

ADVANTAGES TO WNCLAA MEMBERSHIP

- Provide an opportunity to meet with State inspectors and officials to obtain technical assistance for wastewater treatment plant laboratory issues and regulation changes.
- Ask questions to State laboratory inspectors, without the pressure of an actual inspection.
- Provide an opportunity to meet with laboratory supply representatives, who give information about new products and give insight on using their current products.
- Meet with peers to share specific issues or problems that may arise within the laboratory or plant.
- Obtain 2.0 contact hours per meeting to go toward the 6.0 hours required to maintain state wastewater treatment certifications.
