

Funding Actions Taken at July 8, 2020 Meeting of the State Water Infrastructure Authority on the Applications Submitted in April 2020 to the Division of Water Infrastructure

On April 30, 2020, the Division of Water Infrastructure (Division) received applications for funding for drinking water and wastewater projects. Due to the COVID-19 pandemic, applicants were allowed to submit additional information needed for a complete application for the ASADRA¹ funds by June 17, 2020. The available sources of funding for the April 2020 applications are:

1. Drinking Water State Revolving Fund ASADRA¹ (DWSRF ASADRA)
2. Drinking Water State Revolving Fund (DWSRF)
3. Clean Water State Revolving Fund ASADRA¹ (CWSRF ASADRA)
4. Clean Water State Revolving Fund (CWSRF)
5. Wastewater State Reserve

Table 1 shows the amount of funding considered in applications that were complete and eligible, and the approximate amount of funding available. On July 8, 2020, the State Water Infrastructure Authority (Authority) determined the eligibility of applications selected to receive funding from the available funding sources listed above.

¹ On June 6, 2019, the President signed P.L. 116-20, the "Additional Supplemental Appropriations for Disaster Relief Act, 2019" (ASADRA). The Act provided funding for resiliency-focused projects at drinking water facilities and wastewater treatment works impacted by Hurricanes Florence and Michael. NC Session Law 2019-250 appropriated the necessary state match.

Table 2 shows a summary of the number of applications that were approved for funding and the amount of funding approved at the Authority's July 8, 2020 meeting.
