

**Statement of Attainment of Cleanup Levels
Inactive Hazardous Sites Program**

Site Name: _____

City: _____

Street Address: _____

County: _____

Site Inactive Hazardous Sites ID#: _____

For purposes of this certification, the "site" is defined as the above-identified property and any additional area which has become contaminated as a result of hazardous substances or other non-petroleum, non-biological contaminants released at the property.

For purposes of this certification, "known and suspected areas of concern" only include those areas where some evidence of a disposal or spill has occurred such as soil staining, or other visual evidence of spillage, reported spills, known tank leaks, and other similar such data.

For purposes of this certification, "known and suspected contaminants" shall include all contaminants known to have been spilled, disposed, or otherwise discharged in a known or suspected area of concern and any degradation products of those contaminants. Where information is limited on the specific compounds discharged, laboratory analytical methods must at a minimum include GC/MS analysis for volatile and semi-volatile organic compounds, and analysis for hazardous substance list metals.

I, _____(environmental consultant), state and affirm:

I have reviewed all the available environmental records for the above-identified site and render this statement based on that review. This certification is based on a records review and is not a certification of the accuracy of the facts asserted in documents prepared by others. I have found the sampling and analytical methods to be consistent with the nature and type of contamination known or suspected to be present at the site. All suspect areas and known and suspected contaminants have been adequately investigated based on available documentation. This certification does not rely on any information I have found to be in error.

All contaminated groundwater, soil, surface water, and sediment at the site has been treated or removed so that no known hazardous substances or non-petroleum, non-biological contamination remains in excess of the current Inactive Hazardous Sites Branch (1) protection of groundwater criteria for soils, (2) direct contact remediation goals for soils for unrestricted use, and (3) remediation goals for groundwater, surface water and sediment (reference Inactive Hazardous Sites Branch Guidelines for Assessment and Cleanup of Contaminated Sites for remediation goals).

Owner/Remediating Party and Environmental Consultant Certification:

After first being duly sworn or affirmed, we [the property owner or party remediating the site and their designated environmental consultant] each separately state that: I am over the age of eighteen, I am competent to make this certification based on my own knowledge and belief, and to the best of my knowledge and belief, after thorough investigation, the information contained herein is true and accurate.

Owner or Remediating Party Signature: _____

Name of Signatory and Title: _____

Company: _____

Date: _____

STATE OF _____

COUNTY OF _____

I, _____, a Notary Public, do hereby certify that _____ personally appeared before me this day, produced proper identification in the form of _____, was duly sworn or affirmed, and declared that he or she is either the owner of the property referenced above, the party remediating the site referenced above or is a duly authorized agent of either, and that, to the best of his or her knowledge and belief, after thorough investigation, the information contained in the above certification is true and accurate, and he or she then signed this Certification in my presence.

WITNESS my hand and official seal this ____ day of _____, 20__.

Notary Public

My Commission expires: _____

[SEAL]

Environmental Consultant Signature: _____

Name of Signatory and Title: _____

Company: _____

Date: _____

STATE OF _____

COUNTY OF _____

I, _____, a Notary Public, do hereby certify that _____ personally appeared before me this day, produced proper identification in the form of _____, was duly sworn or affirmed, and declared that he or she is the duly authorized environmental consultant for the owner or remediating party referenced above and that, to the best of his or her knowledge and belief, after thorough investigation, the information contained in the above certification is true and accurate, and he or she then signed this Certification in my presence.

WITNESS my hand and official seal this ____ day of _____, 20__.
