NC, Inc.</p>	<p>The Brownfields Property is located at 135 Innovation Drive, Boone, Watauga County, North Carolina. It comprises 3.18 acres, it was formerly used for agricultural purposes and recreational vehicles, it has been primarily vacant since the 1990's. Prospective Developer intends to redevelop the Property for no uses other than an automobile dealership, service center, offices and, if DENR issues prior written approval, other commercial purposes.</p>
<p>VARCO-PRUDEN 1140 West Mountain Street Kernersville, Forsyth County PD: Deere-Hitachi Construction Machinery Corporation</p>	<p>The Brownfields Property is located at 1140 West Mountain Street in Kernersville, Forsyth County, North Carolina and comprises approximately 30 acres on which is present a 167,000 square foot building and a small storage building. The Property was previously used primarily for the manufacture of pre-engineered metal buildings with some later use for the manufacture of precast concrete forms. The Deere-Hitachi Construction Machinery Corporation proposes to use the property for heavy industrial, light industrial and office use.</p>
<p>V F Site 2831 Wilson Park Road Statesville, Iredell Co. PD: Statesville Partnership LLC</p>	<p>This former textile plant has chlorinated solvent contamination as a result of on-site dry-cleaning operations. The PD plans to upgrade the property for light manufacturing or distribution facility.</p>
<p>VANIER GRAPHICS 655 E. Meadow Road Eden, Rockingham Co. PD: A. C. Furniture Co.</p>	<p>Former printing facility with petroleum and chlorinated hydrocarbon contamination in the soil and solvent contamination in the groundwater. Developer intends to redevelop the site as a furniture assembly and upholstering facility.</p>

<p>VIRKLER FACILITY II 1000, 1010 and 1020 Pressley Road Charlotte, Mecklenburg Co. PD: Old Steel, LLC</p>	<p>The Brownfields Property consists of approximately four acres that contain two adjoined warehouses comprising approximately 63,000 square feet. Prospective Developer intends to redevelop the Brownfields Property for warehousing and manufacturing. Groundwater, soil, soil and sub-slab vapor, and indoor air contamination are present at the site.</p>
<p>WAL-MART – GARNER 4424 Fayetteville Road Garner, Wake Co. PD: WLA Garner Retail, LLC</p>	<p>The Brownfields Property is located at 4500 Fayetteville Road, Garner, Wake County, North Carolina and is associated with the tax parcel identification numbers 1701162830 and 1701169565. The Brownfields Property comprises approximately 21.71 acres. Prospective Developer has redeveloped the Property as a retail shopping center. The current uses include a retail shopping center with Wal-Mart as the anchor tenant, and attendant parking areas. Residential, office and hotel uses are not currently planned but may occur in the future.</p>
<p>WAL-MART #1666-04 3800-3900 Independence Blvd. Charlotte, Mecklenburg Co. PD: Wal-Mart Real Estate Business</p>	<p>The Brownfields Property comprises 18.79 acres south of East Independence Boulevard and northwest of Pierson Drive in downtown Charlotte, Mecklenburg County, North Carolina. It is the site of the former Amity Gardens shopping center. Groundwater and soil there are contaminated. Prospective Developer's plans for the Brownfields Property involve demolition of all existing structures and construction of a large retail store with associated access-ways and parking.</p>
<p>WAREHOUSE DISTRICT 110,114,120 S. West Street & 501 W. Morgan Street Raleigh, Wake County PD: Warehouse District Partners, LLC</p>	<p>The Brownfields Property consists of four parcels comprising 2.347 acres and is located in the Warehouse District area in downtown Raleigh, NC. The properties are bounded by West Morgan Street to the North, S. West Street to the East, West Hargett Street to the South and the CSX railroad to the West. Previous uses of the property included a dry cleaning operation, a Coca-Cola bottling plant, a foundry and steel work operation and a gas service station. One property (501 W. Morgan) recently operated a car wash. The remaining properties are vacant, empty warehouses some of which were owned by the Dillon Supply Company prior to the 1980's. The Property's groundwater is primarily contaminated with chlorinated solvents and Polycyclic Aromatic Hydrocarbons at concentrations above the applicable limits. In addition, Polycyclic Aromatic Hydrocarbons and metals have been documented in soil above the residential use screening levels of DENR's Inactive Hazardous Sites Branch. The Prospective Developer intends to reuse the Property for mixed use development and associated automobile parking.</p>
<p>WARREN MARKETING GROUP 626 Greenville Highway Hendersonville, Henderson Co.</p>	<p>The Brownfields Property comprises 0.35 acres in Hendersonville, Henderson County, North Carolina. Prospective Developer has committed itself to</p>

<p>PD: Carl H. Ricker, Jr.</p>	<p>redevelopment of the Brownfields Property for no uses other than a parking lot and access way for an adjacent development. The Brownfields Property's soil and groundwater is contaminated due, on information and belief, to an underground storage tank and possible use as a dry cleaning operation.</p>
<p>WATER'S OIL 697 Highway 17 So. Washington, Beaufort Co. PD: Bridge Harbor, LLC</p>	<p>The Brownfields Property is located at 697 Highway 17 South in Washington, Beaufort County, North Carolina, and comprises 5.94 acres. It consists of two (2) adjacent tracts formerly owned by Timothy G. Forrest and Julian D. Moore, respectively. The former has previously been used for various commercial and retail purposes. The latter is the former location of Waters Oil, a petroleum bulk storage distribution and unloading business. The Prospective Developer plans to redevelop the Brownfields Property for use as a marina. Soil and groundwater at the site are contaminated with constituents of petroleum products previously stored there.</p>
<p>WESLEY VILLAGE II 2000 Wesley Village Road 2000 Rushing Creek Lane Charlotte, Mecklenburg County PD: Wesley Village, LLC</p>	<p>The Brownfields Property comprises approximately 2.90 acres in Charlotte, Mecklenburg County, North Carolina, bearing Tax Identification Numbers 07104111 and 07104113; the acreage was part of the site of a former Wampler-Longacre, Inc. beef and poultry processing and packaging plant whose former address was 2000 Thrift Road. The relevant addresses are now 2000 Wesley Village Road and 2000 Rushing Creek Lane. Prospective Developer has committed itself to sale of the Brownfields Property for redevelopment as the site of no uses other than retail, wholesale, office and entertainment purposes (and other commercial purposes if DENR issues prior written approval), as well as related contiguous parking areas and service drives, and a storm water detention pond.</p>
<p>WEST END VILLAGE Properties on N. Broad, W. Fourth, W. Fifth, North Green, N. Spring Streets and Brookstown Avenue, Winston-Salem, Forsyth County PD: West End Ventures, LLC</p>	<p>The property is located in western downtown Winston-Salem, Forsyth County, North Carolina, comprises approximately eight (8) acres and is surrounded primarily by commercial development. It is bordered by West Fourth Street to the north, West Second Street to the south, North Broad Street to the east and land in commercial use to the west. The property was mainly residential until around the 1960s to 1970s, after which time most of the site underwent commercial redevelopment in the form of offices, retail businesses and service businesses. Groundwater and soil are contaminated at the property from past site uses. Prospective Developer has committed itself to redevelopment of the property for no uses other than mixed commercial and/or high-density residential purposes.</p>

<p>WEST KINGSTON West Kingston Avenue & Camden Road Charlotte, Mecklenburg County Park Kingston Investors, LLC</p>	<p>The parcels comprise approximately 1.72 acres in Charlotte, Mecklenburg County, North Carolina located on the southern side of South Tryon Street between West Park Avenue and West Kingston Avenue. The parcels are currently vacant. Groundwater contamination exists at the site, from activities occurring on or nearby the property. Park Kingston Investors, LLC intends to construct multi-family apartments on the parcels.</p>
<p>WEST MOREHEAD 1310 W. Morehead Street Charlotte, Mecklenburg Co. PD: Addison Investments, LLC</p>	<p>Former automobile repair and maintenance facility with chlorinated solvent contamination in soil and groundwater. Developer intends to redevelop the site, to include both facility renovation and new construction for use as commercial office/retail.</p>
<p>WEST MOREHEAD UPFIT 2401 West Morehead Street Charlotte, Mecklenburg County PD: D& R Properties of Charlotte, LLC</p>	<p>The Brownfields Property is located at 2401 West Morehead Street in Charlotte, Mecklenburg County (where its Tax Parcel Identification Number is 06702102), North Carolina. It comprises approximately 2.13 acres and was historically used for office and industrial purposes. The Brownfields Property is surrounded by land in commercial and industrial use. Soil and groundwater at the site are contaminated. Prospective Developer plans to redevelop the land for office, industrial, retail and, if DENR issues prior written approval, other commercial purposes.</p>
<p>WEST MORGAN APARTMENTS 919 & 925 W. Morgan Street Raleigh, Wake County PD: West Morgan, LLC</p>	<p>The Brownfields Property is located at located at 927 W. Morgan Street and 910 Tryon Hill Drive (formerly 919 & 925 West Morgan Street & 906 Tryon Hills Drive), Raleigh, Wake County. The property consists of two (2) recombined parcels (1703-29-0807 and 1703-19-8695) comprising approximately 3.5 acres. The property consisted of several vacant or underused commercial or industrial buildings formerly used for mixed residential, commercial, and industrial purposes, including single family dwellings, a bakery (Staudt Bakery & Bell Bakeries), a coal and ice plant (City Ice & Fuel Company), a heating & air conditioning sales and service facility, a metal fabrication facility, and a construction company (Bolton Construction). A former dry cleaning operation was located at the corner of W. Morgan Street and Tryon Hill Drive just east of the property. All former structures at the property were demolished. Two multi-unit residential apartment buildings with associated parking and amenities are under construction at the Property.</p>

<p>WEST PHARMACEUTICAL 2525 Rouse Road Kinston, Lenoir Co. PD: NC Global Transpark Authority</p>	<p>The Brownfields Property is located at 2525 Rouse Road in Kinston, Lenoir County, North Carolina, and is 26.5 acres in size. It is the former location of West Pharmaceutical Services, Inc., which manufactured rubber components of various medical supplies there until its facility was destroyed in 2003 by an explosion. Prospective Developer intends to incorporate the Brownfields Property into its larger facility that seeks to stimulate economic growth and job creation in the region by providing a desirable location for commercial and industrial development.</p>
<p>330 WEST TREMONT West Tremont Ave. Charlotte, Mecklenburg Co. PD: 330 West Tremont, LLC</p>	<p>The Brownfields Property comprises approximately 2.18 acres in downtown Charlotte, Mecklenburg County, North Carolina that lie on the north side of West Tremont Avenue approximately 300 feet east of its intersection with South Tryon Street (N.C. Highway 49). The land is zoned for mixed use as part of a transit-oriented district and is part of property recently occupied by a retail supplier of construction materials and a national pest-control company. It is currently occupied by a dog training/pet grooming operation. Pesticides have been detected in the Brownfields Property's groundwater and soil. Prospective Developer plans to redevelop the site for multi-story high-density residential use.</p>
<p>WEST WORTHINGTON 118 West Worthington Ave. Charlotte, Mecklenburg Co. PD: Design Center Carolinas, LLC</p>	<p>The property is comprised of approximately 0.28 acres in downtown Charlotte, generally at the intersection of West Worthington Avenue and Hawkins Street. The property's groundwater is contaminated with small concentrations of chlorinated solvents. Design Center Carolinas LLC intends to combine the subject property with the adjacent property to the east (at 100 West Worthington Avenue) and effect construction there of a 20-plus story residential building that includes office and/or retail use on the ground level.</p>
<p>WILLARD LEAD FACILITY 101 New Bern Street Charlotte, Mecklenburg Co. PD: Harris Murr & Vermillion, LLC</p>	<p>Groundwater at the approximately 4.5-acre site is contaminated with chlorinated solvents, while soil shows metals contamination. The majority of the property has been vacant since 1996, the PD intends to redevelop the property into residential, retail, and possibly other commercial uses.</p>
<p>WILLARD LEAD RIGHT-OF-WAY 185 Foster Avenue Charlotte, Mecklenburg County PD: New Bern Station Holdings, LLC</p>	<p>The Brownfields Property is located at 185 Foster Avenue, Charlotte, Mecklenburg County, North Carolina. It comprises two areas of right of way along Foster Avenue, comprising 7,635 square feet (0.1753 acres) and 8,610 square feet (0.1977 acres), that are adjacent to the former Willard Lead facility. In August 2007, under the grantor's name (HMV Hawkins, LLC) , a Notice of Brownfields Property was recorded at the Mecklenburg County Register of Deeds office, in Book 22632, Page 304 through 342, against the 4.8295-acre site of the former Willard Lead facility (101 New Bern Street). Thus, the two Brownfields Properties together comprise 5.2025 acres. The</p>

	<p>Brownfields Property is surrounded by land in commercial, industrial and residential use; soil and groundwater there are contaminated. The Prospective Developer plans to redevelop the land principally for high-density residential use, with some retail and, with DENR approval, other commercial use.</p>
<p>WILMA DYKEMAN/ASHEVILLE MGP 14 Riverside Drive Asheville, Buncombe County PD: City of Asheville</p>	<p>The Brownfields Property is located at 14 Riverside Drive, Asheville, Buncombe County, North Carolina. It comprises 0.2889 acres known as Parcel 3 and is the site of a former manufactured gas plant. The site consists of three parcels; this Agreement pertains to Parcel 3. Prospective Developer intends to redevelop the Property for no other uses office and retail purposes, and a visitor and recreation center that serves as a gateway to the Asheville River Arts District; or as open space and greenways; or for other commercial purposes, not herein specified, if DENR issues prior written approval.</p>
<p>WILMINGTON CONVENTION CENTER 525 Nutt Street Wilmington, New Hanover Co. PD: River Ventures, LLC</p>	<p>The property is a former industrial site, approximately 9.22 acres that was most recently used as a petroleum receiving facility for CSX Transportation. Soil and groundwater at the site are contaminated with metals and petroleum constituents. The PD plans to redevelop the property into a publicly-owned convention center, parking deck and open space. The redevelopment plans also include a proposed privately-owned hotel and restaurant.</p>
<p>WILSON LANDFILL US Hwy 301 South Wilson, Wilson Co. PD: Dillon Properties, LLC</p>	<p>This underused 14-acre site was formerly occupied by a wastewater treatment facility owned and operated by the City of Wilson. The site has known metals contamination in groundwater. Developer intends to redevelop in mixed commercial, warehousing, and residential uses.</p>
<p>WIX FILTRATION 2900 Northwest Blvd. Gastonia, Gaston Co. PD: Beacon #22, LLC</p>	<p>The property consists of 31.25 acres and is located at 2900 Northwest Boulevard in Gastonia, Gaston County, North Carolina. Environmental contamination exists on the site in groundwater, soil and sub-slab vapor at concentrations that preclude unrestricted use. Prospective Developer plans to redevelop the site for industrial purposes.</p>
<p>WSFX – NEW 1926 Oleander Drive Wilmington, New Hanover Co. PD: Gallan Vacation Properties, LLC</p>	<p>The Brownfields Property is located at 1926 Oleander Drive, Wilmington, North Carolina, 28403, New Hanover County, North Carolina (Parcel ID No. R05411-022-003-000). The Property consists of 2.08 acres, and is the former location of the WSFX Television Studio. The Property is currently used as office space. The Prospective Developer plans to redevelop the site for use as commercial/light industrial space.</p>
