

Funding Actions Taken at March 13, 2019 Meeting of the State Water Infrastructure Authority on Applications Submitted in October 2018 to the Division of Water Infrastructure

On October 31, 2018, the Division of Water Infrastructure (Division) received applications for funding for the Community Development Block Grant-Infrastructure (CDBG-I) grant program, Drinking Water State Revolving Fund (DWSRF) loan program, Drinking Water State Reserve (DWSR) program, Clean Water State Revolving Fund (CWSRF) loan program, the Drinking Water State Reserve program and the Wastewater State Reserve program. Table 1 shows the amount of funding considered in applications that were complete and eligible, and the approximate amount of funding available by source.

The State Water Infrastructure Authority (Authority) determined the eligibility of applications selected to receive funding from the available funding sources listed above. The approved funding provides the best funding available for a given project application and maximizes the utilization of the current funding resources.
