PUBLIC WATER SUPPLY SECTION

The PWSS regulates public water systems within the State. Public water systems are those which provide piped drinking water to at least 15 connections or 25 or more people for 60 or more days/yr. The PWSS works to ensure that water from these public water systems is safe to drink. This is accomplished through inspections, source site approval, investigations, plans and specification reviews, operating report reviews, providing emergency response to water systems, and by providing technical assistance to water system personnel, consultants, and operators.

Jeannine Press, Engineer I
Kimberly Cribbs, Engineer I
Allen Baker, Environmental Specialist I

DIVISION OF WASTE MANAGEMENT BROWNFIELDS PROGRAM

The North Carolina Brownfields Program, authorized by the State statute known as the Brownfields Property Reuse Act, provides a mechanism to treat prospective developers of brownfield sites differently than the parties responsible for contaminating them. Prospective developers negotiate a brownfields agreement with the program that defines activities needed to make the site suitable for reuse, rather than cleaning up the site to regulatory standards (which responsible parties are required to do).

David Peacock, Environmental Senior Specialist
Samuel Watson, Brownfields Project Manager

UNDERGROUND STORAGE TANKS SECTION

The UST Section has the regulatory authority of UST installation and operation, investigations of leaking USTs, and cleanup of releases. This Section also oversees and investigates non-UST petroleum releases.
