ROCKY RIVER WATERSHED INTERAGENCY MEETINGS

The Division of Water Resources (DWR) is hosting three interagency work group meetings with the NC Wildlife Resources Commission (WRC) and the US Fish and Wildlife Service (USFWS) about endangered and threatened species that inhabit the Rocky River watershed in Chatham County, NC.

MEETING 01

THURSDAY APRIL 8, 2021
10:00 - 11:30 AM

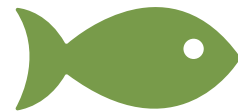

Meeting 1 will cover current field studies and water quality in the lower portion of the Rocky River watershed.

MEETING 02

THURSDAY APRIL 8, 2021
1:00 - 2:30 pm

Meeting 2 will cover the current and proposed health assessments of the endangered Cape Fear Shiner and other rare species in the watershed.

MEETING 03

MONDAY APRIL 12, 2021
10:00 - 11:30 AM

Meeting 3 will review the water quality needs for endangered and threatened species in the watershed and explore potential conservation and mitigation opportunities.

The meetings will be held virtually via WebEx. A link to the meetings and the full agenda will be on the DWR Basinwide Planning Branch (BPB) website. The meeting is intended to be an interagency work group meeting, but the public and interested stakeholders are welcome to listen in. DWR will host a follow up Rocky River Management Team Meeting. These meetings are open to the public and will provide a detailed overview of the interagency work group meeting.
