

Public Hearing on September 20 Carolina Sunrock LLC – Burlington North Draft Air Permit

Carolina Sunrock LLC has applied for an air permit to construct and operate an asphalt and concrete batch plant at its Burlington North location at 12971 S NC Highway 62 in Caswell County.

In 2020, DAQ denied the facility's synthetic minor permit application after modeling found that the facility would violate both the nitrogen dioxide and sulfur dioxide National Ambient Air Quality Standards (NAAQS) beyond the property boundary.

Since then, Carolina Sunrock LLC has submitted a new application to demonstrate compliance with NAAQS. Some of the changes reflected in their new application include:

- A new condition that includes a fuel oil sulfur limit in the asphalt cement heaters.
- A new condition will be added as a result of the NAAQS modeling analysis that contains a requirement of compliance with the synthetic minor restrictions and monitoring/recordkeeping.
- A new condition to adequately maintain the haul roads and work areas via the use of a water truck to help with dust.

DAQ will host a digital public hearing on Monday, September 20 on a draft permit for the Carolina Sunrock LLC – Burlington North facility. The public is invited to participate online or by phone.

Event title: Public Hearing for Carolina Sunrock LLC – Burlington North

Date and Time: September 20, 2021 at 6 p.m.

Phone: US TOLL +1-415-655-0003, Access Code 161 633 4904
