RE: Letter of Intent to Apply for a Round 4 Jordan Lake Water Allocation

Dear Mr. Fransen,

The purpose of this letter is to express the intent of the Town of Pittsboro to apply for an allocation of water supply during the Jordan Lake Round 4 Water Supply Allocation process.

The Town of Pittsboro Water Plant currently takes its raw water from and impoundment behind the dam on the Haw River near US 15/501. While this raw water source has served us well in the past, we expect that the growth envisioned for the Town of Pittsboro over the next 50 years will require us to find a new and larger source of water to augment our current water source. Accordingly, we are participating in the Jordan Lake Partnership with a view toward seeking a 7 million gallon per day allocation of water from Jordan Lake as part of the Jordan Lake Round 4 Water Supply Allocation process.

Town of Pittsboro points of contact for the Jordan Lake Round 4 Water Supply Allocation process are:
